**500 Chinese Loanwords- Quick and Easy Way to Learn Reading Mandarin Chinese Words (HSK All Levels)** Jia Ming Wang, 2022-11-17 Chinese loanwords (Wàilái cí, 外来词) refer to words that are transliterated or simply literally translated from English and other languages. The loanwords have become an important part of the Chinese language. However, every foreign word, that comes to China, usually gets a new shape in Mandarin Chinese language. These words originate elsewhere, and are mapped to a new set of characters, often with resembling pronunciations. In this book, I am including over 500 words in the tabular form that are closely related to the foreign words. For each of the words in this book, I am adding: 1. Serial number (count) 2. English, 3. Pinyin, and 4. Simplified Chinese characters. Additional details have been provided for the less known English words (in English). Further, the book has been meticulously organized into different chapters. -Jia Ming

English-Chinese Mini Dictionary Taebum Kim, 2018-04-11 This book lists approximately 4,800 core English words with standard Chinese (Mandarin) equivalents including standard American pronunciation. Main entries are in English alphabetically with standard American pronunciation with focus on stressed syllable\*in bold print.. In the next line, parts of speech label ([n.] for nouns and [v.] for verbs) and the entry's Chinese equivalents in Pinyin (Romanized standard Chinese pronunciation) followed by Chinese characters (both simplified and traditional if applicable). A syllable is part of a word that contains one vowel sound. In every word of two or more syllables, one syllable is stressed. It's called 'stressed syllable'. The vowel sound in that syllable is louder, higher in pitch, and longer than the other vowel sounds in the same word. The contrast between stressed and unstressed syllables is very important because it helps to create the rhythm of English. The native English speakers rely more on stressed syllable to understand what you say than on the individual sounds of the word. This book is ideal for learners of English as a second language who want to communicate more effectively and also for learners of Chinese who know English. [Sample] cave [keiv] [n.] dòng xué 洞穴 cavity

[kævəti] [n.] zhù yá 宇 (宇) cedar [si:dər] [n.] shān 山 ceiling [si:liŋ] [n.] tiān huā bǎn 天花板

**The Young Monk** Jeff Pepper, Xiao Hui Wang, 2020-10-24 In this, the Traditional Chinese version of the 4th book in our Journey to the West series, we leave the imprisoned Sun Wukong behind, and tell the story of Xuanzang, the monk chosen by the Buddha to undertake the dangerous journey westward to India and bring sacred wisdom back to China. Unlike the previous books which told of Sun Wukong's great adventures (and misadventures) across heaven and earth, this story deals with smaller, human-scale events and the traditional themes of love, loyalty, treachery and revenge. Our story begins with the Buddha's decision to bring his wisdom to China. Then we meet the young couple - Guangrui and Wenjiao - who become Xuanzang's parents. We witness their terrible ordeals around the time of Xuanzang's birth, and we then jump ahead to when he turns eighteen, learns of his true parentage, and avenges his parents. This book is based on Journey to The West (西游记, xī yóu jì), an epic novel written in the 16th Century by Wu Chen'en. The novel is loosely based on an actual journey by the Buddhist monk Tangseng (called Xuanzang and Sanzang in earlier books), who traveled from the Chinese city of Chang'an westward to India in 629 A.D. and returned 17 years later with priceless knowledge and texts of Buddhism. Over the course of the book the band of travelers face the 81 tribulations that Tangseng had to endure to attain Buddhahood. All of the stories in this series are all written in simple language suitable for intermediate Chinese learners. Our core vocabulary is the 600 words of HSK-3, plus all the words that were introduced in the

previous books of the series. All these words are in the glossary at the back of the book. Whenever we introduce a new word or phrase, it's defined in a footnote on the page where it first appears, and it also appears in the glossary. In the main body of the book, each page of Chinese characters is matched with a facing page of pinyin. This is unusual for Chinese novels but we feel it's important. By including the pinyin, as well as a full English version and glossary at the end, we hope that every reader, no matter what level of mastery they have of the Chinese language, will be able to understand and enjoy the story we tell here. Free audio versions of all books in this series are available on YouTube. Go to [www.youtube.com](http://www.youtube.com) and search for the Imagin8 Press channel to find all of our free audiobooks.

*High-Efficiency Overseas Chinese Learning Series, Dictionary Series, 3000* Dachang Ji, 2013-03-30 The study of Chinese characters has been refined through thousands of years. There are two major categories in general; the intensive method and the dispersed method. Starting from 1960s, a special Chinese character learning method, the family word study, was established. After 20 years of continuing research and development, this teaching method has been adopted broadly in Chinese word study, particularly, in the second and third levels of word studies, and utilized in diverse Chinese learning textbooks. Mr. Dachang Ji developed a root word system. It extends about 300 word families into roughly 800 root words. The system makes the Chinese word studying faster, easier, and more efficient. This dictionary's content and the word searching system are based on the root word system, which sorts the three thousand most frequently used Chinese characters. This dictionary helps students learn Chinese characters quickly and conveniently. At the same time, it teaches learners to distinguish characters that look similar, but not the same in a repetitive manner. This dictionary also contains 119 poems and short stories, including famous poems from the Tang and Song dynasty, kid rhymes, words for daily living, and the 2,500 most frequently used Chinese characters. Through these and the convenient root word system, the dictionary will become a necessary tool for overseas Chinese learners. This dictionary functions as an important and indispensable reference book in Chinese word studying. It can be used along with a variety of Chinese learning materials that help the Chinese word and literacy learning faster and more efficient. The attached famous poems and reading materials demonstrate classic Chinese culture. Learners can read them repeatedly to improve their Chinese pronunciation and enhance their knowledge of the basic Chinese characters. Complete Modern Chinese Grammar: Beginner to Intermediate Paul C.

Brown, 2020-07-15 A word from the author: Having spent years trying to learn Chinese the traditional way, I quickly realised that the logic behind it was not suitable for me.

Therefore, as a teacher I have spent the last 5 years designing a series of Chinese grammar books that allow a native-born English speaker to go from English grammar to Chinese, rather than the traditional way of starting from Chinese grammar and then relating it to English grammar. In this way, a native-born English speaker, who thinks in English, can learn to translate from English to Chinese using this style of learning. Who is this book for? This book is for anyone wishing to learn how to use Chinese for speaking, reading and writing. The information contained within this book is enough to pass HSK 3, but the book itself is designed to get non-native speakers to use Chinese effectively on a day-to-day basis. You might want to send messages, write emails, conduct in-depth conversations, or give presentations in Chinese. If so, then the beginner to intermediate edition provides all the grammar needed to communicate with native Chinese people about everyday issues. How to use the book: The book is divided into 140 units, and after every 7 units there is a summary page that can be used to review what has been studied. With this book, students will start learning simple nouns, then simple sentences and finally finishing on intermediate level structures. The tenses that are taught are 'present simple, present continuous, future simple and past simple'. In other words, by the end of the book, students should be able to talk and write about the past, present and future. In fact, there is enough information contained within that students should be able to live and work in China without fear of making any mistakes or not being able to communicate an everyday idea or opinion.
