The Structural Conservation of Panel Paintings Kathleen Dardes,Andrea Rothe,1998-10-29 This volume presents the proceedings of an international symposium organized by the Getty Conservation Institute and the J. Paul Getty Museum. The first conference of its kind in twenty years, the symposium assembled an international group of conservators of painted panels, and gave them the opportunity to discuss their philosophies and share their work methods. Illustrated in color throughout, this volume presents thirty-one papers grouped into four topic areas: Wood Science and Technology, History of Panel-Manufacturing Techniques, History of the Structural Conservation of Panel Paintings, and Current Approaches to the Structural Conservation of Panel Paintings.

Makers Janet Koplos,Bruce Metcalf,2010-07-31 Here is the first comprehensive survey of modern craft in the United States. Makers follows the development of studio craft--objects in fiber, clay, glass, wood, and metal--from its roots in nineteenth-century reform movements to the rich diversity of expression at the end of the twentieth century. More than four hundred illustrations complement this chronological exploration of the American craft tradition. Keeping as their main focus the objects and the makers, Janet Koplos and Bruce Metcalf offer a detailed analysis of seminal works and discussions of education, institutional support, and the philosophical underpinnings of craft. In a vivid and accessible narrative, they highlight the value of physical skill, examine craft as a force for moral reform, and consider the role of craft as an aesthetic alternative. Exploring craft's relationship to fine arts and design, Koplos and Metcalf foster a critical understanding of the field and help explain craft's place in contemporary culture. Makers will be an indispensable volume for craftspeople, curators, collectors, critics, historians, students, and anyone who is interested in American craft.
