**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Markets for Cybercrime Tools and Stolen Data** Lillian Ablon,Martin C. Libicki,Andrea A. Golay,2014-03-25 Criminal activities in cyberspace are increasingly facilitated by burgeoning black markets. This report characterizes these markets and how they have grown into their current state to provide insight into how their existence can harm the information security environment. Understanding these markets lays the groundwork for exploring options to minimize their potentially harmful influence.

Theory of World Security Ken Booth,2007-12-20 What is real? What can we know? How might we act? This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times. Arguing that the concept of security in world politics has long been imprisoned by conservative thinking, Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives. Booth suggests that human society globally is facing a set of converging historical crises. He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business-as-usual and for planning to reconstruct a more cosmopolitan future. Theory of World Security is a challenge both to well-established ways of thinking about security and alternative approaches within critical security studies.

*The Sixth Station* Linda Stasi,2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

*Return from the Dead* David Stuart Davies,2004 Beware, the Dead are coming back! This is a unique and fascinating collection of early mummy stories that helped to establish the chilling concept of the Dead returning to life as a potent sub-genre of horror fiction.The main feature on the mummy bill, 'The Jewel of the Seven Stars' by Bram Stoker, is generally regarded as his best work after Dracula. A weird mixture of adventure, the supernatural and science fiction is found in Jane Webb's 'The Mummy', a tale written in 1827 but set in 2126. 'Some Words with a Mummy' is by the great horror writer Edgar Allen Poe. Arthur Conan Doyle's 'The Ring of Thoth' is the classic mummy tale and was the basis for the 1932 movie 'The Mummy' starring Boris Karloff and, indeed most mummy films ever since. 'Lot 249', another Doyle chiller, completes this collection, which is guaranteed to entertain and possibly prompt a nightmare.

**TV Living** David Gauntlett,Annette Hill,2002-01-04 TV Living presents the findings of the BFI Audience Tracking Study in which 500 participants completed detailed questionnaire-diaries on their lives, their television watching, and the relationship between the two over a five year period. Gauntlett and Hill use this extensive data to explore some of the most fundamental questions in media and cultural studies, focusing on issues of gender, identity, the impact of new technologies, and life changes. Opening up new areas of debate, the study sheds new light on audiences and their responses to issues such as sex and violence on television. A unique study of contemporary tv audience behaviour and attitudes, TV Living offers a fascinating insight into the complex relationship between mass media and people's lives today.

**Digital Media and Democracy** Megan Boler,2010-08-13 Media scholars, artists, activists, and journalists discuss how the uses of the emerging “Social Web” redefine the public sphere and influence mainstream journalism. In an age of proliferating media and news sources, who has the power to define reality? When the dominant media declared the existence of WMDs in Iraq, did that make it a fact? Today, the “Social Web” (sometimes known as Web 2.0, groupware, or the participatory web)—epitomized by blogs, viral videos, and YouTube—creates new pathways for truths to emerge and makes possible new tactics for media activism. In Digital Media and Democracy, leading scholars

in media and communication studies, media activists, journalists, and artists explore the contradiction at the heart of the relationship between truth and power today: the fact that the radical democratization of knowledge and multiplication of sources and voices made possible by digital media coexists with the blatant falsification of information by political and corporate powers. The book maps a new digital media landscape that features citizen journalism, The Daily Show, blogging, and alternative media. The contributors discuss broad questions of media and politics, offer nuanced analyses of change in journalism, and undertake detailed examinations of the use of web-based media in shaping political and social movements. The chapters include not only essays by noted media scholars but also interviews with such journalists and media activists as Amy Goodman of Democracy Now!, Media Matters host Robert McChesney, and Hassan Ibrahim of Al Jazeera. Contributors and Interviewees Shaina Anand, Chris Atton, Megan Boler, Axel Bruns, Jodi Dean, Ron Deibert, Deepa Fernandes, Amy Goodman, Brian Holmes, Hassan Ibrahim, Geert Lovink, Nathalie Magnan, Robert McChesney, Graham Meikle, Susan Moeller, Alessandra Renzi, Ricardo Rosas, Trebor Scholz, D. Travers Scott, Rebecca Statzel

*Television and New Media Audiences* Ellen Seiter, 1998-12-17 Why is talk about television forbidden at certain schools? Why does a mother feel guilty about watching Star Trek in front of her four-year-old child? Why would retired men turn to daytime soap operas for entertainment? Cliches about television mask the complexity of our relationship to media technologies. Through case studies, the author explains what audience research tells us about the uses of technologies in the domestic sphere and the classroom, the relationship between gender and genre, and the varied interpretation of media technologies and media forms. *Television and New Media Audiences* reviews the most important research on television audiences and recommends the use of ethnographic, longitudinal methods for the study of media consumption and computer use at home as well as in the workplace. The book discusses reactions of audiences to many internationally known television programmes including The Flintstones, The Jetsons, Street Fighter, Mighty Morphin Power Rangers, X-Men, Sesame Street, Dallas, Star Trek, The Cosby Show, Teenage Mutant Ninja Turtles, National Geographic, etc.

**Glamour in Six Dimensions** Judith Brown, 2018-09-05 Glamour is an alluring but elusive concept. We most readily associate it with fashion, industrial design, and Hollywood of the Golden Age, and yet it also shaped the language and interests of high modernism. In *Glamour in Six Dimensions*, Judith Brown looks at the historical and aesthetic roots of glamour in the early decades of the twentieth century, arguing that glamour is the defining aesthetic of modernism. In the clean lines of modernism she finds the ideal conditions for glamour-blankness, polish, impenetrability, and the suspicion of emptiness behind it all. Brown focuses on several cultural products that she argues helped to shape glamour's meanings: the most significant perfume of the twentieth century, Chanel No. 5; the idea of the Jazz Age and its ubiquitous cigarette; the celebrity photograph; the staging of primitivism; and the invention of a shimmering plastic called cellophane. Alongside these artifacts, she takes up the development, refinement, and analysis of glamour in Anglo-American poetry, film, fiction, and drama of the period. *Glamour in Six Dimensions* thus asks its reader to see the proximity between the vernacular and elite cultures of modernism, and particularly how glamour was animated by artists working at the crossroads of the mundane and the extraordinary: Wallace Stevens, F. Scott Fitzgerald, Virginia Woolf, Josephine Baker, D. H. Lawrence, Gertrude Stein, Nella Larsen, and others.

Glamour Stephen Gundle, 2009-07-16 Glamour is one of the most tantalizing and bewitching aspects of contemporary culture - but also one of the most elusive. The aura of celebrity, the style of the fashion world, the vanity of the rich and beautiful, and the publicity-driven rites of café society are all imbued with its irresistible magnetism. But what exactly is glamour? Where does it come from? How old is it? And can anyone quite capture its magic? Stephen Gundle answers all these questions and more in this first ever history of the phenomenon, from Paris in the tumultuous final decades of the eighteenth century through to Hollywood, New York, and Monte Carlo in the twentieth and twenty-first centuries, from Napoleon to Marlene Dietrich and Marilyn Monroe, from Beau Brummell to Gianni Versace. Throughout, the book captures the excitement and sex appeal of glamour while exposing its mechanisms and exploring its sleazy and sometimes tragic underside. As Gundle shows, while glamour is exciting and magnetic, its promise is ultimately an illusion that can only ever be partially fulfilled.

**Don't Waste Your Cancer** John Piper, 2011-01-27 How are we as Christians called to respond when cancer invades our lives, whether our own bodies or those of our friends and family? On the eve of his own cancer surgery, John Piper writes about cancer as an opportunity to glorify God. With pastoral sensitivity, compassion, and strength, Piper gently but firmly acknowledges that we can indeed waste our cancer when we don't see how it is God's good plan for us and a hope-filled path for making much of Jesus. *Don't Waste Your Cancer* is for anyone touched by a life-threatening illness. It first appeared as an appendix in *Suffering and the Sovereignty of God*. Repackaged and republished, it will serve as a hope-giving resource for healthcare workers, pastors, counselors, and others caring for those with cancer and other serious illnesses. The booklets are also available in packs of ten.

**The Network Society** Darin Barney, 2013-05-20 In *The Network Society*, Darin Barney provides a compelling examination of the social, political and economic implications of network technologies and their application across a wide range of practices and institutions. Are we in the midst of a digital revolution? Have new information and communication technologies given birth to a new form of society, or do they reinforce and extend existing patterns and relationships? This book provides a clear and engaging discussion of these and other questions. Using a sophisticated model of the relationship between technology and society, Barney investigates both what has changed, and what has remained the same, in the age of the Internet. Among the issues discussed are debates concerning the emergence of a 'knowledge economy'; digital restructuring of employment and work; globalization and the status of the nation-state; the prospects of digital democracy; the digital divide; new social movements; and culture, community and identity in the age of new media. This book provides an accessible resource for a thoughtful engagement with life in the network society. It will be essential reading for students in sociology and media and communication studies. This will be a valuable textbook for undergraduate students of sociology and media and communication studies.

**When You Only See One Set of Footprints** Darlene Jackson, 2012-03-01 As I was called, like Abraham, to leave my father's house and follow Christ, my journey would take me and my children to many places which God has caused us to Triumph in Christ Jesus. I was told to share my story and write the things I've seen and heard and lived through so others can know they too can do the same when they put ALL of their Trust in the Holy God of Israel. *When You Only See One Set of Footprints* is like an open letter to all Living Epistle, for my life has seen everyday living and living for Christ. To give people hope no matter where you are, He can be there, also to show my children and others what Faith looks like despite what people think it ought to look like, to give people hope and encouragement to follow God to the end. This was also a walk for the destroying of Generational Curse so my children (Donelle, Nathifa, Monae, Dominique, Nakeya, Simone), and now my grandson (Nook, Nook), would not have to encounter because I have gone before them to destroy all curses in their path. To bring about transparency in this walk and to show We can come through all things through Christ who strengthens us, so may all be encouraged as well as inspired to continue in the faith and to fight the good fight of faith and know you fight not alone, for you too can see there were only one set of footprints. God Bless.

Covid-19: The Great Reset Thierry Malleret, Klaus Schwab, 2020-07-09 The Corona crisis and the Need for a Great Reset is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems,

and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset.Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

*American Glamour and the Evolution of Modern Architecture* Alice T. Friedman,2010 Alice Friedman argues that the aesthetics of mid-20th century modern architecture reflect an increasing fascination with 'glamour', a term used in those years to characterise objects, people, & experiences as luxurious, expressive & even magical.
