Language in Society in Bangladesh and Beyond Shaila Sultana,Mian Md. Naushaad Kabir,Md. Zulfeqar Haider,Mohammad Moninoor Roshid,M. Obaidul Hamid,2023-11-29 This collection presents a holistic picture of the sociolinguistic landscape in Bangladesh, offering a critical understanding of language ideologies and social inequalities in the country, as they connect more widely to dynamics in the Global South. The book seeks to untangle the voices embedded in the language practices of a range of communities and professions in the region, which have been little studied in the literature, and encourage a rethinking of the relationships between language and nationality, class, ethnicity, race, and gender. Highlighting perspectives from established and emerging researchers and drawing on a wide range of theoretical approaches and methodologies, the volume is organized around such key themes as bilingualism and diglossia; language variation across domains; language and identity in literature; and the interconnectedness of language, identity, and globalization. Taken together, the collection calls attention to the socially and spatially situated nature of language practices in Bangladesh and in turn, the ways in which scholars in the Global South make sense of the sociolinguistic landscape at both the local and global levels. This book will appeal to scholars working in sociolinguistics, particularly those working on language policy, language and identity, language variation, and in or about the Global South.

Bhutan Karma Ura,2022-10-06 The process of modernization has brought discontinuities in collective memory. This volume and its prequel provide an act of collective remembrance, knitting together many voices and stories. It shows the readers a world of the past before modernization began in the 1960s. Volume 2 covers the monumental architecture of dzongs (castles) and administration of the country, authority and power, cosmological concepts and beliefs, religions and rites, visualization and meditation, visual arts, and folk drama that affected the daily life of the people. Some chapters also dwell on monastic life and monkhood, and Guru Rinpoche's imprints on the land and its people.

Politics and the English Language George Orwell,2021-01-01 George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell’s Essays series, Orwell takes aim at the language used in politics, which, he says, ‘is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind’. In an age where the language used in politics is constantly under the microscope, Orwell’s Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

It's Even Worse Than You Think David Cay Johnston,2018-01-16 New York Times Bestseller The Trump administration is remaking the government. It's Even Worse Than You Think: What the Trump Administration Is Doing to America tells us exactly how it is making America worse again. Bestselling author and longtime Trump observer David Cay Johnston shines a light on the political termites who have infested our government under the Trump Administration, destroying it from within and compromising our jobs, safety, finances, and more. No journalist knows Donald Trump better than David Cay Johnston, who has been following him since 1988. It's Even Worse Than You Think: What the Trump Administration Is Doing to America goes inside the administration to show how the federal agencies that touch the lives of all Americans are being undermined. Here is just some of what you will learn: The Wall. Mexican President Enrique Pena Nieto told President Trump that Mexico will never pay for the border wall. So, Trump is proposing putting a tariff on Mexican imports. But a tariff will simply raise the price of Mexican goods in the US, meaning American consumers will end up paying for the wall—if it ever gets built. Climate Change. Welcome to the new EPA, run by Scott Pruitt, a lawyer who has spent much of his career trying to destroy the agency he now heads. Secrecy reigns at the new EPA because Pruitt meets with industry executives to find out which clean air and clean water provisions they most want to roll back, and keeps staffers in the dark to make sure these pro-pollution plans don't leak prematurely. Stocking the Swamp. Contrary to his promise to “drain the swamp” in Washington, DC, Trump has filled his cabinet with millionaires and billionaires, from Treasury Secretary Steven Mnuchin, a Goldman Sachs and hedge fund veteran who made much of his fortune foreclosing on homeowners to billionaire heiress Education Secretary Betsy DeVos, who has already put the interests of bankers ahead of debt-burdened students and their families. The Kleptocracy. Under Donald Trump conflict of interest is passé. When Trump isn't in Washington, he stays at one of his properties, where the taxpayers pick up the tab for staffers, Secret Service, and so on, all at full price. And back in Washington, everyone now knows that the Trump International Hotel is the only place to stay if you want to do business with the administration. Meanwhile sons Donald Jr. and Eric run an eyes-wide-open blind trust of Trump holdings to avoid the appearance of conflict of interest—but not the reality.

Scene Thinking Benjamin Woo, Stuart Poyntz, Jamie Rennie, 2018-04-19 How is cultural activity shaped by the places where it unfolds? One answer has been found in the ‘scenes perspective’, a development within popular music studies that explains change and transformation within musical practices in terms of the social and institutional histories of scenes. Scene Thinking: Cultural Studies from the Scenes Perspective takes up this framework – and the mode of analysis that goes with it – as an important contribution to cultural analysis and social research more generally. In a series of focused case studies – ranging across practices like drag kinging, Bangladeshi underground music, urban arts interventions and sites like single performance venues, urban neighbourhoods in various states of gentrification, and virtual networks of game consoles in countless living rooms – the authors demonstrate how ‘scene thinking’ can enrich cultural studies inquiry. As a humanistic, empirically oriented alternative to network-based social ontologies, thinking in terms of scenes sensitizes researchers to complex, fluid processes that are nonetheless anchored and made meaningful at the level of lived experience. This book was originally published as a special issue of Cultural Studies.
