**Work @ Home Jobs and Tips** J.T. Watkins,2016-09-12 Let's face it, in this economy, staying financially ahead is tough! The average person is getting squeezed more than ever. Adjusted for inflation, over the past couple decades the average real income has greatly declined while the real expenses are vastly higher. That spells trouble for most people.Now it seems almost everyone needs a second or even third income just to pay bills and save a small amount of money for an emergency fund. But the net income from another job is not always worth the effort due to additional expenses like more gas to another job, extra wear and tear on your car, eating dinner out and of course the lovely marginal income tax. That's why working a job at home makes sense.

**Work from Home** Serge Chapter,2019-01-12 Every weekday morning, working people leave the comfort of their homes to head to work. Some of them live so close to their places of employment, they're able to walk. Others commute on trains, in cars and even on bicycles.Many of these people dream of working from home. They reflect on the joys of awakening and walking with their coffee from the kitchen to their home office (even if it's the kitchen table). They sigh ruefully, not believing that the work from home dream could be theirs, if only they were to think a little outside the box.I'm writing this brief book to let you know that the work from home dream is for anyone who's willing to reach for it. It's not an impossible dream, either.As I write, there are millions of people all over the world, working from home. They're in their pajamas at the kitchen table. They're sitting in the park. They're drinking coffee at the corner java joint. Wherever they are, they're making money and they're making it on their terms and on their schedule.Wouldn't you like to be your own boss, keeping the hours that suit you best? Wouldn't you like to make commuting to work a thing of the past?It can be done.This book seeks to prove my point. It's a collection of key information based on case studies, which demonstrates that working from home is not just a possibility. It's something that will change your life, recreating it as more prosperous and less stressful, just because you were willing to make a change.But the road to professional independence may not be perfectly smooth. You may not make all your money from one sole revenue stream, to start with. That means variety, which is the spice of life, the last time I checked. Making a living online and from home means understanding the ebb and flow of work and how to make it flow

more than ebb. So, come along with me to discover how you can live the dream of working from home, making as much as \$10,000 per month. The proof is in the pudding and this collection of case studies has been prepared to give you a gentle push in the right direction. Let's find out how to get yourself out of the rat race and into a work from home situation that pays the bills and makes your life a happier one.

**Drive** Daniel H. Pink, 2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing*. Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

**Familiar Moon** Diane L. Thompson, 2014-05-13 A chance email begins a friendship with one of the founders of the new Townsend moon colony and Quinn Alexander finds himself with access to one of the most sought after stories on earth. As a reporter—even though still a rookie—he could hardly pass up a trip to the moon and unlimited access to the colony's denizens. Should he be surprised, then, to learn that the colonists have an ulterior motive? Or, maybe more than one? As Quinn explores the colony, learning its beginnings and inner workings, he is also learning its secrets and one of these secrets keeps him awake at night. Back on earth, groups known as Earth Firsters spread lies and half-truths demonizing the colony and its inhabitants. Their disinformation campaign and big-money backers worked to suppress publication of Quinn's book, a glowing account of the colony's first year. What other acts of sabotage, even terrorism, are these dark forces planning? Who is financing these groups, religious fundamentalists or corporations wanting to keep the moon's resources to themselves? Quinn knows that if the world knew the colony's secret, the Earth Firsters would win. Quinn follows his instincts and returns to earth without revealing the entire truth. Five years pass, and while pursuing a story on the International Space Station, Quinn recognizes a UN intelligence operative. However, the man is introduced to Quinn as the new colony administrator. He follows the operative to the moon where he learns of a plot to destroy the Townsend colony and discredit his friends. Quinn finds that he can no longer simply be an observer and, willing or not, becomes a part of the colony's story.
