Will He Go? Lawrence Douglas,2020-05-19 In advance of the 2020 election, legal scholar Lawrence Douglas prepares readers for a less-than-peaceful transition of power. It doesn't require a strong imagination to get a sense of the mayhem Trump will unleash if he loses a closely contested election. It is no less disturbing to imagine Trump still insisting that he is the rightful leader of the nation. With millions of diehard supporters firmly believing that their revered president has been toppled by malignant forces of the Deep State, Trump could remain a force of constitutional chaos for years to come. WILL TRUMP GO? addresses such questions as: How might Trump engineer his refusal to acknowledge electoral defeat? What legal and extra-legal paths could he pursue in mobilizing a challenge to the electoral outcome? What legal, political, institutional, and popular mechanisms can be used to stop him? What would be the fallout of a failure to remove him from office? What would be the fallout of a successful effort to unseat him? Can our democracy snap back from Trump? Trump himself has essentially told the nation he will never accept electoral defeat. A book that prepares us for Trump's refusal to concede, then, is hardly speculative; it is a necessary precaution against a coming crisis.

The Lever of Riches Joel Mokyr,1992-04-09 In a world of supercomputers, genetic engineering, and fiber optics, technological creativity is ever more the key to economic success. But why are some nations more creative than others, and why do some highly innovative societies--such as ancient China, or Britain in the industrial revolution--pass into stagnation? Beginning with a fascinating, concise history of technological progress, Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome. What emerges from this survey is often surprising: the classical world, for instance, was largely barren of new technology, the relatively backward society of medieval Europe bristled with inventions, and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology, despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution. What were the causes of technological creativity? Mokyr distinguishes between the relationship of inventors and their physical environment--which determined their willingness to challenge nature--and the social environment, which determined the openness to new ideas. He discusses a long list of such factors, showing how they interact to help or hinder a nation's creativity, and then illustrates them by a number of detailed comparative studies, examining the differences between Europe and China, between classical antiquity and medieval Europe, and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state (the Chinese gave up a millennium-wide lead in shipping to the Europeans, for example, when an Emperor banned large ocean-going vessels), the impact of science, as well as religion, politics, and even nutrition. He questions the importance of such commonly-cited factors as the spill-over benefits of war, the abundance of natural resources, life expectancy, and labor costs. Today, an ever greater number of industrial economies are competing in the global market, locked in a struggle that revolves around technological ingenuity. The Lever of Riches, with its keen analysis derived from a sweeping survey of creativity throughout history, offers telling insights into the question of how Western economies can maintain, and developing nations can unlock, their creative potential.

Cast in Shadow Michelle Sagara,2016-06-01 A powerful young warrior must return to the perilous city she escaped years ago in the New York Times–bestselling author’s fantasy series debut. Seven years ago Kaylin fled the crime-riddled streets of Nightshade, knowing that something was after her. Children were being murdered—and every victim had the same odd markings that had mysteriously appeared on her own skin. . . . Since then, Kaylin has learned to read, she’s learned to fight, and she’s become one of the vaunted Hawks who patrol and police the City of Elantra. Alongside the winged Aerians and the immortal Barrani, she’s made a place for herself, far from the mean streets of her birth. But now children are dying once again. And a dark and familiar pattern is emerging. Kaylin is ordered back into Nightshade with a partner she knows she can’t trust, a dragon for a companion, and a device to contain her powers—powers that no other human has. Her task is simple—find the killer, stop the murders . . . and survive the attentions of those who claim to be her allies . . .

But keeping her distance from a man as warm and kind as Martin will prove challenging, even for a stubborn, guarded ice queen. Especially when she begins to see him for what he truly is: a man who’s never been taught his own value. Martin could use a good teacher—and luckily, Rose is the best. Rose has her own lessons—about trust, about vulnerability, about her past—to learn. And over the course of a single school year, the two of them will find out just how hot it can get when an ice queen melts.

Nectar in a Sieve Kamala Markandaya,2018-10-11 “This Is a Novel to Retain in Your Heart and Library” –Milwaukee Journal In the sun-baked fields of rural India, Rukmani and Nathan toil side by side, their love woven into the very fabric of the land. Their days are marked by the rhythm of seasons—the planting of rice saplings, the monsoon rains that breathe life into parched soil, and the harvest that sustains their family. But life is not idyllic. Famine stalks the village, and hunger gnaws at their bellies. Rukmani clings to hope, her spirit unyielding even as the world shifts around her. She witnesses the encroachment of modernity—the distant hum of factories, the allure of city lights—and wonders if progress will bring salvation or destruction. As Rukmani’s children grow, so do their dreams. Selvam, the eldest, seeks education beyond the village; Irawaddy, the daughter, yearns for love and security. Through it all, Rukmani remains the heart of their home, her hands stained with the colors of life—earth, blood, and sweat. Nectar in a Sieve is a testament to the resilience of the human spirit. Kamala Markandaya’s prose weaves a tapestry of love, loss, and endurance. Amidst the harsh realities of poverty and change, Rukmani’s unwavering love for Nathan becomes a beacon—a nectar that sustains them through hardship. “An elemental book. It has something better than power, the truth of distilled experience.” –New York Herald Tribune “Unique in poetic beauty, in classically restrained and controlled tragedy.”—Dorothy Canfield Fisher, noted author and critic “Will wring your hearts.”—Associated Press “A superb job in telling her story.”—Christian Science Monitor

Rafe Rebekah Weatherspoon,2018 All Dr. Sloan Copeland needed was someone to watch her kids. What she found was the man of her dreams... When their live-in nanny bails with no warning, Sloan is left scrambling to find a competent caretaker to wrangle her smart, sensitive girls. Nothing less will do. Enter Rafe Whitcomb. He's all of those things, not to mention good-natured and one heck of a whiz in the kitchen. He's also tall, and handsome, and bearded, and ripped, and tatted, wrist to neck. It doesn't take long for the Copelands to invite Rafe into their home. Just as quickly, both Sloan and Rafe find themselves succumbing to a heady mutual attraction, neither of them wants to deny. With every minute they spend under the same roof, this working mom can't help but wonder if Rafe can handle all her needs... **This stand-alone romance is fluffy. So fluffy. It's fluff. Low. Angst. Fluff. featuring a large tatted, motorcycle riding ginger man, who bakes a mean bacon quiche and knows exactly how to wrangle clever six year olds while making their mom feel loved, loved, loved.** While RAFE is a stand-alone novel here's a suggested reading order to get you to this point SATED (Fit #3) (Meegan) SO SWEET (Daniella and Duke origin story) HAVEN (Meegan) WRAPPED (Meegan, Shae, Sarah) RAFE
