Inventing the Cloud Century Marcus Oppitz, Peter Tomsu, 2017-08-03 This book combines the three dimensions of technology, society and economy to explore the advent of today's cloud ecosystems as successors to older service ecosystems based on networks. Further, it describes the shifting of services to the cloud as a long-term trend that is still progressing rapidly. The book adopts a comprehensive perspective on the key success factors for the technology – compelling business models and ecosystems including private, public and national organizations. The authors explore the evolution of service ecosystems, describe the similarities and differences, and analyze the way they have created and changed industries. Lastly, based on the current status of cloud computing and related technologies like virtualization, the internet of things, fog computing, big data and analytics, cognitive computing and blockchain, the authors provide a revealing outlook on the possibilities of future technologies, the future of the internet, and the potential impacts on business and society.

International Cooperation, Competition Authorities and Transnational Networks Mateusz Błachucki, 2023-11-30 This book presents a comprehensive study of the emergence, functioning and evolution of international cooperation among competition authorities. It presents an in-depth look at network cooperation taking place within international organisations, as well as networks based on binding international agreements and various informal networks, among others. It further identifies and analyses the forms of international cooperation among national competition authorities (NCAs) that are taking place within transnational competition networks. The book classifies these forms of cooperation by grouping them into three stages – soft, developed and enhanced cooperation – discussing each in detail. It thus reflects the evolution of the international cooperation process and provides insights as to its possible development. This work will be of interest to researchers, academics and advanced students in the fields of competition law, public administration, international relations and those interested in international competition law and its contribution to global public governance.

Tourism Destination Management Manuel Rodríguez-Díaz, Tomás F. Espino-Rodríguez, 2019-09-18 This book collected studies focused on the management of tourist destinations. Destinations are complex and adaptive systems, where the different elements that make them up have to be oriented towards achieving a common objective that improves the competitiveness of the destination. Five main lines of research on tourist destinations can be established: 1) the management, planning, and marketing of destinations, with special attention to the tourism supply chain, communication, and integral management; 2) the sustainability of resources and capabilities; 3) the renewal of destinations in order to update their offer and main resources to maintain competitiveness; 4) online reputation and communication through social media in order to create and enhance a strong brand image and customer loyalty; and 5) the application of new technologies in order to develop smart destinations. The book is made up of

five research studies that focus on analyzing the transition towards a more circular tourist activity in hotels, image as a competitive factor of destinations, the value of cultural creativity, the coherence of online reputation, and the relationship between hotel prices and online reputation in different tourist destinations.

Information and Communication Technologies in Tourism 2013 Lorenzo Cantoni,Zheng (Phil) Xiang,2013-11-18 The papers presented in this volume advance the state of the art in social media and Web 2.0, electronic tourism marketing, web site and search engine optimization, technology adoption and diffusion, online communities, tourism management and decision support, eLearning, mobile technologies and applications in tourism, recommender systems, e-intermediaries and networks in tourism, customer research in e-tourism and user generated content. Sexually Transmitted Infections - E-book Bhushan Kumar,Somesh Gupta,2014-02-10 Covers all aspects (historical, epidemiological, diagnostic, clinical, preventative, public health and medico-legal) of STIs in complete detail with a special emphasis on STIs in special groups—migrants, homosexuals, and sexually abused. Covers basic and laboratory sciences extensively to blend with the basics required by the clinician for proper understanding of the disease process. Clinical photographs, illustrations, photographs of specimens and cultures, histopathology, flow charts and line diagrams are given extensively throughout the text to make relevant clinical situation self-explanatory. Has very useful and practical information for even the clinician in the periphery, where the investigative component is either non-existent or very basic and many new drugs are not available or unaffordable. Management of HIV in adults and children in resource-poor countries has been covered extensively along with syndromic management of STIs. This enables a physician to choose from approaches in a particular situation depending upon the available means—laboratory or therapeutic. Covers sexual dysfunction in both men and women and the basics of human sexual behavior and sexual health. Section Editors and Contributors from all continents of the world have made this a truly global reference book. It is a useful reference text for epidemiologists, public health experts, clinicians, microbiologists, health workers, social organizations and counselors working in the field of STIs, sexual health, and HIV.

Regulating Vertical Agreements Maria Fernanda Caporale Madi,2020-10-09 Vertical agreements represent a variety of supply and distribution contracts involving different market players, such as suppliers of diverse inputs, manufacturers, distributors and retailers. They gain particular significance in a global economy where technological advances are dynamic and are changing all the time. Such agreements are signed among businesspeople on a daily basis, and antitrust experts around the world are often asked to advise on whether they have any negative impact on competition or whether they infringe antitrust law. Taking into consideration the complex economic impacts of these vertical alliances, and the different market conditions that firms face in a wide variety of situations, the author proposes an in-depth examination of the following topics: resale price-fixing; geo-blocking clauses; exclusive and selective distribution systems; the concept of 'economic efficiency' in the context of vertical restraints; self-assessment of potential anticompetitive effects and antitrust risks; ex post control of vertical restraints; digital economies and its policy impact;

alternative enforcement models under various institutional frameworks; the role and influence of political pressure groups. The book offers very constructive theoretical and political insights at the frontier between the disciplines of Economics and Law. By comparing two world's leading antitrust jurisdictions, this book explores the lessons to be learned from the legal rules in the European Union and in Brazil, considering their promises and drawbacks, and formulates policy recommendations.

Complications in Head and Neck Surgery E-Book David Eisele, Richard V. Smith, 2008-10-31 Effectively avoiding, recognizing, and managing complications is integral to your operative success. Let a multidisciplinary team of experts in otolaryngology, plastic surgery, oral and maxillofacial surgery, and general surgery guide you through the full range of complications associated with every type of head and neck procedure . . . so you will be equipped to produce the most favorable outcomes for even the most challenging cases! Expert, comprehensive, multidisciplinary coverage of head and neck complications helps you to safely incorporate new surgical techniques into your practice. An emphasis on complication prevention and recognition assists you in avoiding the complication cascade. Coverage of both acute and long-term care of patients with head and neck complications

prepares you to make effective choices in both instances. A new Quality of Life section examines the controversies that often surround selecting one procedure over another, illuminating why certain procedures aren't always best for some patients. A new section on complications of facial plastic and reconstructive surgery equips you to perform these techniques with greater confidence. A consistent, practical chapter format helps you focus on key clinical and surgical considerations. A new, more cohesive full-color illustration program richly captures visual nuances of clinical presentation and operative technique. A bonus CD-ROM allows you to use all of the images from the book in electronic presentations.
