**Paul Graham: The Art of Funding a Startup (A Mixergy Interview)** Andrew Warner, 2011-09-09 FROM ANDREW WARNER: I first interviewed Paul Graham after I heard something shocking from Alexis Ohanian, a founder whose company was funded by Graham's Y Combinator. Alexis came to Mixergy to tell the story of how he launched and sold Reddit. If you're a founder, you know the kind of problems that founders have, right? Figuring out what product to create, how to build it, how to get users to try it, etc. Well Alexis didn't seem to have those problems, or at least they weren't as challenging for him as they were for most of the other 600 entrepreneurs I interviewed on Mixergy. Why? Because Paul Graham helped him launch his business. How did Graham make Reddit's launch easier and more successful than other companies' founding? How did he do the same for hundreds of other startups? And, more importantly, what can you learn from his experiences to grow your business? The book you're holding has those answers. Use what you're about to learn to build your successful startup. After you do, I hope you'll let me interview you so other founders can learn from your experience, the way you're about to benefit from Graham's.

**The Startup Playbook** Rajat Bhargava,Will Herman,2020-06-23 Get the real guidance you need to create and build your first startup company from founders who have been there many times before. The first run printing of The Startup Playbook SOLD OUT! So, we revised, expanded, and improved this second edition, including a new foreword by Brad Feld, author of Venture Deals. We still give our personal, how-to guide for building your startup from the ground up. You'll find a collection of the major lessons and shortcuts we've learned that will shift the odds in your favor. We're sharing our tips, secrets, and advice in a frank, founder-to-founder discussion with you. We make no bones about our bias. We're on your side, the founder's side. While venture capitalists, investors, and accelerators/incubators can add great value in the startup ecosystem, this book isn't about their points of view. We'll tell you where our interests as founders diverge from those on the other side of the table—investors, bankers, advisors, board members, and others—and what to do when that happens. The Startup Playbook is not a recipe, it's not a template, it's not a list of tasks to do. It's our insider's guide to starting a company and running it successfully in those critical early months. Between us, we've started over a dozen high-tech software companies and raised over \$500 million in investment capital. We've acquired over thirty-five companies, had three of our startups go public, sold six of them, and we made billions of dollars for shareholders. We've also invested in over eighty startups, advised and mentored over two hundred companies and actively worked with venture capitalists (VCs), incubators, and accelerators to help launch many other new startups. We've had plenty of failures, too. And we've probably learned more from those than from the successes. We share those lessons as well. The Startup Playbook is full of our advice, guidance, do's, and don'ts from our years of experience as founders many times. We want to share our hard-earned knowledge with you to make success easier for you to achieve. This book is extraordinarily fresh and exciting. In an accessible, straight talk fashion, this book is a manual, and an inspiration. The Startup Playbook is smart and avoids the 'I am so smart' over-writing endemic to the genre. Read this as it is presented. You'll be doing yourself a tremendous favor. —Amazon Reviewer

**The Startup Checklist** David S. Rose,2016-04-25 25 Steps to Found and Scale a High-Growth Business The Startup Checklist is the entrepreneur's essential companion. While most entrepreneurship books focus on strategy, this invaluable guide provides the concrete steps that will get your new business off to a strong start. You'll learn the ins and outs of startup execution, management, legal issues, and practical processes throughout the launch and growth phases, and how to avoid the critical missteps that threaten the foundation of your business. Instead of simply referring you to experts, this discussion shows you exactly which experts you need, what exactly you need them to do, and which tools you will use to support them—and you'll gain enough insight to ask smart questions that help you get your money's worth. If you're ready to do big things, this book has you covered from the first business card to the eventual exit. Over two thirds of startups are built on creaky foundations, and over two thirds of startup costs go directly toward cleaning up legal and practical problems caused by an incomplete or improper start. This book helps you sidestep the messy and expensive clean up process by giving you the specific actions you need to take right from the very beginning. Understand the critical intricacies of legally incorporating and running a startup Learn which experts you need, and what exactly you need from them Make more intelligent decisions independent of your advisors Avoid the challenges that threaten to derail great young companies The typical American startup costs over \$30,000 and requires working with over two dozen professionals and service providers before it even opens for business—and the process is so complex that few founders do it correctly. Their startups errors often go unnoticed until the founder tries to seek outside capital, at which point they can cost thousands of dollars to fix. . . or even completely derail an investment. The Startup Checklist helps you avoid these problems and lay a strong foundation, so you can focus on building your business.

**Why Startups Fail** Tom Eisenmann,2021-03-30 If you want your startup to succeed, you need to understand why startups fail. “Whether you’re a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading.”—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • Bad Bedfellows. Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • False Starts. In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • False Promises. Success with early adopters can be misleading and give founders unwarranted confidence to expand. • Speed Traps. Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. • Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • Cascading Miracles. Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success.
