Nationalism and the Haram al-Sharif/Temple Mount

Erik Freas, 2017-07-12 This book examines the manner in which the Haram al-Sharif/Temple Mount has been appropriated by both Palestinians and Israelis as a nationalist symbol legitimizing respective claims to the land. From the late-nineteenth century onward, the site's significance became reconfigured within the context of modern nationalist discourses, yet, despite the originally secular nature of Palestinian and Israeli nationalisms, the holy site's importance to Islam and Judaism respectively has gradually altered the character of both in a manner blurring the line between religious and national identities.

Jerusalem Unbound Michael Dumper, 2014-05-27 Jerusalem's formal political borders reveal neither the dynamics of power in the city nor the underlying factors that make an agreement between Israel and the Palestinians so difficult. The lines delineating Israeli authority are frequently different from those delineating segregated housing or areas of uneven service provision or parallel national electoral districts of competing educational jurisdictions. In particular, the city's large number of holy sites and restricted religious compounds create enclaves that continually threaten to undermine the Israeli state's authority and control over the city. This lack of congruity between political control and

the actual spatial organization and everyday use of the city leaves many areas of occupied East Jerusalem in a kind of twilight zone where citizenship, property rights, and the enforcement of the rule of law are ambiguously applied. Michael Dumper plots a history of Jerusalem that examines this intersecting and multileveled matrix and in so doing is able to portray the constraints on Israeli control over the city and the resilience of Palestinian enclaves after forty-five years of Israeli occupation. Adding to this complex mix is the role of numerous external influences—religious, political, financial, and cultural—so that the city is also a crucible for broader contestation. While the Palestinians may not return to their previous preeminence in the city, neither will Israel be able to assert a total and irreversible dominance. His conclusion is that the city will not only have to be shared, but that the sharing will be based upon these many borders and the interplay between history, geography, and religion.

Hacking im Web 2.0 Tim Philipp

Schäfers, 2018-09-10 Der Erfolg des E-Commerce hat auch seine Schattenseiten: Hackerangriffe im Web gehören inzwischen zum Alltag. Es geht dabei nicht nur um unsichere Firewalls oder Fehler in Betriebssystemen, häufig stellt die selbst programmierte Webapplikation das größte Einfallstor dar. Um sich vor Hackern zu schützen, ist es wichtig, wie ein Hacker zu denken. In diesem Buch lernen Sie die häufigsten Angriffsmethoden kennen und erhalten Tipps, wie Sie sich dagegen schützen können. Analysieren Sie

Ihren Programmcode auf Schwachstellen und schließen Sie die Lücken gleich in der Implementierungsphase. Die wichtigsten Angriffsvektoren Durch die Kombination verschiedenster Technologien wie Browser, HTML, JavaScript, PHP, Java und SQL in Webanwendungen sind die potenziellen Schwachstellen quasi unzählbar. Ob SQL-Injection, Cross-Site-Scripting oder Session-Hijacking: Lernen Sie die Funktionsweise dieser Angriffe kennen, stellen Sie Ihr Können beim Angreifen der Testumgebung unter Beweis und schützen Sie sich mit den aufgeführten Tipps erfolgreich vor Angriffen. Werkzeuge kennen und nutzen Entwickler sind keine Sicherheitsexperten und können nicht jede Schwachstelle der eingesetzten Programmiersprache und Bibliotheken kennen. Umso wichtiger ist es, die entstandene Webanwendung auf ihre Schwachpunkte zu testen. Schäfers stellt in einem ausführlichen Anhang zahlreiche Werkzeuge vor, mit denen Sie effektiv nach Schwachstellen suchen können.

In the Shadow of the Wall Vincent Lemire, 2023-04-04 The Maghrebi Quarter of Jerusalem long sat in the shadow of the Western Wall, the last vestige of the Second Temple. Three days after the June '67 War, Israeli forces razed the Quarter, its narrow alleys widened and homes removed, to create the Western Wall Plaza. With this book, Vincent Lemire offers the first history

of the Maghrebi Quarter—spanning 800 years from its founding by Saladin in 1187 to house North African Muslim pilgrims through to its destruction. To bring this vanished district back to life, Lemire gathers its now-scattered documentation in the archives of Muslim pious foundations in Jerusalem and the Red Cross in Geneva, in Ottoman archives in Istanbul and Israeli state archives. He engages testimonies of former residents and looks to recent archaeological digs that have resurfaced household objects buried during the destruction. Today, the Western Wall Plaza extends over the former Maghrebi Quarter. It is one of the most identifiable places in the world—yet one of the most occluded in history. In the Shadow of the Wall offers a new point of entry to understand this consequential place.

On Paper Nicholas A. Basbanes, 2013-10-15 A Best Book of the Year: Mother Jones • Bloomberg News • National Post • Kirkus In these pages, Nicholas Basbanes—the consummate bibliophile's bibliophile—shows how paper has been civilization's constant companion. It preserves our history and gives record to our very finest literary, cultural, and scientific accomplishments. Since its invention in China nearly two millennia ago, the technology of paper has spread throughout the inhabited world. With deep knowledge and care, Basbanes traces paper's trail from the earliest handmade sheets to the modern-day mills. Paper, yoked to politics, has played a crucial role in the unfolding of landmark events, from the American Revolution to Daniel Ellsberg's Pentagon Papers to the aftermath of 9/11. Without paper, modern hygienic practice would be unimaginable; as currency, people will do almost anything to possess it; and, as a tool of expression, it is inextricable from human culture. Lavishly researched, compellingly written, this masterful guide illuminates paper's endless

possibilities.
