**Camming** Angela Jones, 2020-02-18 Winner, Sociology of the Body and Embodiment Best Publication Award, given by the American Sociological Association Honorable Mention, 2021 Sexualities Section Book Award, given by the American Sociological Association The first inside look at how sex workers use webcams to make a living The erotic webcam industry, also known as “camming,” is a thriving global business. Angela Jones takes readers inside this multi-billion dollar industry, revealing how its workers experience intimacy, community, empowerment—and, as she compellingly argues, pleasure. Drawing on in-depth interviews, survey data, web analytics, and more, Jones highlights not only the dangers, but also the rewards, of working in one of the most taboo corners of the Internet. She provides an inside look at the public and private shows between cam models and their customers, from exotic dancing and pornographic videos, to masturbation shows and erotic chatrooms. A fascinating, much-needed glimpse into the lives of cam models, *Camming* takes us behind the webcam lens to experience the power of erotic labor in the twenty-first century.

Webcam Daniel Miller, Jolynna Sinanan, 2014-03-12 The use of webcam, especially through Skype, has recently become established as one more standard media technology, but so far there has been no attempt to assess its fundamental nature and consequences. Yet webcam has profound implications for many facets of human life, from self-consciousness and intimacy to the sustaining of long-distance relationships and the place of the visual within social communications. Based on research in London and Trinidad, this book shows how 'always-on' webcam is becoming an entirely different phenomenon from the initial use of webcam as a videophone. Webcam is examined within the framework of 'polymedia' - that is, the new environments created by the simultaneous presence of a multiplicity of communication technologies - and used to exemplify a theory of attainment that accepts media technologies as aspects of, rather than detracting from, our basic humanity.

**Confessions of a Recovering Environmentalist and Other Essays** Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on

“sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth’s thinking. In them he articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we’ve lived and how we should live.

**The Circle** Dave Eggers, 2013-10-08 INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (*Vanity Fair*). When Mae Holland is hired to work

for the Circle, the world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

**Mobile Media and Social Intimacies in Asia** Jason Vincent A. Cabañes,Cecilia S. Uy-Tioco,2020-01-09 This edited volume brings together cutting-edge studies from emerging scholars of

East/Southeast Asia who explore the role of mobile media in the contemporary transformation of the region's social intimacies, from the romantic to the familial to the communal. By providing a regional and transnational overview of such studies, it affords new insights into how these mobile technologies have contributed to the rise of 'glocal intimacies'. This pertains to the normalisation and intensification of how people's relationships of closeness are entangled in the ever-shifting and constantly negotiated flows between global modernity and local everyday life. In providing case studies of mobile media and glocal intimacies, the chapters in the volume attend to a broad range of countries that include China, Korea, Malaysia, the Philippines, Singapore, Vietnam, and Taiwan. This illustrates the differing ways in which mobile media might be embedded in the region's divergent articulations of social intimacies, which reflect the ongoing tensions between Western and Asian imaginaries of modernity. The chapters also discuss a wide array of mobile media that people use, from social media platforms like Facebook and Instagram, to messaging apps like KakaoTalk and WhatsApp, to dating apps like Tinder and Blued. This allows for a mapping out of the different levels of impact that mobile media might have on

social intimacies in a region that contains some of the most technologically advanced as well as the most technologically behind societies in the world. In summary, this book allows readers to take a comparative approach to understanding the complexity of the glocal intimacies that are emerging from the ways people in Asia use mobile media to reconfigure their local ties and to enact global relationships. This volume will benefit students, academics, and researchers who are keen in media and communication, cultural studies, sociology, anthropology, and Asian studies. “This exciting and much-needed book will greatly advance our efforts to decolonise media and communications research. The chapters offer empirically rich and nuanced accounts that challenge the dominant paradigms about mediated intimacy.” Mirca Madianou, Goldsmiths, University of London “This collection develops the original concept of ‘glocal intimacies’ to describe how mobile media have become a crucial site where new social intimacies are enacted, reinforced and transformed in Asia. It introduces fresh empirical research from emerging scholars to furnish deep theoretical insights into these imaginaries and practices.” Audrey Yue, National University of Singapore

**Dying, Death, and Grief in an Online Universe** Paul Gilbert, FBPsS, Carla Sofka, PhD, Kathleen Gilbert, PhD, CFLE, FT, Illene Noppe Cupit, PhD, 2012-02-09 [This book] is an excellent resource for the diverse practitioners and educators who are involved in this nascent area.--Cruse Bereavement Care [This] book is innovative and timely, challenging the reader to think 'out of the box.' Sofka, Cupit, and Gilbert provide a framework to explore thanatology in an online universe while encouraging continuous research to adapt to this ever-changing digital world.--Death Studies Historically we have

always employed our foremost technology in the service of the dead. We have used whatever we had at our disposal to mourn, to support, to share memories and to tell stories. Carla J. Sofka, Illene Noppe Cupit, and Kathleen R. GilbertÖ reaffirm that principle reminding us that this new digital world both offers dramatic technologies and creates considerable opportunities to deal with dying, death, and grief. The editors are extraordinarily sensitive to the multiple ways that this new technology has impacted upon the death system or the ways that a society organizes behavior around dying and death. *Dying, Death, and Grief in an Online Universe* is bound to be a classic. Kenneth J Doka, PhD Professor, The College of New Rochelle Senior Consultant, The Hospice Foundation of America

Modern communication technology has profoundly influenced societal practices and views about dying, death, and loss. This text, written for death educators, clinicians, researchers, and students of thanatology, provides current information about thanatechnology, the communication technology used in providing death education, grief counseling, and thantology research. The book offers a broad overview of how the communication technology revolution affects individuals coping with end-of-life

issues, death-related and non-death loss and grief, and implications of the digital divide between those who are knowledgeable about and have access to modern technology, and those who are not. It describes the proliferation of online support groups and social network sites to cope with loss, and mechanisms for the memorialization and commemoration of loss. It also highlights blogging as a mechanism for storytelling and SKYPE as a communication tool during times of loss and grief. The unique issue of disenfranchised grief experienced by online community members is also explored along with ethical issues. Appendices provide guidance regarding the online availability of different types of informational support, tools to evaluate the integrity of online resources, and ethical standards.

Key Features: Examines the ways in which modern communication technology has revolutionized societal practices and views about dying, death, and loss Offers time-tested strategies for providing death education online Addresses ethical issues related to availability and use of technology Explores the implications of the digital divide between technology and non-technology users in relation to issues of death and loss Analyzes how technology has shaped and changed thanatology research

*Follow Me* Kathleen Barber,2020-02-25 From the author of *Truth Be Told* (formerly titled *Are You Sleeping*)—now an Apple TV+ series of the same name—comes “a thriller for the Instagram age” (Amy Gentry, author of *Good as Gone*) for fans of Jessica Knoll and Caroline Kepnes. Everyone wants new followers....until they follow you home. Audrey Miller has an enviable new job at the Smithsonian, a body by Pilates, an apartment door with a broken lock, and hundreds of thousands of Instagram followers to bear witness to it all. Having just moved to Washington, DC, Audrey busies herself with impressing her new boss, interacting with her online fan base, and staving off a creepy upstairs neighbor with the help of the only two people she knows in town: an ex-boyfriend she can’t stay away from, and a sorority sister with a high-powered job and a mysterious past. But Audrey’s faulty door may be the least of her security concerns. Unbeknownst to her, her move has brought her within striking distance of someone who has obsessively followed her social media presence for years—from her first WordPress blog to her most recent Instagram Story. No longer content to simply follow her

carefully curated life from a distance, he consults the dark web for advice on how to make Audrey his and his alone. In his quest to win her heart, nothing is off-limits—and nothing is private. Kathleen Barber’s new novel of suspense, hailed as “gripping, chilling” by Robyn Harding, author of *The Perfect Family*, is an electrifying new thriller that will have you scrambling to cover your webcam and digital footprints.
