Throwing Rocks Lindsey Acton,2020-11-04 Lindsey Acton was a first-year English teacher at a central Indiana high school when a troubled and obsessed student had school officials concerned that something very bad could happen at his hands. A large police presence at school thwarted a scare at the school, but when the student died later that night, the emotion and trauma was a lot to absorb for a 23-year-old teacher who was never trained to deal with such an emotional child. In *Throwing Rocks*," Lindsey takes you deep inside this teacher trauma, how it dragged her to her own lows and how it took a therapist and her homework assignments to bring this young teacher back to life. This book is a must-read for anyone in education, from teachers and administrators to parents and students as well. Teacher trauma is real, and is overlooked far too often.

CIA Lock Picking Central Intelligence Agency,2015-12-31 There has been much opinion and little fact written on the subject of lock picking. It is the purpose of this book to clarify the facts about this delicate process, and at the same time to train you in proper procedure. Reading this book is certainly enough to get you started picking simple locks, but remember: a great deal of time and patience are needed to become a truly proficient locksmith. In this volume, you will learn the fundamental

theories of lock picking in addition to proper terminology, the importance of tool design (i.e. how to select and use the right tool for a given job), the effects of tolerances, and finally the techniques most commonly used by locksmiths to successfully pick the vast majority of standard pin and wafer tumbler locks. Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.
