Muslim Youth in the Diaspora Pam Nilan,2017-02-17 In a world where the term Islam is ever-increasingly an inaccurate and insensitive synonym for terrorism, it is unsurprising that many Muslim youth in the West struggle for a viable sense of identity. This book takes up the hotly-debated issue of Muslim youth identity in western countries from the standpoint of popular culture. It proposes that in the context of Islamophobia and pervasive moral panic, young Muslims frame up their identity in relation to external conditions that only see 'good' and 'bad' Muslims, on both sides of the ideological fence between Islam and the West. Indeed, by attempting to break down the 'good' versus 'bad' Muslim dichotomy that largely derives from western media reports, as well as political commentary, Muslim Youth in the Diaspora: Challenging Extremism through Popular Culture will enlighten the reader. It illuminates the way in which diasporic Muslim youth engage with, and are affected by, the radical Islamist meta-narrative. It examines their popular culture and online activity, their gendered sense of self, and much more. This original book will be of interest to students and scholars interested in the fields of sociology, cultural studies and social anthropology. It offers a particular focus on Islam for research in youth studies, youth culture, political radicalisation and religious identity. It will also be relevant to the sector of youth and social work, where practitioners seek to build cultural bridges with a new generation.

<u>Atlante dell'abitare virtuale</u> Maurizio Unali,2016-02-07T00:00:00+01:00 L'immagine di copertina è la rappresentazione visiva del progetto multipiattaforma Atlante dell'Abitare Virtuale, qui pubblicato e in rete all'indirizzo www.lineamenta.it/avc/ È un disegno-manifesto che mappa la struttura generale della ricerca, rappresentandola metaforicamente come una "città nuova in multicolor pixel" composta e strutturata dai principali temi affrontati. Una città virtuale – urbanizzata su un reticolo planimetrico di base – a cui si accede da un portale-indice volumetrico (in basso a destra del disegno), varcato il quale si entra in una caleidoscopica interconnessione di spazi abitabili in rete, alla ricerca del modus vivendi dei cittadini senza età della "post-modernità liquida"; spazi ideali, utopici, radicali, visionari, fantasy, effimeri, eccetera. Il disegno di base, così come la ricerca che rappresenta, è un organismo aperto e implementabile, che consente molteplici approfondimenti e visualizzazioni: architettura disegnata per comporre uno spazio-mondo abitabile virtualmente, trasformabile in rete, in continua evoluzione. L'immagine della città che abbiamo messo in scena è di ordine metalinguistico e in continuità con la storia ideale, utopica e radicale del disegno di architettura. Fra il simbolico e l'iconico, in un continuo rimando di metafore visive, citazioni e riferimenti concettuali e visivi, la rappresentazione espone idee e progetti liberamente tratti dalla ricerca svolta e dai suoi principali esiti didattici. Per il metodo di rappresentazione scelto (assonometria ortogonale isometrica), per la tecnica grafica utilizzata (collage, manipolazione digitale e tecniche miste), per l'estetica complessiva della composizione – ma anche per i colori, nella saturazione, nell'opacità, per le opzioni di fusione e sovrapposizione, ecc. –, l'immagine si inserisce nel caleidoscopico mondo della "Pixel Architecture". Maurizio Unali (Roma 1960), architetto, è professore ordinario di Disegno dell'Architettura presso il Dipartimento di Architettura dell'Università degli Studi "G. d'Annunzio" di Chieti-Pescara. Ha svolto attività di ricerca e didattica presso l'Università degli Studi di Roma "La Sapienza", il Politecnico di Milano, l'Università degli Studi "G. d'Annunzio" di Chieti-Pescara. Tra le pubblicazioni si ricordano: Acqua & Architettura (2011); Architettura effimera (2010); New Lineamenta (2009); Abitare virtuale significa rappresentare (2008); Show design, tra architettura e cultura rock (2007); Lo spazio digitale dell'architettura italiana (2006); La Città Virtuale (2005); Il disegno della scuola romana degli anni Venti (2003); Architettura e cultura digitale (2003); Pixel di architettura (2001); Il disegno per il progetto dell'architettura (1996). Ha scritto, inoltre, per l'Enciclopedia di Roma edita da Franco Maria Ricci e per l'Istituto della Enciclopedia Italiana fondato da G. Treccani.

Sunspot Garth Jones,2005-07 The giant Sunspot space station is advertised as the ultimate luxury holiday resort. When completed, it will allow its rich guests to enjoy vacations in the comfort of its computer controlled environment in orbit around the fiery planet of Morasmus. Its sophisticated systems will provide the ultimate in virtual reality entertainment and be capable of responding to each individual guest's preferences, even controlling the conditions within their own personal airspace. The more adventurous will be able to use the resort as a base for exploring the spectacularly beautiful surface of Morasmus, where the violent climate has kept the planet largely uninhabited. Sunspot is nearing completion, the final stage being the transit of its computer controlled nervous system from the construction site orbiting the neighbouring planet of Pirismus. The project has been hampered by problems and delays from the outset, but a series of mysterious accidents suggests that something more sinister than management incompetence may now be at work.

Narrative Mechanics Beat Suter,René Bauer,Mela Kocher,2021-05-31 What do stories in games have in common with political narratives? This book identifies narrative strategies as mechanisms for meaning and manipulation in games and real life. It shows that the narrative mechanics so clearly identifiable in games are increasingly used (and abused) in politics and social life. They have »many faces«, displays and interfaces. They occur as texts, recipes, stories, dramas in three acts, movies, videos, tweets, journeys of heroes, but also as rewarding stories in games and as narratives in society - such as a career from rags to riches, the concept of modernity or market economy. Below their surface, however, narrative mechanics are a particular type of motivational design - of game mechanics.

Eclipse 3 Jonathan Strahan,2009-10-01 To observe an eclipse is to witness a rare and unusual event. Under darkened skies the sun becomes a negative image of itself, its corona transforming the landscape into a strange space where anything might happen, and any story may be true... In the spirit of classic science fiction anthologies such as Universe, Orbit, and Starlight, master anthologist Jonathan Strahan (The Best Science Fiction and Fantasy of the Year) presents the non-themed genre anthology Eclipse: New Science Fiction and Fantasy. Here you will find stories where strange and wonderful things happen--where reality is eclipsed by something magical and new. Continuing in the footsteps of the multiple-award-nominated anthologies Eclipse One and Eclipse Two, Eclipse Three delivers new fiction by some of the genre's most celebrated authors, including Karen Joy Fowler's story of a family's desperation and a rebellious young woman's strange incarceration; Ellen Klages's fable of a practical girl, an unusual tortoise, and an ancient mathematical puzzle; Pat Cadigan's story of a mysterious photograph and two friends' journey through space and time in order to solve its riddle; Jeffrey Ford's tale of a legendary sword imbued with the power to turn flesh to coral, and of the artist that wields it; Daniel Abraham's story of divine providence, sacred oaths, and the omens that indicate whether a man is fit to be king; and Caitlin R. Kiernan's chronicle of an astronaut whose memories of a lover lost to an alien intelligence haunt her.

Injured Parties Monica Weller,2016-05-02 On 9 November 1966, popular GP Dr Helen Davidson was battered to death in dense woodland while birdwatching and exercising her dog a few miles from her Buckinghamshire home. Her body was found the next day, her eyes having been pushed into her skull. 'She had binoculars round her neck, spied illicit lovers, was spotted, and one or both of them killed her,' surmised Detective Chief Superintendent Jack 'Razor' Williams of New Scotland Yard. He had received fifty police commendations in his career, yet not one for a murder enquiry. Unsurprisingly, within weeks the police operation was wound down, Williams retired, and another cold case hit the statistics. Fifty years later, amateur sleuth and author Monica Weller set about solving the murder – without the help of the prohibited files. As she sifted the evidence, a number of suspects and sinister motives began to emerge; it was clear it was not a random killing after all. Weller uncovered secret passions, deep jealousies,

unusual relationships and a victim with a dark past. Her persistence and dedication were dramatically rewarded when she uncovered the identity of the murderer – revealed here for the first time.
