Questioning Experts and Expertise Maria Baghramian,Carlo Martini,2022-09-29 The role of experts and their expertise, in our personal and social lives, has taken centre stage in the debates about our post-COVID-19 world. Scientific disinformation is rife, and expertise is badly needed to tackle highly complex social problems. This book brings together philosophers, sociologists and policy experts to discuss the nature, scope and limitations of expert advice in policy decisions. The chapters collected here address some of the most fundamental questions in the debate on the role of experts. They explore, among others, the definitions of expertise, the role of experts in modern democracies, the dilemma of choosing between equally competent and qualified experts who cannot agree, the objectivity of expert judgements, the relationship between experts and novices in polarised social settings and the conditions on the trustworthiness of experts. These explorations, by some of the best-known academics working in the field, highlight the complexities of the questions they address but also lay down a road map for addressing them. The chapters in this book were originally published in *Social Epistemology: A Journal of Knowledge, Culture and Policy*.

Here's Proof Only We Conservatives Have Our Heads Screwed on Straight!!! Lowell Green,2013-02-21 As usual Lowell Green, one of Canada's best selling authors and the Country's most honoured broadcaster, rushes in where angels fear to tread! His latest book, (his sixth best seller) Here's proof only we conservatives have our heads screwed on straight makes you shake your head with disbelief as writes about the truly magnificent screw-ups the granola-crunching, tree hugging, thug huggers have plunged us into over the years. Thank heavens, he says, that with people like Churchill, Thatcher, Reagan, Giuliani, Merkel, Harris and hopefully Harper and maybe even Cameron, there's almost always been a clear-thinking, fearless, principled Conservative or conservative thinker to rescue us from left wing lunacy and economic chaos. Fresh from the incredible success of his most recent book, Mayday! Mayday! Curb immigration. Stop multiculturalism, or it's the end of the Canada we know, Green's latest work unleashes a firestorm of wit, wisdom and common sense that is bound to delight, titillate, entertain and educate all those who don't believe group hugs and long walks on lonely beaches with our enemies will solve the world's problems. If there is any doubt in anyone's mind whether they should buy Here's Proof, there's a dandy little quiz in the first few pages that provides guidance and hopefully assistance to prevent severe trauma to delicate liberal and socialist sensibilities!
