**The Morning Watches, and Night Watches. [New York-1855]** John R. Macduff, 2017-10-04 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

**The American Bird Conservancy Guide to Bird Conservation** Daniel J. Lebbin, Michael J. Parr, George H. Fenwick, 2010-10-15 Whether we live in cities, in the suburbs, or in the country, birds are ubiquitous features of daily life, so much so that we often take them for granted. But even the casual observer is aware that birds don't fill our skies in the number they once did. That awareness has spawned conservation action that has led to notable successes, including the recovery of some of the nation's most emblematic species, such as the Bald Eagle, Brown Pelican, Whooping Crane, and Peregrine Falcon. Despite this, a third of all American bird species are in trouble—in many cases, they're in imminent danger of extinction. The most authoritative account ever published of the threats these species face, *The American Bird Conservancy Guide to Bird Conservation* will be the definitive book on the subject. The Guide presents for the first time anywhere a classification system and threat analysis for bird habitats in the United States, the most thorough and scientifically credible assessment of threats to birds published to date, as well as a new list of birds of conservation concern. Filled with beautiful color illustrations and original range maps, the Guide is a timely, important, and inspiring reference for birders and anyone else interested in conserving North America's avian fauna. But this book is far more than another shout of crisis. The Guide also lays out a concrete and achievable plan of long-term action to safeguard our country's rich bird life. Ultimately, it is an argument for hope. Whether you spend your early weekend mornings crouched in silence with binoculars in hand, hoping to check another species off your list, or you've never given much thought to bird conservation, you'll appreciate the visual power and intellectual scope of these pages.

*Child Security in Asia* Cecilia Jacob, 2013-08-15 Millions of children around the world are affected by conflict, and the enduring aftermath of war in post-conflict societies. This book reflects on the implications of children's insecurity for governments and the international humanitarian community by drawing on original field research in post-conflict Cambodia and in Burma's eastern conflict zones. The book examines the way that politics and discourses of security and child protection have further marginalised rather than enhanced the protection of children. In Cambodia, threats from trafficking, exploitative labour, and high levels of domestic and social violence challenge the government and the international humanitarian community to respond to the new human security terrain that is the legacy of three decades of political violence. Burma has endured over 60 years of insurgency and civil conflict in ethnic minority states, significantly affecting children who are recruited into armies, killed, maimed or tortured, and displaced. Analysing the theoretical and practical challenges faced in addressing children's security in global politics, the book offers a novel framework for responding to the politics of protection that is at the heart of this crucial issue. It is a useful contribution to studies on Asian Politics and International Relations and Security.

War Mrs. Cathy Miller, Rear Admiral Joseph H. Miller, 2017-11-08 War is an armed conflict between states or nations. The causes of war may be ideological, political, racial, economic, or religious. War has been a feature of history. The use of fighting forces requires strategy and tactics. Efforts to end war have all failed, including the League of Nations and the United Nations. The laws of war are not recognized. There has been no success in leaving out the civilian population in any war. The biblical concept of war required that God declare the war. The LORD hath sworn that the LORD will have war from generation to generation (Exod. 17:16). The book of the wars of the LORD (Num. 21:14). Our fight against radical Islam is a fight for LORDs battles (1 Sam. 18:7). Our holy war is against murder, terrorists, the rise of ISIS and forty-four known terrorist groups, and a vanishing freedom. It is nowfight or die!
