Show Your Work! Austin Kleon,2015-11-04 Kata Edgar Allan Poe, sebagian besar penulis takut jika proses berkaryanya diketahui orang lain. Sementara itu, Pablo Picasso kerap membuat orang yang berkomunikasi dengannya justru kehilangan energi dan motivasi berkarya. Ya, keduanya memang maestro legendaris, tapi sekarang bukan saatnya lagi berkarya ala mereka. Bukan juga zamannya Mozart sang genius musik. Ini eranya kamu, siapa pun kamu, bisa berkarya! Lalu, apa kuncinya? Tunjukkan saja. Di zaman keterbukaan ini, semua orang punya kesempatan sama untuk jadi hebat. Jangan sembunyikan proses kreatifmu. Undang orang-orang untuk melihatnya. Jangan khawatir kritik, karena itu bahan pelajaran buatmu. Ide yang menurutmu tidak menarik, siapa tahu luar biasa bagi orang lain. Lebih dari itu, karyamu juga bisa menginspirasi orang lain. Jadi, tunggu apa lagi? Tak perlu ragu atau malu. Berbagi karya membuatmu kaya! ... Semakin banyak kamu memberi, semakin banyak yang kembali kepadamu.-Paul Arden [Mizan, Noura Books, Karya, Hidup, Berkarya, Kerja, Indonesia]

China's Emergence as a Defense Technological Power Tai Ming Cheung,2013-10-31 China is flexing its growing military and strategic clout in the pursuit of broadening national security interests. At the same time, the country's economic and technology policies have also become more nationalistic, state-centered, and ambitious. China's defense economy has set its sights on catching up with the West by the beginning of the 2020s and is making steady progress in building up its innovation capabilities, although this is presently in the form of incremental and sustaining types of activities. More high-end, disruptive forms of innovation that would lead to major breakthroughs are likely to be beyond China's reach in the near-to medium term. This volume provides a wide-ranging and detailed assessment of the present state of the Chinese defense economy at a time of rapid change and accelerating advancement in its innovation capabilities and performance. This collection of articles has three main goals: (1) to locate China's defense innovation dynamics within broader historical, technological and methodological frameworks of analysis; (2) to assess the performance of the Chinese defense economy's six principal subsectors; and (3) to compare China's approach to defense industrialization with major counterparts in the Asia-Pacific region. This book was originally published as a special issue of the Journal of Strategic Studies.

Madison Avenue and the Color Line Jason Chambers,2011-08-24 Until now, most works on the history of African Americans in advertising have focused on the depiction of blacks in advertisements. As the first comprehensive examination of African American participation in the industry, Madison Avenue and the Color Line breaks new ground by examining the history of black advertising employees and agency owners. For much of the twentieth century, even as advertisers chased African American consumer dollars, the doors to most advertising agencies were firmly closed to African American professionals. Over time, black participation in the industry resulted from the combined efforts of black media, civil rights groups, black consumers, government organizations, and black advertising and marketing professionals working outside white agencies. Blacks positioned themselves for jobs within the advertising industry, especially as experts on the black consumer market, and then used their status to alter stereotypical perceptions of black consumers. By doing so, they became part of the broader effort to build an African American professional and entrepreneurial class and to challenge the negative portrayals of blacks in American culture. Using an extensive review of advertising trade journals, government documents, and organizational papers, as well as personal interviews and the advertisements themselves, Jason Chambers weaves individual biographies together with broader events in U.S. history to tell how blacks struggled to bring equality to the advertising industry.

Contemporary Indigenous Movements in Latin America Erick D. Langer,2003-03-01 The efforts of Indians in Latin America have gained momentum and garnered increasing attention in the last decade as they claim rights to their land and demand full participation in the political process. This issue is of rising importance as ecological concerns and autochthonous movements gain a foothold in Latin America, transforming the political landscape into one in which multiethnic democracies hold sway. In some cases, these movements have led to violent outbursts that severely affected some nations, such as the 1992 and 1994 Indian uprisings in Ecuador. In most cases, however, grassroots efforts have realized success without bloodshed. An Aymara Indian, head of an indigenous-rights political party, became Vice President of Bolivia. Brazilian lands are being set aside for indigenous groups not as traditional reservations where the government attempts to 'civilize' the hunters and gatherers, but where the government serves only to keep loggers, gold miners, and other interlopers out of tribal lands. Contemporary Indigenous Movements in Latin America is a collection of essays compiled by Professor Erick D. Langer that brings together-for the first time-contributions on indigenous movements throughout Latin America from all regions. Focusing on the 1990s, Professor Langer illustrates the range and increasing significance of the Indian movements in Latin America. The volume addresses the ways in which Indians have confronted the political, social, and economic problems they face today, and shows the diversity of the movements, both in lowlands and in highlands, tribal peoples, and peasants. The book presents an analytical overview of these movements, as well as a vision of how and why they have become so important in the late twentieth century. Contemporary Indigenous Movements in Latin America is important for those interested in Latin American studies, including Latin American civilization, Latin American anthropology, contemporary issues in Latin America, and ethnic studies.

Kellogg's Six-hour Day Benjamin Kline Hunnicutt,1996 On December 1, 1930, W K Kellogg replaced the three daily eight-hour shifts in his cereal plant with four six-hour shifts. By adding on a new shift he created jobs. When World War II ended, Kellogg's managers abandoned the six-hour shift and began to define progress as more work for more people. This book documents the struggle of workers.

Policies to Address Poverty in America Melissa Kearney,Benjamin Harris,2014-06-19 One-in-seven adults and one-in-five children in the United States live in poverty. Individuals and families living in povertyËnot only lack basic, material necessities, but they are also disproportionately afflicted by many social and economic challenges. Some of these challenges include the increased possibility of an unstable home situation, inadequate education opportunities at all levels, and a high chance of crime and victimization. Given this growing social, economic, and political concern, The Hamilton Project at Brookings asked academic experts to develop policy proposals confronting the various challenges of America's poorest citizens, and to introduce innovative approaches to addressing poverty.ËWhen combined, the scope and impact of these proposals has the potential to vastly improve the lives of the poor. The resulting 14 policy memos are included in The Hamilton Project's Policies to Address Poverty in America. The main areas of focus include promoting early childhood development, supporting disadvantaged youth, building worker skills, and improving safety net and work support.
