Technology and Critical Literacy in Early Childhood Vivian Maria Vasquez,Bryan Woods,Carol Branigan Felderman,2022-05-05 Now in its second edition, this popular text explores classrooms where technology and critical literacies are woven into childhood curricula and teaching. Using real-world stories, it addresses what ICTs afford critical literacy with young children, and how new technologies can be positioned to engage in meaningful and authentic learning. Concise but comprehensive, the text provides strategies, theoretical frameworks, demonstrations of practice, and resources for teachers. Updated with discussions of media literacy and new pedagogical tools, the second edition features new classroom examples and experiences that highlight the ways in which critical literacy, technology and media literacy come together in everyday life in the early childhood classroom. The inviting examples model how to use the interests and inquiry questions of young learners as a springboard for creating a critical curriculum. Each chapter includes Reflection Points, pedagogical invitations, and Resource Boxes to imagine new possibilities of working with students in engaging and supportive ways. The inspiring stories, guidance, and tools this book make it a great resource for pre-service teachers and students in Early Childhood Education and Literacy Education, and primary teachers and educators.

What Color Is Your Parachute? Guide to Job-Hunting Online, Sixth Edition Mark Emery Bolles,Richard N. Bolles,2011-05-17 Before you start your Internet job-hunt, there are some things that you must know, like: • Why are job sites like Monster and CareerBuilder so stunningly ineffective? • What can you do to make sure your resumes survive the elimination process? • How do you find the

information that search engines like Google can't? • How can you tell the difference between a genuinely helpful job board, and a website designed only to collect resumes? • When are hobby forums more helpful than business networking sites? • When is the Internet not helpful when job-hunting? • What is the fatal flaw of all social networking sites? The Guide to Job-Hunting Online, 6th Edition, not only answers these questions and many more, but shows you how to comprehensively and effectively use the Internet for all aspects of your job-hunt. This companion to What Color Is Your Parachute?, the best-selling job-hunting book in the world, has been completely rewritten for our changing times and includes hundreds of updated website recommendations and descriptions. The Guide to Job-Hunting Online shows you how to quickly find the data that will be most helpful to you, how to identify and research the places where you will most enjoy working, how to leverage the power of social networking sites, and how to use your Internet time most effectively, avoiding the common pitfalls and setting you up for success.

Libraries Supporting Online Learning Christina D. Mune,2020-10-07 Using practical examples from

librarians in the field, this book lays out current issues in online learning and teaches librarians how to adapt a variety of library services—including instruction, reference, and collection development—to online education. Recent studies highlighting the challenges faced by online learners show that skills librarians are uniquely qualified to teach, such as information and digital literacy and source evaluation, can improve academic performance in online courses and enhance the online learning experience. Just as embedded librarianship was developed to answer the needs of online courses when they emerged in the early 2000s, online learning librarian Christina Mune now teaches online librarianship as a set of realistic strategies for serving a variety of online education models. Each chapter of Libraries Supporting Online Learning addresses a different strategy for supporting online students and/or faculty, with all strategies derived from real-world practices. Librarians will find information on best practices for creating digital literacy tutorials and dynamic content, providing patrons with open access and open educational resources, helping patrons to avoid copyright issues, promoting peer-to-peer learning and resource sharing, posting to social media, and developing scalable reference services. The tools and practical examples in this book will be useful for all educators interested in increasing the efficacy of online learning.

Smart Health Hsinchun Chen,Qing Fang,Daniel Zeng,Jiang Wu,2018-10-25 This book constitutes the thoroughly refereed post-conference proceedings of the International Conference for Smart Health, ICSH 2018, held in Wuhan, China, in July 2018. The 14 full papers and 21 short papers presented were carefully reviewed and selected from 49 submissions. They focus on studies on the principles, approaches, models, frameworks, new applications, and effects of using novel information technology to address healthcare problems and improve social welfare. The selected papers are organized into the following topics: smart hospital; online health community; mobile health; medical

big data and healthcare machine learning; chronic disease management; and health informatics.

Word Art + Gesture Art = Tone Art Hanns-Werner Heister,Hanjo Polk,Bernhard Rusam,2023-03-06 This book offers a truly interdisciplinary discussion on the relationship between the vocal and the instrumental in music and other arts and in everyday communication alike. Presenting an in-depth systematical and historical analysis of the evolution of word and gesture art, it gives extensive information on the anthropological, biological, and physiological influences and interactions in music and beyond. The book gives a unique definition of the genuinely vocal and instrumental from their generative deep structure: They derive from and are determined in their production by the duality of voice and hands, and in terms of product as the tone or 'tonal' on the one hand, and the percussive, that is noise plus rhythm, on the other. This book succeeds in bringing together perspectives from art, and from natural and social sciences, merging them to offer new explanations about the relationship between the vocal and instrumental, and eventually about the origins of music, arts, and language. It offers new perspectives on the intertwining between the vocal and the instrumental, specifically in the context of the expressions of human languages. At the same time, this book aims at clarifying and explaining the role of words and gestures in different contexts, such as society and communication, education, and arts.

Perfect ICT Every Lesson Mark Anderson,2013-09-26 Technology is at the heart of learning for all of us and every teacher needs to be using social media, mobile technologies and transformational digital learning opportunities as an integral part of their range of strategies for helping students make the maximum progress. Hitting Pause Gail Taylor Rice,2023-07-03 Pauses constitute a simple technique for enlivening and enhancing the effectiveness of lectures, or indeed of any form of instruction, whether a presentation or in an experiential setting. This book presents the evidence and rationale for breaking up lectures into shorter segments by using pauses to focus attention, reinforce key points, and review learning. It also provides 65 adaptable pause ideas to use at the opening of class, mid-way through, or as closers.Starting with brain science research on attention span and cognitive load, Rice bases her book on two fundamental principles: shorter segments of instruction are better than longer ones, and learners who actively participate in instruction learn better than those who don't.Pausing helps teachers apply these principles and create student engagement without requiring major changes in their lesson plans. With careful planning, they can integrate pauses into learning sessions with ease and significantly reinforce student learning. They will also gain feedback on students' comprehension.Rice sets out the characteristics of good pauses, gives advice on how to plan them and how to introduce them to maximum effect. She provides compelling examples and concludes with a repertory of pauses readers can easily modify and apply to any discipline. This book contains a

compendium of strategies that any teacher can fruitfully use to reinforce learning, as well as a stepping stone to those seeking to transition to more active learning methods. It:• Makes the case for using pauses• Identifies the primary functions of pauses: focusing, refocusing, enhancing retention, or closing off the learning experience • Provides research evidence from cognitive science and educational psychology• Provides practical guidance for creating quick active learning breaks• Distinguishes between starting, middle, and closing pauses • Includes descriptions, with suggested applications, of 65 pauses

Art Therapy and Career Counseling Barbara Parker-Bell,Debra Osborn,2022-12-30 Art Therapy and Career Counseling is a comprehensive career development guide that offers creative approaches for understanding, assessing, and supporting ethical career development strategies. This book expands on traditional approaches by adding a robust art therapy lens to topics such as career development theories, relational approaches, career resource identification, multicultural concerns, and ethical practices. Additionally, research and practice findings of art therapists, counselors, psychologists, educators, and students are utilized as sources for career-centered art-based strategies. Art therapy educators, art therapists, counselors, and psychologists will appreciate creative approaches to teaching and applying career development through the lifespan.

Routledge International Handbook of the Sociology of Art and Culture Laurie Hanquinet,Mike Savage,2015-09-16 The Routledge Handbook of the Sociology of Arts and Culture offers a comprehensive overview of sociology of art and culture, focusing especially – though not exclusively – on the visual arts, literature, music, and digital culture. Extending, and critiquing, Bourdieu's influential analysis of cultural capital, the distinguished international contributors explore the extent to which cultural omnivorousness has eclipsed highbrow culture, the role of age, gender and class on

cultural practices, the character of aesthetic preferences, the contemporary significance of screen culture, and the restructuring of popular culture. The Handbook critiques modes of sociological determinism in which cultural engagement is seen as the simple product of the educated middle classes. The contributions explore the critique of Eurocentrism and the global and cosmopolitan dimensions of cultural life. The book focuses particularly on bringing cutting edge 'relational' research methodologies, both qualitative and quantitative, to bear on these debates. This handbook not only describes the field, but also proposes an agenda for its development which will command major international interest.

Mindful Teaching with Technology Troy Hicks,2021-11-11 Technology is integral to teaching in the English language arts, whether in-person, hybrid, or remote. In this indispensable guide, Troy Hicks shows how to teach and model digital diligence--an alert, intentional stance that helps both teachers and students use technology productively, ethically, and responsibly. Resources and lesson ideas are presented to build adolescents' skills for protecting online privacy, minimizing digital distraction, breaking through "filter bubbles," fostering civil conversations, evaluating information on the internet, creating meaningful digital writing, and deeply engaging with multimedia texts. Dozens of websites, apps, and other tools are reviewed, with links provided at the companion website; end-of-chapter teaching points and guiding questions facilitate learning and application.

The Application of Emerging Technology and Blockchain in the Insurance Industry Kiran Sood,Simon Grima,Ganga Sharma,Balamurugan Balusamy,2024-02-20 This book is a unique guide to the disruptions, innovations, and opportunities that technology provides the insurance sector and acts as an academic/industry-specific guide for creating operational effectiveness, managing risk, improving financials, and retaining customers. It also contains the current philosophy and actionable

strategies from a wide range of contributors who are experts on the topic. It logically explains why traditional ways of doing business will soon become irrelevant and therefore provides an alternative choice by embracing technology. Practitioners and students alike will find value in the support for understanding practical implications of how technology has brought innovation and modern methods to measure, control, and evaluation price risk in the insurance business. It will help insurers reduce operational costs, strengthen customer interactions, target potential customers to provide usage-based insurance, and optimize the overall business. Retailers and industry giants have made significant strides in adopting digital platforms to deliver a satisfying customer experience. Insurance companies must adjust their business models and strategies to remain competitive and take advantage of technology. Insurance companies are increasingly investing in IT and related technologies to improve customer experience and reduce operational costs. Innovation through new technologies is a key driver of change in the financial sector which is often accompanied by uncertainty and doubt. This book will play a pivotal role in risk management through fraud detection, regulatory compliances, and claim settlement leading to overall satisfaction of customers.

   Scholarly Inquiry in Academic Advising Craig M. McGill,Samantha S. Gizerian,Peter L. Hagen,2023-07-03 Co-published with NACADAA large and growing number of academic advisors are interested in researching and publishing scholarly inquiry in academic advising. Since the first edition of this book was published, the scope of relevant inquiry has widened and deepened, and public attention and accountability is at an all-time high. This second edition of Scholarly Inquiry in Academic Advising provides scholar-practitioners with methodological perspectives from each of the major ways of knowing: the social sciences, including qualitative, quantitative, and now mixed methods approaches; the arts; the humanities; and the natural sciences. This book is a vade mecum for

researchers in academic advising to formulate research questions, structure research, point to useful theoretical and methodological approaches, guide analysis, and help find publication outlets. Authors from a multitude of backgrounds seek to raise the level of discourse about academic advising, to illustrate its history, to reflect on how research can foster new perspectives, and to connect with and foster social justice, internationality, and inclusivity. This volume will assist those who seek to push back the frontiers of knowledge in the field, because it serves as a handbook for advising scholars, whatever their epistemological, theoretical, axiological, and methodological predilections. As for practitioners, this book "raises the bar" and conveys to even non-researching practitioners that scholarly inquiry in academic advising is a desirable avenue to professional development that must inform their practice.

Storytelling Janice M. Del Negro,2021-06-24 This book serves as both a textbook and reference for faculty and students in LIS courses on storytelling and a professional guide for practicing librarians, particularly youth services librarians in public and school libraries. Storytelling: Art and Technique serves professors, students, and practitioners alike as a textbook, reference, and professional guide. It provides practical instruction and concrete examples of how to use the power of story to build literacy and presentation skills, as well as to create community in those same educational spaces. This text illustrates the value of storytelling, covers the history of storytelling in libraries, and offers valuable guidance for bringing stories to contemporary listeners, with detailed instructions on the selection, preparation, and presentation of stories. It also provides guidance around the planning and administration of a storytelling program. Topics include digital storytelling, open mics and slams, and the neuroscience of storytelling. An extensive and helpful section of resources for the storyteller is included in an expanded Part V of this edition.
