A Book of Golden Deeds Charlotte Mary Yonge, 1927

Lake Pavin Télesphore Sime-Ngando, Pierre Boivin, Emmanuel Chapron, Didier Jezequel, Michel Meybeck, 2018-07-07 This book represents the first multidisciplinary scientific work on a deep volcanic maar lake in comparison with other similar temperate lakes. The syntheses of the main characteristics of Lake Pavin are, for the first time, set in a firmer footing comparative approach, encompassing regional, national, European and international aquatic science contexts. It is a unique lake because of its permanently anoxic monimolimnion, and furthermore, because of its small surface area, its substantially low human influence, and by the fact that it does not have a river inflow. The book reflects the scientific research done on the general limnology, history, origin, volcanology and geological environment as well as on the geochemistry and biogeochemical cycles. Other chapters focus on the biology and microbial ecology whereas the sedimentology and paleolimnology are also given attention. This volume will be of special interest to researchers and advanced students, primarily in the fields of limnology, biogeochemistry, and aquatic ecology.

Country Music Records Tony Russell, Bob Pinson, 2004-10-07 More than twenty years in the making, Country Music Records documents all country music recording sessions from 1921 through 1942. With primary research based on files and session logs from record companies, interviews with surviving musicians, as well as the 200,000 recordings archived at the Country Music Hall of Fame and Museum's Frist Library and Archives, this notable work is the first compendium to accurately report the key details behind all the recording sessions of country music during the pre-World War II era. This discography documents--in alphabetical order by artist--every commercial country music recording, including unreleased sides, and indicates, as completely as possible, the musicians playing at every session, as well as instrumentation. This massive undertaking encompasses 2,500 artists, 5,000 session musicians, and 10,000 songs. Summary histories of each key record company are also provided, along with a bibliography. The discography includes indexes to all song titles and musicians listed.

Jacob Van Ruisdael Seymour Slive, 2001-01-01 If you know the 26 letters of the alphabet and can count to 99 -- or are just learning -- you'll love Tana Hoban's brilliant creation. This innovative concept book is two books in one!

A Million Miles from Broadway Revised and Expanded Edition Mel Atkey, 2019-09-20 Musical theatre is an international form, not just an American one. It can take root anywhere. Few people would realise that such hit standards as *The Glow Worm*, *Brazil*, *Mack the Knife*, *I Will Wait for You* and *El Condor Pasa* came from foreign language musicals. His research is monumental... This is an important book on a previously undocumented area of musical theatre. -- Peter Pinne, *Stage Whispers* There's never been a better book for the armchair-traveler-theatergoer. -- Peter Filichia

A Grammar of Purik Tibetan Marius Zemp, 2018-05-29 In *A Grammar of Purik Tibetan*, Marius Zemp offers a comprehensive description of the phonologically archaic Tibetan variety spoken in Jammu and Kashmir (India). This book goes beyond other language descriptions in that Zemp persistently provides diachronic accounts for functional divergences.

Dream Machines Steven Connor, 2017-07 *Dream Machines* is a history of the ways in which machines have been imagined. It considers seven different kinds of speculative, projected or impossible machine: machines for teleportation, dream-production, sexual

pleasure and medical treatment and cure, along with 'influencing machines', invisibility machines and perpetual motion machines.

Dürer and Beyond Stijn Alsteens,Freyda Spira,2012 This exhibition is the first to offer an extensive overview of the Museum's holdings of early Central European drawings, many of which were acquired in the last two decades. An emphasis on works by later sixteenth- and seventeenth-century artists is balanced by a selection of German drawings from the fifteenth and earlier sixteenth century, of which some of the most exceptional ones--including works by Albrecht Dürer--entered the Museum with The Robert Lehman Collection in 1975.--Publisher's website.

An Index to Reproductions of Paintings by Twentieth-Century Chinese Artists Ellen Johnston Laing,2021-01-19 In the second half of the twentieth century, studies in Chinese painting history have been greatly aided by several major lists of Chinese artists and their works. Published between 1956 and 1980, these lists were limited to Imperial China. The current index covers the period from 1912 to around 1980. It includes the names of approximately 3,500 traditional-style artists along with lists of their works, reproduced in some 264 monographs, books, journals, and catalogs published from the 1920s to around 1980. With a few exceptions, artists working after 1949 outside continental China are excluded. Revised Edition, 1998; first published by the Asian Studies Program, University of Oregon, 1984.
