

Weightmania Pro 301

Betty Friedan

The Beauty Myth Naomi Wolf,2009-03-17 The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of the flawless beauty.

Six Years with God Jeannie Mills,1979 In a chronicle that talks of beatings, humiliations, and brainwashings, the author records her six years as a member of the Peoples Temple and describes the awesome and sadistic power of Jim Jones.

The Suicide Cult Marshall Kilduff,Ron Javers,1978

Sex and the Single Girl Helen Gurley Brown,2012-07-10 The 1962 blockbuster that took on “one of the most absurd (if universal) myths of our time: that every girl must be married” (The New York Times). Helen Gurley Brown, the iconic editor in chief of Cosmopolitan for thirty-two years, is considered one of the most influential figures of Second Wave feminism. Her first book sold millions of copies, became a cultural phenomenon, and ushered in a whole new way of thinking about work, men, and life. Feisty, fun, and totally frank, Sex and the Single Girl offers advice to unmarried women that is as relevant today as it was when it burst onto the scene in the 1960s. This spirited manifesto puts women—and what they want—first. It captures the exuberance, optimism, and independence that have influenced the lives of so many contemporary American women.

Backlash Export Header Susan Faludi,1995-08

The Feminine Mystique Betty Friedan,2010 When Betty Friedan produced The Feminine Mystique in 1963, she could not have realized how the discovery and debate of her contemporaries' general malaise would shake up society. Victims of a false belief system, these women were following strict social convention by loyally conforming to the pretty image of the magazines, and found themselves forced to seek meaning in their lives only through a family and a home. Friedan's controversial book about these women - and every woman - would ultimately set Second Wave feminism in motion and begin the battle for equality. This groundbreaking and life-changing work remains just as powerful, important and true as it was forty-five years ago, and is essential reading both as a historical document and as a study of women living in a man's world. 'One of the most influential nonfiction books of the twentieth century.' New York Times 'Feminism began with the work of a single person: Friedan.' Nicholas Lemann With a new Introduction by Lionel Shriver

The Second Shift Arlie Hochschild,Anne Machung,2012-01-31 An updated edition of a standard in its field that remains relevant more than thirty years after its original publication. Over thirty years ago, sociologist and University of California, Berkeley professor Arlie Hochschild set off a tidal wave of conversation and controversy with her bestselling book, The Second Shift. Hochschild's examination of life in dual-career households finds that, factoring in paid work, child care, and housework, working mothers put in one month of labor more than their spouses do every year. Updated for a workforce that is now half female, this edition cites a range of updated studies and statistics, with an afterword from Hochschild that addresses how far working mothers have come since the book's first publication, and how much farther we all still must go.

Women in 1975 Citizens' Advisory Council on the Status of Women (U.S.),1976

The Sexuality of Organization Jeff Hearn,1990-01-01 This exciting, critical text explores the pervasiveness of sexuality in organizations, and the interrelations of sexuality and power in the ongoing production and reproduction of organizational life. Clearly and accessibly, the authors show various ways in which the very processes of organization reflect power relations suffused with dominant forms of sexuality. Specific subjects addressed include sexuality and the labour process, sexual harassment, men's sexuality, lesbians in organizations, and the experiences of women managers and secretaries.

Vital Lies, Simple Truths Daniel Goleman,1985 A penetrating analysis of the dark corners of human deception, enlivened by intriguing case histories and experiments.
