Be a Web Developer In 90 Days! Go from Beginner to Expert. \*Easy Web development skills Book for Beginners\*Step by Step guide - how to become a web developer\*Become a web developer in 90 days\*Java developer guide \*Learn css web design Are you working at your dream job? What would you do if I told you I have my dream job? After working almost 20 years in corporate America, I figured out what career makes me happy. It's true, some people actually love their jobs! I can proudly say I am one of them. I am a Web Developer. I've been professionally coding websites from scratch for the last seven years. I freaking love coding! I recall when I would randomly ask people if they love their jobs. I was always puzzled when people said that they genuinely loved what they did for a living. Don't get me wrong, I had a plush sales career making six figures, a company car, corporate credit card and flexible hours but I was still unhappy. I dreaded Mondays. It was during the Covid-19 Pandemic that it hit me. What better time than now to help others transition into a new career? Our new normal requires a career that you can work from virtually anywhere. And a career that's in high demand. That's a win/win. The pandemic taught us a lot of things and one of them being that nothing is for certain. With millions of individuals losing their jobs due to Covid-19, now is the time to share my coding expertise and innovation with the world. I am

just the person to teach you how to code because I too was once a beginner. I didn't major in technology or computer science. But I did go from beginner to expert and so can you. I currently own a successful creative design firm that specializes in cutting-edge web design, mobile apps and branding. You are going to enjoy this book because I have made coding fun by doing something that has never been done before. I've included animations that explain daily lessons. You will also receive a free 15 minute live chat with a Certified Web Developer. Plus, you can learn at your own pace. If you need additional help, there's an option to attend live online classes. At the end of this book, for your final project, you will build your own website. How To Be A Web Developer In 90 Days shares the code of a dynamic, innovative website. This code includes the features and functions that can easily be used as the foundation to build your clients' website. This book provides the blueprint to your new career. Are you ready to change your future? Let's gooooo!
