History of the 101st Airborne Division Colonel Robert E. Jones, 2010-05-17 The History of the 101st Airborne Division is the epic story of the Division from its activation in August 1942 through the completion of Operation Desert Storm in April 1991. The Division's progression through the sky took decades of hard work and tens of thousands of dedicated soldiers. In World War II, the 101st became the first American troops to set foot in occupied France, when, on 6 June 1944, its paratroopers dropped behind enemy lines, clearing the way for the 4th Infantry Division landing on Utah Beach. The Division would become famous for its work in Holland during Operation Market Garden, and for its successful defense of Bastogne, Belgium, during the Battle of the Bulge. In Vietnam, the "Screaming Eagles" engaged in battle from 1965 to 1972, when they began their evolution to Air Mobile by deploying by helicopter. In the Gulf War, the Division fired the first shots of Operation Desert Storm by destroying Iraqi radar sites, and during ground war of the operation, they made the longest and largest air assault in history. In every engagement and during the training periods in between, the 101st Airborne Division has honored the words of its first commander, General William C. Lee, that it has a "rendezvous with destiny." This book is a fitting record of that history, and of the men who are proud to be called "Screaming Eagles."

Drawing on the Dominant Eye Betty Edwards,2021-11-02 A fascinating follow-up to the beloved bestseller *Drawing on the Right Side of the Brain*--with new insights about creativity and our unique way of seeing the world around us Millions of readers have embraced art teacher Betty Edwards's *Drawing on the Right Side of the Brain*, from art students and teachers to established artists, corporate trainers, and more--all discovering a bold new way of drawing and problem-solving based on what we see, not what we think we see. In this highly anticipated follow-up, Edwards illuminates another piece of the creativity puzzle, revealing the role our dominant eye plays in how we perceive, create, and are seen by those around us. Research shows that much like being right-handed or left-handed, each of us has a dominant eye, corresponding to the dominant side of our brain--either verbal or perceptual. Once you learn the difference and try your hand at the simple drawing exercises, you'll gain fresh insights into how you perceive, think, and create. You'll learn how to not just look but truly see. Generously illustrated with visual examples, this remarkable guided tour through art history, psychology, and the creative process is a must-read for anyone looking for a richer understanding of our art, our minds, and ourselves.

Poisoning the Minds of the Lower Orders Don Herzog,2021-04-13 Conservatism was born as an anguished attack on democracy. So argues Don Herzog in this arrestingly detailed exploration of England's responses to the French Revolution. *Poisoning the Minds of the Lower Orders* ushers the reader into the politically lurid world of Regency England. Deftly weaving social and intellectual history, Herzog brings to life the social practices of the Enlightenment. In circulating libraries and Sunday schools, deferential subjects developed an avid taste for reading; in coffeehouses, alehouses, and debating societies, they boldly dared to argue about politics. Such conservatives as Edmund Burke gaped with horror, fearing that what radicals applauded as the rise of rationality was really popular stupidity or worse. Subjects, insisted conservatives, ought to defer to tradition--and be comforted by illusions. Urging that abstract political theories are manifest in everyday life, Herzog unflinchingly explores the unsavory emotions that maintained and threatened social hierarchy. Conservatives dished out an unrelenting diet of contempt. But Herzog refuses to pretend that the day's radicals were saints. Radicals, he shows, invested in contempt as enthusiastically as did conservatives. Hairdressers became newly contemptible, even a cultural obsession. Women, workers, Jews, and blacks were all abused by their presumed superiors. Yet some of the lowly subjects Burke had the temerity to brand a swinish multitude fought back. How were England's humble subjects transformed into proud citizens? And just how successful was the transformation? At once history and political theory, absorbing and disquieting, *Poisoning the Minds of the Lower Orders* challenges our own commitments to and anxieties about democracy.

Traditional Musicians of the Central Blue Ridge Marty McGee, 2016-04-07 The Central Blue Ridge, taking in the mountainous regions of northwestern North Carolina and southwestern Virginia, is well known for its musical traditions. Long recognized as one of the richest repositories of folksong in the United States, the Central Blue Ridge has also been a prolific source of commercial recording, starting in 1923 with Henry Whitter's "hillbilly" music and continuing into the 21st century with such chart-topping acts as James King, Ronnie Bowman and Doc Watson. Unrivaled in tradition, unequaled in acclaim and unprecedented in influence, the Central Blue Ridge can claim to have contributed to the musical landscape of Americana as much as or more than any other region in the United States. This reference work—part of McFarland's continuing series of Contributions to Southern Appalachian Studies—provides complete biographical and discographical information on more than 75 traditional recording (major commercial label) artists who are natives of or lived mostly in the northwestern North Carolina counties of Alleghany, Ashe, Avery, Surry, Watauga and Wilkes, and the southwestern Virginia counties of Carroll and Grayson. Primary recordings as well as appearances on anthologies are included in the discographies. A chronological overview of the music is provided in the Introduction, and the Foreword is by the celebrated musician Bobby Patterson, founder of the Mountain and Heritage record labels.

Once a Peacock, Once an Actress Haribhatta, 2017-08-30 Peter Khoroche's translation of Arya Sura's *Jatakamala* (ca. fourth century) has sold more than fifteen-hundred copies in each of its editions. We now have a new translation of the *Jatakamala* by Haribhatta, a later contemporary of Arya Sura's. Like the earlier volume, this one contains rare examples of the earliest extant writings from Sanskrit's classical period. To date, six of the thirty-four stories from the work are still lost to time, but even in its truncated form, the tales, in Khoroche's splendid, fluid renderings, amply illustrate the Buddha's single-minded devotion to the good of all creatures in each of his incarnations. Here we have stories of an actress and a peacock, as noted in the title, but also tales of kings and monkeys, sages and fools, lions and elephants, princes and fairies, in equal measure entertaining, surprising, and moving—in addition to edifying. These unique tales of bravery, romance, sex, death, and, ultimately, rebirth, will be greeted by a very appreciative audience.
