Site Development Planning for Energy Management R. L. Wendt,1985 This handbook assists DOE facilities managers, planners, and engineers in identifying and providing information for effective application of energy management strategies in site development decision making. The handbook does not take an advocacy position regarding any particular strategy but presents each, along with its anticipated benefits and liabilities, as an option for consideration. Areas where uncertainty exists regarding the likely energy performance are noted. The strategies identified in this handbook are not equally effective, simple to use or implement, or desirable for all installations. Therefore, they should be considered in light of local needs and opportunities to determine which strategies are most appropriate to a specific installation and what modifications to those strategies might be necessary.

Merchant Vessels of the United States ,

The People's Boat Shirley Hewett,2002 There may be no other sailing ship in North America that has touched the lives of so many people during 80-plus years of existence as HMCS Oriole. The design of famed MIT marine architect George Owen, the pride of original owner George Gooderham, commodore of the Royal Canadian Yacht Club, the steadfast training ship of the Royal Canadian Navy for more than five decades, and ultimately the people's boat in her home harbours of Esquimalt and Victoria, BC, HMCS Oriole continues to add to her legacy with every new nautical adventure. Her fascinating history is captured by author and avid mariner Shirley Hewett in a narrative based on extensive interviews with Oriole's past captains and crew. Hewett listened to their stories, shared their insights and sailed the New Zealand leg of a South Pacific good-will voyage in 1998 aboard the Oriole as part of an international crew. She is a ship that manufactures dreams, Hewett said. Mine became to tell her many stories.

The Physical Geography of Northern Eurasia Maria Shahgedanova,2003 This is the third volume in The Oxford Regional Environments series. The series volumes are devoted to major regions of the world, each presenting a detailed and up-to-date body of scientific knowledge concerning a particular region. For most topics on the physical geography of Northern Eurasia abundant literature now exists. Most of it, however, is in Russian and other East European languages and this has significantly limited the number of potential readers. This volume will seek to familiarize, at an international level, those with an interest in this area with the most significant achievements in classical and current geographical research.

The Shadow of the Wind Carlos Ruiz Zafon,2005-01-25 The New York Times bestseller "The Shadow of the Wind is ultimately a love letter to

literature, intended for readers as passionate about storytelling as its young hero.” —Entertainment Weekly (Editor's Choice) “One gorgeous read.” —Stephen King Barcelona, 1945: A city slowly heals in the aftermath of the Spanish Civil War, and Daniel, an antiquarian book dealer’s son who mourns the loss of his mother, finds solace in a mysterious book entitled *The Shadow of the Wind*, by one Julián Carax. But when he sets out to find the author’s other works, he makes a shocking discovery: someone has been systematically destroying every copy of every book Carax has written. In fact, Daniel may have the last of Carax’s books in existence. Soon Daniel’s seemingly innocent quest opens a door into one of Barcelona’s darkest secrets—an epic story of murder, madness, and doomed love.
