Unlocking the Power of Your QMS John (Jack) E. West, Charles A. Cianfrani, 2005-02-01 Some organizations just get by. While they may realize some successes over time, they often aren't traceable to the organization's quality management system (QMS). Other organizations can trace performance improvements to their QMSs, and therefore are able to sustain and expand upon them. Working from the tenet that performance improvement is too important to be left to chance, the authors of *Unlocking the Power of Your QMS* have meticulously combed the most fundamental, globally accepted quality standards and criteria, and have culled 12 principles that can serve as a foundation for mature quality management systems. Next, through an assessment by top management, the mission, vision, and business model of the organization are determined and aligned with these 12 principles. West and Cianfrani make the case that "...there is nothing an organization can do that can have more benefit than the development and deployment of its principles." This book not only convinces you, it provides you with the guidelines you need to dramatically improve performance in your organization.

Unlocking the Emotional Brain Bruce Ecker, Robin Ticic, Laurel Hulley, 2024-04-22 This highly influential volume, now in a much-expanded second edition, delivers major advances for psychotherapy, all empirically grounded in memory reconsolidation neuroscience. A great increase of therapeutic effectiveness can be gained, thanks to a clear map of the brain's innate core process of transformational change—a process that does not require use of any particular system or techniques and is therefore remarkably versatile. Twenty-six case examples show the decisive ending of a vast range of major symptoms, including depression, anxiety, panic, shame, self-devaluing, anger,

perfectionism, alcohol abuse, sexual aversion, compulsive eating and obesity, paralyzed self-expression, and teen ADHD—all transformed through deeply resolving underlying disturbances such as complex trauma, lifelong oppression by systemic racism and homophobia, childhood sexual molestation, parental narcissistic domination, violent assault trauma, natural disaster trauma, and childhood traumatic aloneness and neglect. This is a transdiagnostic, transtheoretical, lucid understanding of therapeutic action, based, for the first time in the history of the psychotherapy field, on rigorous empirical knowledge of an internal mechanism of change, and it achieves a fundamental unification of the confusingly fragmented psychotherapy field: diverse systems no longer seem to belong to different worlds, because they now form a wonderful repertoire of options for facilitating the same core process of transformational change, as shown in case examples from AEDP, Coherence Therapy, EFT, EMDR, IFS, IPNB, ISTDP, psychedelic-assisted therapy, and SE. It's now clear why therapy systems that differ strikingly in technique and theory can produce the same quality of liberating change. Practitioners who value deep connection with their clients are richly rewarded by the experiential depth that this core process accesses, where no awareness had previously reached, whether sessions are done in person or via online video. It is an embarrassment of riches, because in addition we gain the decisive resolution of several longstanding, polarizing debates regarding the nature of symptom production, the prevalence of attachment issues,

the operation of traumatic memory, the functions of the client-therapist relationship, the role of emotional arousal in the process of change, and the relative importance of specific versus non-specific factors.

Unlocking the Puzzle David Oliver

Smith, 2016-11-22 A shorter, simpler first draft of the Gospel of Mark has been theorized by New Testament scholars for almost two hundred years. Using literary tools, David Oliver Smith strips away interpolation and redaction from the canonical Gospel to reveal that long-sought first draft--the Original Gospel of Mark. Original Mark, shorter than the canonical version and with several large blocks of text replaced in their original locations, reveals a coherent structure and a different picture of who Jesus is. But it is anything other than simple. The Original Gospel also presents puzzles for the curious reader of Mark to solve, and Smith has found the keys to their solution. Analysis of the text that was interpolated into Mark reveals who that redactor might have been. Evidence is presented that it was the author of the Gospel of Luke who redacted the first-written Gospel, jumbled its structure, and changed its Christology. Follow the analysis of literary structures created by the genius who wrote Mark's Gospel and discover the astounding design of the Original Gospel of Mark.

MacMillan, Alexander B. van Putten, 2008-07-09 "This book is a must for any Business Development Manager, Corporate Strategist, R&D Director, and anyone else who is accountable for growth in a corporation. It is an easy read that is practical and not fraught with useless academic theories."

Ron Pierantozzi, Ph.D., CEO of PPT Research and Former Director, Business Development, Air Products & Chemicals, Inc. *A Breakthrough Approach to Investing in Business Innovation* Most companies analyze investments using tools that bias them against real innovation and lead them to avoid their best opportunities. This book introduces a breakthrough alternative: Opportunity Engineering. Drawing upon recent advances in financial analysis, but without requiring a lot of math, the authors show how to engineer the risk out of uncertain opportunities so you can pursue more high-payoff innovations. You'll learn how to escape from the "go/no-go vise" and implement more flexible decision-making that considers all the business alternatives, models, and opportunities associated with each project. You'll learn how to systematically structure high-potential projects to limit downside exposure and boost your potential upside. uncertainty work for you, not against you. Why companies avoid their best opportunities for innovation Getting past risk-averse analysis that snuffs out experimentation and innovation Systematically engineering your opportunities Capturing the upside, slicing out the downside Beyond rigid “go/no-go” decisions How flexible, staged innovation creates more opportunities for delivering value Constructing an engineered growth portfolio of innovation investments Optimizing your mix of core-enhancing investments and high potential “long shots”

Unlocking Galatians Again ,

Unlocking Galatians Again Clarence

Reyneveld, 2008-10 Unlocking Galatians Again is a verse-by-verse journey through Galatians. Like an underground cavern it has impressive chambers. Some hidden chambers will need to be opened and explored. Like the sun, St. Paul's epistle to the Galatians shines forth with light. During Luther's time it pierced the darkness. History shows us that when its light grows dim, God's people become like a wilted flower. When its light grows bright, we become like a thriving plant. It teaches us how to walk by faith by telling us where to focus our faith. Translation decisions can sometimes hinder some of its light from shining. For the Christian, a fresh discovery of Galatians can cause a burst of renewal. For the Pastor, it may change the way we preach and care for the spiritual needs of others. Walk with Luther through this cavern. You will discover spiritually impressive sights which he experienced while traveling through Galatians. After being ordained in 1987, Chaplain Clarence Reyneveld served as a Pastor in Illinois, Michigan, and Washington State. Since 1999 he has

been involved in a television ministry, producing and presenting Bible Study programs which are aired in many homes mainly in Michigan. His unique blend of training and spiritual involvement gives him important qualifications to write this book.
