

Word2exe Word To Exe

Alan Sondheim

OpenVMS AXP Internals and Data Structures Ruth E. Goldenberg,Saro Saravanan,1994 This outstanding new book describes the internals and data structures of the OpenVMS AXP operating system 1.5 in vivid detail. Perhaps the most up-to-date description available for a commercial operating system, OpenVMS AXP Internals and Data Structures is an irreplaceable reference for operating system development engineers, operating system troubleshooting experts, systems programmers, consultants and customer support specialists. This books is essential for those interested in learning how OpenVMS AXP runs on the Alpha AXP family of processors. This information is equally applicable to the internals of any modern-day symmetric multi-processing operating system running on a RISC computer. Provides a detailed treatment of the key architectural features of Alpha AXP systems Explores concepts which are equally applicable to the Alpha AXP family of processors and the internals of any modern-day symmetric multi-processing operating system running on a RISC computer Devotes each of the 39 chapters to explaining its topics in case study format

Writing Under Alan Sondheim,2012 Alan Sondheim's Writing Under explores and examines what happens to writing as it takes place on and through the networked computer. Sondheim began experimenting with artistic and philosophical writing using computers in the early 1970s. Since 1994, he has explored the possibilities of writing on the Internet, whether using blogs, web pages, e-mails, virtual worlds, or other tools. The sum total of Sondheim's writing online is entitled The Internet Text. Writing Under selects from this work to provide insight into how writing takes place today and into the unique practices of a writer. The selections range from philosophical musings, to technical explorations of writing practice, to poetic meditations on the writer online. This work expands our understanding of writing today and charts a path for writing's future.
