Rooms of Wonder Johanna Basford,2022-10-25 From bestselling author Johanna Basford, a stunning new coloring book that invites artists to explore the great indoors Through her bestselling coloring books and distinctive illustrations, Johanna Basford's beautiful forests, ocean depths, and hidden magical kingdoms have enchanted millions of people around the world. In this newest work, Basford takes her audience indoors, inviting them to explore the wonders of the worlds within. Hidden within every illustration in Rooms of Wonder is a secret key and a locked door. Find the key, unlock the door and continue to the next room. Discover a busy craft studio, a wizard's workshop, a mouth-watering ice cream parlour and an opulent banquet hall. With hidden treasures, curious spaces and a few enchanted interiors, all you need to do is unlock the first door and begin your magical journey. Now printed on a new snowy white paper, to allow for more vibrant coloring, but still with enough texture to blend and create wonderful colored pencil effects.

Classic Family Portraits Ed Pedi,2014-06-10 Acclaimed photographer Ed Pedi shows you how to design family portraits that will be treasured across the decades. Beginning with location selection, Pedi shows you how to find backgrounds that suit the family's character, whether the image is planned for outdoors, in the studio, or at the client's home. Then, he shows how to pose the family (including the extended family, in many cases) to flatter each subject and show the relationships between the individuals. The final addition to the mix is lighting—a real challenge when larger groups are involved. Pedi demonstrates how you can handle this deftly with sunlight, interior lights, or studio lights, as well as in mixed-light situations. Packed with timeless images and practical approaches, this book is a handy reference for photographers who want to create images that will stand the test of time.

Shooting Boudoir at Home Terry Allen,2014-03-17 Many women go to a professional photographer to get boudoir photos taken; however, some women are too uncomfortable to do so. Yet, they would still like to have beautiful sexy photos of themselves for that special person in their life. Why not learn to take sexy photos of your wife or girlfriend yourself and share the experience together? In this book I will teach you how to take sexy pictures without expensive cameras and equipment. No need to rent a professional studio, you can do it in the comfort of your own home. Ever wonder why all the pictures you take look like snapshots instead of professional images? I'll teach you how to fix that so that your pictures look just as good as the ones you pay a photographer hundreds of dollars for. It doesn't matter if you have an expensive camera or just a cell phone camera, I'll teach you how to make the most of what you have. However, if you do have an SLR that gives you manual control, you will have better creative control of your photographs and can achieve better results. What about lighting? Do you need thousands of dollars' worth of lighting equipment to take great photos? No, I will teach you how to use existing light to take great photos. However, I will also teach you how to use lighting equipment and recommend where you can get some decent lights for very cheap. What about Photoshop? Do you need to spend hundreds of dollars on expensive software to edit your photos? Nope. I will teach you how to do basic editing with free software! My goal in this book is to teach you the basics of photography, lighting, posing and photo editing to empower you to create beautiful boudoir photos in the comfort of your own home (and maybe even help you build a stronger relationship as you and your partner work on this together).

Awkward Family Photos Mike Bender,Doug Chernack,2010-05-04 Based on the hit website, AwkwardFamilyPhotos.com ("painful, regrettable, horrifyingly awesome snaps of family bonding, you will laugh so hard that people in adjoining offices will ask what's wrong with you"—Esquire), this full

color book features never-before-seen photos and hilarious personal stories covering everything from uncomfortable moments with relatives, teen angst, sibling rivalry, and family vacations from hell. Cringe at the forced poses, bad hair, and matching outfits--all prompting us to look at our own families and celebrate the fact that we're not alone. Nothing says awkward better than an uncomfortable family photograph!

The Bodies of Mothers Jade Beall,2014 A Beautiful Body Project: The Bodies of Mothers First in a series of books with a strong media platform of truthful photographs and stories to celebrate the irreplaceable beauty of women and the body positive movement happening all over the world. A Beautiful Body Project is an upcoming series of book volumes and an online media platform dedicated to women and body image, celebrated through the sharing stories about motherhood, aging, cancer, stillbirths, miscarriages, weigh-gain, weight-loss, dysmorphia, and beyond. Founder Jade Beall has been a photographer, a massage therapist, and an inspiring dance teacher for women for over a decade. Her work is touching thousands of lives around the world. This book, along with all subsequent volumes, will feature my signature non-digitally-augmented & no-air-brushing images of women, just as they are. This is the heart of the project, to reshape images of women in mass media, to celebrate us as us, nothing more, nothing less. The Beautiful Body Pledge - which in turn sums up the purpose of the book series - is as follows: I want to join the movement and agree to love my body more and more each day, to use kind words towards myself and towards other women, to be a role-model for future generations of mothers, and to choose to be empowered knowing that I am not alone, and that by coming together, we can reshape body image in mass-media, build self-esteem, and explore vulnerability as a collective. Jade Beall is a world-renowned Photographer specializing in truthful images of women to inspire feeling irreplaceably beautiful as a counter-balance to the airbrushed photo-shopped imagery that dominates mainstream media. Her recent work A Beautiful Body Project has touched 100,000's of women's lives and garnered global attention from media outlets including the BBC, The Huffington Post & beyond. Jade's book series and media platform feature untouched photos of women alongside their stories of their journeys to build self-esteem in a world that thrives off women feeling insecure. Jade's dream is to inspire future generations of women to be free from the unnecessary self-suffering and embrace their beauty just as they are.

The Little Book of Wonder Bernadette Russell,2020-01-07 When was the last time you felt 'wonder'? The feeling of amazement and admiration, caused by something beautiful, remarkable, or unfamiliar is one that, as children, we experienced often. But as adults we have grown tired and cynical and spend more time looking down at our phones than looking up at the sky. We no longer experience the power of awe nor its proven benefits. The Little Book of Wonder encourages you to be creative, feel curious and seek wonder in the world around us. Focussed around seven themes, echoing the seven wonders of the world, the book will explore: 1. The Wonder of You 2. Into the Woods 3. Curious 4. Magic 5. Creativity 6. The Road Less Travelled 7. Positivity

Moments that Matter Farrah Braniff,2013 As a professional photographer and mother of three, Farrah Brannif knows what parents are looking for in the photographs they take. She also knows what stands in the way of obtaining those images. In Moments That Matter, she answers the questions parents ask most frequently about photographing their children and shares the techniques that will capture and share the

unique story of their family life. Farrah recognizes that camera manuals are scary. Her accessible, step-by-step instructions follow the format of her popular workshops, include clear examples, and follow an intuitive progression. Here are simple, powerful tools that will transform the way parents imagine and take photographs. She covers both point-and-shoot and DSLR cameras and emphasizes that the equipment is not the secret to powerful photography. Each section includes practice instructions that will have readers producing the photographs of their dreams in no time.

Introduction by Brene Brown, Author of New York Times #1 Bestseller *Daring Greatly: How the Courage to Be Vulnerable Transforms the Way We Live*, *Love, Parent, and Lead: I'm not very creative doesn't work*. There's no such thing as creative people and non-creative people. There are only people who use their creativity and people who don't. The only unique contribution that we will ever make in this world will be born of our creativity. If we want to make meaning, we need to make art. If these findings didn't emerge from my own research, I wouldn't have believed them. I spent my entire adult life being too busy strong arming the to-do list for creativity, art, or crafts. So, when I found that creativity is key to wholehearted living, I was inspired to make a change. I wanted to become a photographer. There was only one problem. I forgot how to be new at something. I forgot about that awkward, uncomfortable process that defines the gap between wanting to take pictures like the ones I see in the magazines and having no idea how to use my camera or set up a shot. Then I met Farrah. My husband actually set me up with her on a friend date. He's her pediatrician and, truthfully, I think he thought we shared the same work/balance anxiety so he recommended we meet for lunch. When I told her about my new foray into photography she offered to take on the challenge of teaching a not-good-at-being-new, creativity-fearful, and want-everything-to-be-perfect budding photographer. Farrah changed my life. Not only is she a gifted artist, she has a long teaching history AND she's a trained counselor. She can nail every party of the technical challenges, teach in way that makes it crystal clear, and she can talk you through the frustration and vulnerability that is the joy (and struggle) of making art. I wanted to take pictures of my children, my extended family, and the ordinary moments of my everyday life. I showed her both my favorite pictures from magazines and the pictures that I had taken over the years. She taught me composition by pointing out the differences between the photos I loved and the ones didn't quite capture what I was trying to capture. She taught me about complicated issues like aperture and light by making me practice with my son's transformers and shooting thousands of pictures next to every window in my house (and I'm not exaggerating). One of my favorite teaching moments happened one day when I was trying my new macro lens and I couldn't get anything to work right. I called her and she said, Go into your front yard, get on our stomach, aim your camera at the caterpillar on the leaf, and turn on your camera. I said, Okay, I'll call you back and let you know how it goes. She said, Nope, you're taking me with you. I'm staying on the phone. I'll never forget army-crawling through my flowerbed with my phone in one hand and my camera in the other. Dive into this book. Start anywhere. Take thousands of shots. Screw most of them up. Then find that one. No one can walk you through it like Farrah. She has the photography, teaching, and hand-holding skills to help us capture the moments that matter.

I Wonder Kari Anne Holt,2019-10-01 Kids who love the intrigue of titles such as What Do You Do with an Idea? will be inspired to ask their own questions about the world around them. In this unusual text, young listeners and readers follow a group of diverse kids trying to make sense of the world as they see it. Questions such as What do clouds taste like?, Do my toys miss me when I'm gone?, and I wonder if cars and trucks speak the same language remind us of a child's unique point of view. Nothing is more powerful than seeing something for the first time, and these whimsical questions will encourage all readers to take a fresh look around them. Exquisite artwork by rising star Kenard Pak follows the arc of a day, ending with a spread showing a group of children as different and varied as their questions.

A Ray of Light Walter Wick,2019 Nonfiction picture book explains the scientific properties of light, touching on subjects ranging from incandescence and iridescence to light waves and the color spectrum.

Hold Still Sally Mann,2015-05-12 This National Book Award finalist is a revealing and beautifully written memoir and family history from acclaimed photographer Sally Mann. In this groundbreaking book, a unique interplay of narrative and image, Mann's preoccupation with family, race, mortality, and the storied landscape of the American South are revealed as almost genetically predetermined, written into her DNA by the family history that precedes her. Sorting through boxes of family papers and yellowed photographs she finds more than she bargained for: deceit and scandal, alcohol, domestic abuse, car crashes, bogeymen, clandestine affairs, dearly loved and disputed family land . . . racial complications, vast sums of money made and lost, the return of the prodigal son, and maybe even bloody murder. In lyrical prose and startlingly revealing photographs, she crafts a totally original form of personal history that has the page-turning drama of a great novel but is firmly rooted in the fertile soil of her own life.

Colour Forecasting for Fashion Debra Johnston Cob,Debra Johnston Cobb,Kate Scully,2012-02-12 Colour is a powerful selling tool. It is the first thing to catch the consumer's eye in the shop window. Get the colour choice wrong and an entire range can stay on the racks. So, how do colours arrive on the catwalk or the sales floor – and why do different companies all seem to choose similar colours each season? The answer lies in the work of the huge colour forecasting industry. With case studies that show the industry at work, this book breaks down the forecasting process – from how to put together a colour palette to colour theory and the way that colours behave – and helps you to build the combination of research and intuitive skills that a successful designer or forecaster needs.

Encyclopedia of nineteenth-century photography John Hannavy,2008 The first comprehensive encyclopedia of world photograph up to the beginning of the twentieth century. It sets out to be the standard, definitive reference work on the subject for years to come.

Dancers Among Us Jordan Matter,2022-07-15 The mystery of the body in motion. The surprise of seeing what seems impossible. And the pure, joyful optimism of it all. *Dancers Among Us* presents one thrilling photograph after another of dancers leaping, spinning, lifting, kicking—but in the midst of daily life: on the beach, at a construction site, in a library, a restaurant, a park. With each image the reader feels buoyed up, eager to see the next bit of magic. Photographer Jordan Matter started his *Dancers Among Us* Project by asking a member of the Paul Taylor Dance Company to dance for him in a place where dance is

unexpected. So, dressed in a commuter's suit and tie, the dancer flew across a Times Square subway platform. And in that image Matter found what he'd been searching for: a way to express the feeling of being fully alive in the moment, unself-conscious, present. Organized around themes of work, play, love, exploration, dreaming, and more, *Dancers Among Us* celebrates life in a way that's fresh, surprising, original, universal. There's no photoshopping here, no trampolines, no gimmicks, no tricks. Just a photographer, his vision, and the serendipity of what happens when the shutter clicks.
