Hulda Regehr Clark

*Syncrometer Science Laboratory Manual* Hulda Regehr Clark, 2000-01-01 This book introduces the 3 kinds of investigations that can be made with a syncrometer. In the first kind of investigation, you can detect entities in your body, taken as a whole. For example, mercury aflatoxin, Streptococcus pneumonia, Epstein Barre virus, orthophosphotyrosine, benzene. Such a test is not as sensitive as the organ test, described next, but for this reason allows you to select those entities most abundant in the body and therefore of special significance; in the second, you can identify which organs contain a particular entity. For example, the mercury may be in the kidney, the Streptococcus in the joints, and so on. This allows you to embark on a cleanup program for your body in a focused way. The syncrometer lets you monitor your progress. And finally, you can detect entities in products. For example, lead in your household water, thulium in your reverse osmosis water, asbestos in your sugar.

**The Byzantine Achievement** Robert Byron, 2010 Robert Byron believed that the summit of ancient Greek civilization was not to be found in 5th century B.C.E. Athens, but in post-classical Byzantium, also called Constantinople by the Romans. Byzantine civilization was truly glorious, as we see by looking through Byron's fresh eyes. Byron was a brilliant writer and dashing figure whose life was cut short in WWII. The introduction is by Richard Lockett, Byron's biographer.

**The Cure for HIV and AIDS** Hulda Regehr

Clark,1993 Including new research and findings showing what the true causes of HIV & AIDS are and lead directly to their cure! 53 CURED Cases The First Year Cure, not treatment, is the subject of this book. In 1991 Dr Clark discovered the source of HIV. Once the source became clear the cure became obvious. but would it work? After curing 53 cases in a row, all who used this method, Dr Clark could wait no longer to present these findings. Since that time many more have been cured, too many to be added to this book. Most important is adding yourself to that list! Electricity can now be used to kill bacteria, viruses and parasites in minutes, not days or weeks as antibiotics require. If you have been suffering from HIV infection or AIDS related illness, learn to build the electronic device that will stop it immediately. It is safe and without side effects ad does not interfere with any treatment you are now on.
