DIY e-book formatting may seem daunting, but new tools-paid and free-make it fairly easy for most fiction manuscripts. These tools are discussed early in this guide so you will have a short read if one of them works for you. If your manuscript is more complicated (e.g., a nonfiction book with tables, list items, images, footnotes, and other specially formatted elements), this guide will explain everything you need to produce a professional and pleasing e-book. Advanced formatting is accomplished with HTML and CSS, but you won't need any prior experience or knowledge of either of these as the guide includes a tutorial to teach you everything you need to know.
