Speeches on Questions of Public Policy John Bright, 1869

Chronicles of a Space Mercenary Ronald Wintrick, 2013-06-05 The thing I hated most about working for the government, any government, they all seemed to think alike, was that then they invariably thought that they owned you. Patriotism, duty and all those other words that meant they thought they were entitled to what was yours. All meaningless trite to a world-less vagabond like myself. My ship was my home and I needed no other. They're waiting for a response, Captain! Tanya Serensen said, my strong First and the meanest bitch I have ever met. The war was over. We were, had been, part of the Federation forces which had unsuccessfully attempted to unify the four hundred and seventy-two known human worlds. We had been smashed ruthlessly, to put mildly what had been a lost cause from the beginning. I had been paid handsomely with trade goods and supplies; semi-precious metals and fuel rods, to be exact, plus I'd brought my ship, Last Chance, and my crew through without a scratch. So I had not complained when everyone started signing peace treaties. The problem began when I informed my erstwhile employers that with hostilities ended, so too were my obligations. I had fulfilled to the letter our contract. I owed them nothing more. They had not agreed. There were now three of my former allies, positioned in attack formation outside Last Chance's hull. Not only did they not feel as if I had not completely fulfilled my end of the bargain, but I was getting the distinct impression they would not be satisfied until they had added Last Chance herself to their now depleted arsenal. I guess they felt, that with all the losses they had suffered, that Last Chance would be a welcome addition to their much depleted Navy. I guess they hadn't quite learned their lesson about attempting to force their wills on unwilling subjects. Some people are simply incapable of understanding. Especially people in positions of power, like governments, for example. You bastards! I snarled. I should have known these ungrateful hypocrites would try to back stab me, especially now that every planet was a law unto itself, only answerable to itself, and they angry at the defeat they had suffered. They were quick at jumping on the bandwagon of self governance, now that no unifying government held sway. That was for sure. Is that your response? Tanya asked, no inflection in her voice. No! I snapped. The crazy bitch would repeat it too, if I didn't specifically say no! A first impression of Tanya Serensen would never give you the insightful depth that existed behind her innocent appearing, stunningly beautiful face. Blond hair, blue eyes, body and face of a love goddess, barely fifty kilos soaking wet, but as vicious as a Tarnian Bola Raptor when angered, and if you've ever been to Tarnia you know there is no living creature meaner nor better able to defend itself. That's my Tanya, in a nutshell. A very tough, unbreakable nutcase. What are we going to do? Demanded David Bren, my Science Engineer, when I didn't immediately make a decision. Bren is a mathematical genius and quite able to compute our odds, no matter which decision I ultimately made, whether we fought or fled, against the three Class Four Katon Destroyers which were arrayed around us in a roughly triangular formation. Not that it took a mathematical genius to figure these odds. We were fucked, and that was the long and the short of it! To fight would be bad. To flee, worse. To surrender, the worst! They weren't going to let us survive to go running around telling anyone who would listen how we had been robbed by the honest, law abiding Katons. They had...

Dead Lies Dreaming Charles Stross,2020-10-27 When magic and superpowers emerge in the masses, Wendy Deere is contracted by the government to bag and snag supervillains in Hugo Award-winning author Charles Stross' *Dead Lies Dreaming: A Laundry Files Novel*. As Wendy hunts down Imp—the cyberpunk head of a band calling themselves “The Lost Boys”— she is dragged into the schemes of louche billionaire Rupert de Montfort Bigge. Rupert has discovered that the sole surviving copy of the long-lost concordance to the one true Necronomicon is up for underground auction in London. He hires Imp’s sister, Eve, to procure it by any means necessary, and in the process, he encounters Wendy Deere. In a tale of corruption, assassination, thievery, and magic, Wendy Deere must navigate rotting mansions that lead to distant pasts, evil tycoons, corrupt government officials, lethal curses, and her own moral qualms in order to make it out of this chase alive. Chance Rules Brian Everitt,2009-06-29 Chance continues to govern our lives in the 21st Century. From the genes we inherit and the environment into which we are born, to the lottery ticket we buy at the local store, much of life is a gamble. In business, education, travel, health, and marriage, we take chances in the hope of obtaining something better. Chance colors our lives with uncertainty, and so it is important to examine it and try to understand about how it operates in a number of different circumstances. Such understanding becomes simpler if we take some time to learn a little about probability, since probability is the natural language of uncertainty. This second edition of *Chance Rules* again recounts the story of chance through history and the various ways it impacts on our lives. Here you can read about the earliest gamblers who thought that the fall of the dice was controlled by the gods, as well as the modern geneticist and quantum theory researcher trying to integrate aspects of probability into their chosen speciality. Example included in the first addition such as the infamous Monty Hall problem, tossing coins, coincidences, horse racing, birthdays and babies remain, often with an expanded discussion, in this edition. Additional material in the second edition includes, a probabilistic explanation of why things were better when you were younger, consideration of whether you can use probability to prove the existence of God, how long you may have to wait to win the lottery, some court room dramas, predicting the future, and how evolution scores over creationism. *Chance Rules* lets you learn about probability without complex mathematics.

Speeches on Free Trade Richard Cobden,1903

The Canon Natalie Angier,2008-04-03 The New York Times bestseller that makes scientific subjects both understandable and fun: "Every sentence sparkles with wit and charm." –Richard Dawkins From the Pulitzer Prize-winning New York Times science journalist and bestselling author of *Woman*, this is a playful, passionate guide to the science all around us (and inside us)—from physics to chemistry, biology, geology, astronomy, and more. Drawing on conversations with hundreds of the world's top scientists, Natalie Angier creates a thoroughly entertaining guide to scientific literacy. For those who want a fuller understanding of some of the great issues of our time, *The Canon* offers insights on stem cells, bird flu, evolution, and global warming. For students—or parents whose kids ask a lot of questions about how the world works—it brings to life such topics as how the earth was formed, or what electricity is. Also included are clear, fascinating explanations of how to think scientifically and grasp the tricky subject of probability. *The Canon* is a joyride through the major scientific disciplines that reignites our childhood delight and sense of wonder—and along the way, tells us what is actually happening when our ice cream melts or our coffee gets cold, what our liver cells do when we eat a caramel, why the horse is an example of evolution at work, and how we're all really made of stardust.

The Official ACBL Encyclopedia of Bridge Brent Manley,2011-12 Covers players, history, rules, and bidding conventions.

Wanderhome Jay Dragon,2021-06 *Wanderhome* is a pastoral fantasy role-playing game about traveling animal-folk, the world they inhabit, and the way the seasons change. It is a game filled with grassy fields, mossy shrines, herds of chubby bumblebees, opossums in sundresses, salamanders with suspenders, starry night skies, and the most beautiful sunsets you can imagine.

How to Make \$100,000 a Year Gambling for a Living David Sklansky,Mason Malmuth,1997 Is there really such a thing as a professional gambler? The answer is an unequivocal, Yes! This book's authors are but two examples. Many thousands of people around the country make a good living exclusively from

gambling. It is not easy, but it can be done. The key is to understand which games are beatable and know how to beat them. David Sklansky and Mason Malmuth have spent many years writing about the finer points of poker, blackjack, and other beatable games. As you will see in the book, those other games are horses, sports, progressive slots and video poker, casino tournaments, and special promotions. They don't include craps, roulette, keno, or baccarat for reasons they'll explain. This book, was written for the not quite as experienced aspiring gambler. It shows you everything you need to learn and do if you want to gamble for a living from both the practical and the technical standpoints. The rest is up to you.
