ADHD & The Focused Mind Sarah Cheyette, MD, Peter

Johnson, Benjamin Cheyette, MD, PhD, 2016-05-19 Winner of the IBPA Benjamin Franklin Award for Best Parenting Title One of the 100 Best ADHD Books of All Time (BookAuthority.org) As a young boy, his difficulty in concentrating was diagnosed as ADHD. In school, his mind always seemed to wander until he found an activity that he liked. By using that one activity, his mother was able to reach past her son's ADHD and teach him focus and self-discipline. That boy, Michael Phelps, went on to win twenty-two Olympic medal and break thirty-nine world records in swimming. World class athletes like Phelps all share an underlying skill: The ability to clearly focus on the task that is in front of them. Acquiring this very skill to overcome ADHD is the subject of *ADHD & the Focused Mind*. Written by three experts in their fields—a pediatric neurologist, a psychiatrist, and a martial arts instructor—this breakthrough title provides a unique program for instilling the ability to focus in children with Attention Deficit Hyperactivity Disorder. The book begins by explaining the basics of ADHD, including its common signs and what researchers have discovered about it. The remaining chapters detail the components of the program, including

its principles, its goals, and the practical ways in which these goals can be achieved. The authors recognize that all children are different, so the program has the flexibility to work within a child's comfort level while still attaining the necessary level of focus. The text concludes with a discussion of medications for ADHD, and how to decide what's right for your child. Some of the most successful people in the world have ADHD, but just like star athletes, they have discovered that developing their own unique ways of focusing enables them to get ahead. ADHD & the Focused Mind provides coaching techniques that can profoundly improve the life of any child with Attention Deficit Hyperactivity Disorder.

Breaking up Time Chris Lorenz, Berber Bevernage, 2013-06-19

Thirteen expert historians and philosophers address basic questions on historical time and on the distinctions between past, present and future. Their contributions are organised around four themes: the relation between time and modernity; the issue of ruptures in time and the influence of catastrophic events such as revolutions and wars on temporal distinctions; the philosophical analysis of historical time and temporal distinctions; and the construction of time outside Europe through processes of colonialism, imperialism, and globalisation.

Time Dumitru Staniloae, Kallistos Ware, 2023-10-20 This book brings together essays by two outstanding Orthodox theologians to examine the paradox of time in relation to the eternity of God: Dumitru Stăniloae's, 'Eternity and Time', a talk given to the Sisters of the Love of God in 1971, was expanded in the first volume of his *Teologia dogmatica ortodoxa* (3 vols., Bucharest, 1978). The preface to the 1994 English translation of that work, *Orthodox Dogmatic Theology*, written by Kallistos Ware, was based on his essay, 'Time: Prison or Path to Freedom?', which was first published in 1989 by SLG Press. These reflections, brought together for the first time here, remain at the forefront of modern theology. Stăniloae illuminates time as a journey on which we may grow in response to the love that God offers us, a journey towards sharing in the eternity of the perfect, interpersonal communion of the Trinity. God, in His Incarnation, shares the journey with us in Christ, so that time enters into eternity, and eternity is brought into time. At every moment we are free to choose between responding to His love or rejecting it. Ware's essay explains that it is the

vocation of time to be open to eternity; time is fulfilled when God's eternity breaks into the temporal sequence, as happened supremely at Christ's birth in Bethlehem, as happens also at every Eucharist. Our faith is the true rationale of time: mutual love after the image of the Trinity.
