Emerging Solutions for Musical Arts Education in

Africa Pan African Society for Musical Arts Education,2005 Emerging Solutions for Musical arts Education in South Africa offers peer-reviewed articles prepared for the 2003 Conference of the Pan African Society for Musical Arts Education in Africa held in Kisumu, Maseno, Kenya. Not only does this publication voice the solutions offered by 31 authors from the African continent and beyond, but it presents in a unique and highly accessible fashion the collective voice of the conference participants. True to the spirit of ubuntu - an individual is only a person through other people (their communities) - this publication is a reflection of the essence of an overarching sub-Saharan philosophy; the contents represents a conference where papers were not presented, but where conference participants engaged to discuss solutions for the musical arts on the African continent. While the individual voice has been given its rightful place, the collective voice represents an emergent song composed by the scholarly community in oral fashion. This publication provides insight into

the problems of musical arts education in Africa; and solutions for musical arts education.

Music Education in Africa Emily Achieng'

Akuno, 2019-04-01 This book explores the music of Africa and its experience in modern education, offering music education analyses from African perspectives. The collection assembles insights from around Africa to bring African and non-African scholars into the world of music, education, policy, and assessment as played out across the continent. The music of Africa presents multiple avenues for the understanding of the reality of life from a cultural perspective. The teaching and learning of this music closely follows its practice, the latter involving a combination of artistic expressions. With international interest in world music, there is need to engage with concepts and processes of this music. The volume offers new research from culture bearers, scholars, and educators rooted in practices that provide deeper perceptions of the cultural expression of music. With sections focussing on Concepts in Musical Arts, Musical Arts Processes, and Music Education Practice, it captures and documents the concept of musical arts from an African experiential perspective. Articulating the processes of musical arts and their implications for teaching and learning in both African and international learning contexts, it presents a balanced view of music as a phenomenon and generates material for discussion. A valuable resource for those seeking insight into aspects of music practice in Africa, this book will appeal to scholars of Music Education,

Ethnomusicology, Community Music, African Studies, and African Music.

Statistical Implicative Analysis Régis Gras, Einoshin Suzuki, Fabrice Guillet, Filippo

Spagnolo,2008-04-29 Statistical implicative analysis is a data analysis method created by Régis Gras almost thirty years ago which has a significant impact on a variety of areas ranging from pedagogical and psychological research to data mining. Statistical implicative analysis (SIA) provides a framework for evaluating the strength of implications; such implications are formed through common knowledge acquisition techniques in any learning process, human or artificial. This new concept has developed into a unifying methodology, and has generated a powerful convergence of thought between mathematicians, statisticians, psychologists, specialists in pedagogy and last, but not least, computer scientists specialized in data mining. This volume collects significant research contributions of several rather distinct disciplines that benefit from SIA. Contributions range from psychological and pedagogical research, bioinformatics, knowledge management, and data mining.

Communication in Instruction Taylor & Francis Group, 2021-06-16 **Communication in Instruction: Beyond Traditional Classroom Settings** explores the various challenges when trying to teach others in various contexts beyond traditional classroom settings, as well as the possible strategies for overcoming them. Instructional communication is a research field that focuses on the role communication plays in instructing others. Although many resources focus on effectively instructional communication strategies within a traditional classroom setting, this book expands the scope to include diverse settings where instructional communication also occurs (e.g., risk and crisis situations, health care contexts, business settings), as well as new directions where instructional communication research and practice is (or ought to be) headed. Whether we are trying to teach a youngster to ride a bike, to help a friend evaluate the claims made on an advertisement, or to conduct a safety drill with colleagues in the workplace, we are engaging in

instructional communication. If we want to do so effectively, however, we need to equip ourselves with best practice tools and strategies for doing so. That is what this book is intended to do. In it, you will read about how to teach advocacy to health care practitioners, guide others to become socialized in a new workplace setting, strategies for teaching digital media literacy to nondigital natives, using artificial intelligence (AI) and robots when instructing, and strategies for instruction around socially relevant issues such as religion, politics, and violence. Together, they point to some of the ways instructional communication scholarship may be used to explore and inform best practices across communication contexts. The chapters in this book were originally published in Communication Education.

Collaborative Action Research Sharon Nodie
Oja,Lisa Smulyan,1989

Kiss Carlo Adriana Trigiani,2017-06-27 From Adriana Trigiani, the beloved New York Times- bestselling author of *The Shoemaker's Wife*, comes an exhilarating epic novel of love, loyalty, and creativity--the story of an Italian-American family on the cusp of change. It's 1949 and South Philadelphia bursts with opportunity during the post-war boom. The Palazzini Cab Company & Western Union Telegraph Office, owned and operated by Dominic Palazzini and his three sons, is flourishing: business is good, they're surrounded by sympathetic wives and daughters-in-law, with grandchildren on the way. But a decades-long feud that split Dominic and his brother Mike and their once-close families sets the stage for a re-match. Amidst the hoopla, the arrival of an urgent telegram from Italy upends the life of Nicky Castone (Dominic and his wife's orphaned nephew) who lives and works with his Uncle Dom and his

family. Nicky decides, at 30, that he wants more—more than just a job driving Car #4 and more than his longtime fiancée Peachy DePino, a bookkeeper, can offer. When he admits to his fiancée that he's been secretly moonlighting at the local Shakespeare theater company, Nicky finds himself drawn to the stage, its colorful players and to the determined Calla Borelli, who inherited the enterprise from her father, Nicky must choose between the conventional life his family expects of him or chart a new course and risk losing everything he cherishes. From the dreamy mountaintop village of Roseto Valfortore in Italy, to the vibrant streets of South Philly, to the close-knit enclave of Roseto, Pennsylvania, to New York City during the birth of the golden age of television, *Kiss Carlo* is a powerful, inter-generational story that celebrates the ties that bind, while staying true to oneself when all hope seems lost. Told against the backdrop of some of Shakespeare's greatest comedies, this novel brims with romance as long buried secrets are revealed, mistaken identities are unmasked, scores are settled, broken hearts are mended and true love reigns. Trigiani's consummate storytelling skill and her trademark wit, along with a dazzling cast of characters will enthrall readers. Once again, the author has returned to her own family garden to create an unforgettable feast. *Kiss Carlo* is a jubilee, resplendent with hope, love, and the abiding power of la famiglia.
