The Fingerprint U. S. Department Justice,2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.

Plants from Test Tubes Lydiane Kyte,1987 Acclaimed as the most practical guide to plant tissue culture, the book is now even better and introduces new developments in biotechnology, such as genetic engineering and cell culture.

Innocence Lost Carlton Stowers,2004-05-16 Undercover officer George Raffield's job was to pose as a student in the small town of Midlothian, Texas and infiltrate the high school drug ring. When Raffield's cover became suspect, word spread through a small circle of friends that the young officer would pay with his life. No one stopped it. On a rainy fall evening in 1987, Raffield was lured to an isolated field. Three bullets were fired-one unloaded into his skull. The baby-faced killer, Greg Knighten, stole eighteen dollars from Raffield's wallet, divided it among his two young accomplices, and calmly said, it's done. With chilling detail, Carlton Stowers illuminates a dark corner of America's heartland and the children who hide there. What he found was an alienated subculture of drug abuse, the occult, and an unfathomable teenage rage that exploded at point blank range on a shocking night of lost innocence...

Contemporary Photography and Theory Sally Miller,2020-05-26 Contemporary Photography and Theory offers an essential overview of some of the key critical debates in fine art photography today. Building on a foundational understanding of photography, it offers an in-depth discussion of five topic areas: identity, landscape and place, the politics of representation, psychoanalysis and the event. Written in an accessible style, it introduces the critical literature relevant to photography that has emerged over recent decades. Moving beyond seminal works by writers such as Walter Benjamin, Roland Barthes, and Susan Sontag, it enables readers to explore an extended canon of theorists including Jacques Lacan, Judith Butler and Giorgio Agamben. The book is illustrated throughout and analyses a range of works by established and emergent artists in order to show how these theoretical concepts are central to understanding contemporary photography. These 15 short essays encourage readers to apply critical thinking to both their own work and that of others. They are the perfect starting point for essays as well being of suitable length for assigned readings, making this the ideal resource for learning about contemporary photography and theory.

Ottoman Empire and Islamic Tradition Norman Itzkowitz,2008-03-26 This skillfully written text presents the full sweep of Ottoman history from its beginnings on the Byzantine frontier in about 1300, through its development as an empire, to its late eighteenth-century confrontation with a rapidly modernizing Europe. Itzkowitz delineates the fundamental institutions of the Ottoman state, the major divisions within the society, and the basic ideas on government and social structure. Throughout, Itzkowitz emphasizes the Ottomans' own conception of their historical experience, and in so doing penetrates the surface view provided by the insights of Western observers of the Ottoman world to the core of Ottoman existence.

Arrested Justice Beth E. Richie,2012-05-22 Black women in marginalized communities are uniquely at risk of battering, rape, sexual harassment, stalking and incest. Through the compelling stories of Black women who have been most affected by racism, persistent poverty, class inequality, limited access to support resources or institutions, Beth E. Richie shows that the threat of violence to Black women has never been more serious, demonstrating how conservative legal, social, political and economic policies have impacted activism in the U.S.-based movement to end violence against women. Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence. As a result, the extent of physical, sexual and other forms of violence in the lives of Black women, the various forms it takes, and the contexts within which it occurs are minimized—at best—and frequently ignored. Arrested Justice brings issues of sexuality, class, age, and criminalization into focus right alongside of questions of public policy and gender violence, resulting in a compelling critique, a passionate re-framing of stories, and a call to action for change.

How to Sleep Alone in a King-Size Bed Theo Pauline Nestor,2008-04-15 “I feel like I’ve joined an enormous club, something like the Veterans of Foreign Wars. We are weary with battle fatigue and sometimes even gripped by nostalgia for the good old, bad old days, but our numbers are large,” writes Theo Pauline Nestor in this wry, fiercely honest chronicle of life after divorce. Less than an hour after confronting her husband over his massive gambling losses, Theo banishes him from their home forever. With two young daughters to support and her life as a stay-at-home mother at an abrupt end, Nestor finds herself slipping from “middle-class grace” as she attends a court-ordered custody class, stumbles through job interviews, and—much to her surprise—falls in love once again. As Theo rebuilds her life and recovers her sense of self, she’s forced to confront her own family’s legacy of divorce. “I’m from a long line of stock market speculators, artists of unmarketable talents, and alcoholics,” writes Nestor. “The higher, harder road is not our road. We move, we divorce, we drink, or we disappear.” Nestor’s journey takes her deep into her family’s past, to a tiny village in Mexico, where she discovers the truth about how her sister ended up living in a convent there after their parents divorced in the early sixties. What she learns ultimately brings her closer to understanding her own divorce and its impact on her two daughters. “I knew from experience that for children divorce means half the world is constantly eclipsed. When you’re with one parent, the other must always slip out of view,” Nestor writes. Funny, openhearted, and brave, *How to Sleep Alone in a King-Size Bed* will speak to anyone who has passed through the halls of divorce court or risked tenderness after loss. It marks the debut of an enchanting, deeply truthful voice.

A Room with a View, Where Angels Fear to Tread E.M. Forster,2011-10-04 E. M. Forster’s beloved Italian novels, now in a single hardcover volume. Forster’s most memorably romantic exploration of the liberating effects of Italy on the English, *A Room with a View* follows the carefully chaperoned Lucy Honeychurch to Florence. There she meets the unconventional George Emerson and finds herself inspired by his refreshingly free spirit— which puts her in mind of “a room with a view”—to escape the claustrophobic snobbery of her guardians back in England. The wicked tragicomedy *Where Angels Fear to Tread* chronicles a young English widow’s trip to Italy and its messy aftermath. When Lilia Herriton impulsively marries a penniless Italian and then dies in childbirth, her first husband’s family sets out to rescue the child from his “uncivilized” surroundings. But in ways that they can’t possibly imagine, their narrow preconceptions will be upended by the rich and varied charms of Forster’s cherished Italy.

Big Game Hunting and Collecting In East Africa, 1903-1926 Kalman Kittenberger, 1989-09-15 An intrepid, humorous Hungarian hunter-collector, Kalman Kittenberger offers one of the most heartstopping, charming, and funny accounts of adventure in the Kenya Colony ever penned--a diamond of reality in a field full of sensationalist writing. Scream at the Sky Carlton Stowers, 2004-08-16 Carlton Stowers, the two-time Edgar Award winner and New York Times bestselling master of true crime, is back. *Scream at the Sky* is his masterful chronicle of one man's murderous career, and another man's sworn promise to deliver justice and closure to the people of Texas. Wichita Falls, Texas, was home to a hundred thousand people in the last months of 1984. That winter was harsh, as the normally arid Texas plains gave way to ominous dark clouds that delivered freezing sleet and rain. But a much darker force was looming, and soon the quiet town was besieged by a faceless evil--and its young women were dying because of it. In the next seventeen months five women were found brutally beaten and murdered, their young lives cut short and their bodies left haphazardly where they fell. In the years that followed, grieving families fruitlessly sought answers. A haunted district attorney chased every lead only to meet one dead end after another. And the killer's identity remained unknown to the ravaged townspeople. Then, fourteen years after the killing started, an investigator who had been assigned the cold case brought to it a renewed dedication, and came upon a chance discovery. Searching through the yellowed case files, he caught a minor detail that suggested one more suspect. Faryion Wardrip was an unhappily married family man who drowned his anger in substance abuse and violent fantasies. But for five unfortunate families, the drugs sometimes took over and the fantasies became realities. Investigator John Little followed his instincts and tirelessly ruled out every possibility until he was left with but one conclusion: Faryion Wardrip was the serial killer who had eluded his office for so long. How he tracked down Wardrip and used the legal system to beat the killer at his own game of deception is a remarkable story of justice served.

Tastes Like War Grace M. Cho, 2021-05-18 Finalist for the 2021 National Book Award for Nonfiction Winner of the 2022 Asian/Pacific American Award in Literature A TIME and NPR Best Book of the Year in 2021 This evocative memoir of food and family history is somehow both mouthwatering and heartbreaking... [and] a potent personal history (Shelf Awareness). Grace M. Cho grew up as the daughter of a white American merchant marine and the Korean bar hostess he met abroad. They were one of few immigrants in a xenophobic small town during the Cold War, where identity was politicized by everyday details—language, cultural references, memories, and food. When Grace was fifteen, her dynamic mother experienced the onset of schizophrenia, a condition that would continue and evolve for the rest of her life. Part food memoir, part sociological investigation, *Tastes Like War* is a hybrid text about a daughter's search through intimate and global history for the roots of her mother's schizophrenia. In her mother's final years, Grace learned to cook dishes from her parent's childhood in order to invite the past into the present, and to hold space for her mother's multiple voices at the table. And through careful listening over these shared meals, Grace discovered not only the things that broke the brilliant, complicated woman who raised her—but also the things that kept her alive. “An exquisite commemoration and a potent reclamation.” —Booklist (starred review) “A wrenching, powerful account of the long-term effects of the immigrant experience.” —Kirkus Reviews

Affect and the Making of the Schoolgirl Melissa Joy Wolfe, 2021-09-20 By exploring the material-discursive production of gender norms in Australian secondary schools, this book offers a novel feminist posthuman new materialist perspective on how schoolgirls are pre-determined within educational space and place. The text ultimately illustrates how gender and race inequity is reproduced through presumptive thinking and a failure to recognize student potential. *Affect and the Making of the Schoolgirl* maps affective accounts of students' everyday experiences in school spaces. Student negotiations with prescriptive processes of subject participation and subject selection are explored to illustrate how inequities are systematically reproduced. Chapters also offer an examination of STEM subject fields as entitled male space. Engaging theoretically with concepts from performative feminist new materialism and affect theory, the text highlights filmic semblances created as part of an onto-epistemological project, and calls for alternative educational encounters which affirmatively acknowledge difference and promote non-binary thinking. This text will benefit postgraduate researchers, academics, and scholars with an interest in gender and sexuality education, teacher education, STEM education, gender inequality, intersectionality, and the sociology of education. Those interested in gender studies, affect theory and feminist theory, as well as educational policy and politics more broadly will also benefit from this book.

American Fire: Love, Arson, and Life in a Vanishing Land Monica Hesse, 2017-07-11 A New York Times Notable Book of the Year A Washington Post Notable Book of the Year One of Amazon's 20 Best Books of the Year Named one of the Best Books of the Year by BuzzFeed, Bustle, NPR, NYLON, and Thrillist Finalist for the Goodreads Book Award (Nonfiction) Finalist for the Edgar Award (Best Fact Crime) A Book of the Month Club Selection A New York Times Book Review Editors' Choice Selection “A brisk, captivating and expertly crafted reconstruction of a community living through a time of fear.... Masterful.” —Washington Post The arsons started on a cold November midnight and didn't stop for months. Night after night, the people of Accomack County waited to see which building would burn down next, regarding each other at first with compassion, and later suspicion. Vigilante groups sprang up, patrolling the rural Virginia coast with cameras and camouflage. Volunteer firefighters slept at their stations. The arsonist seemed to target abandoned buildings, but local police were stretched too thin to surveil them all. Accomack was desolate—there were hundreds of abandoned buildings. And by the dozen they were burning. “One of the year's best and most unusual true-crime books” (Christian Science Monitor), *American Fire* brings to vivid life the reeling county of Accomack. “Ace reporter” (Entertainment Weekly) Monica Hesse spent years investigating the story, emerging with breathtaking portraits of the arsonists—troubled addict Charlie Smith and his girlfriend, Tonya Bundick. Tracing the shift in their relationship from true love to crime spree, Hesse also conjures the once-thriving coastal community, decimated by a punishing economy and increasingly suspicious of their neighbors as the culprits remained at large. Weaving the story into the history of arson in the United States, the critically acclaimed *American Fire* re-creates the anguished nights this quiet county lit up in flames, evoking a microcosm of rural

America—a land half-gutted before the fires began.

Exhibiting Atrocity Amy Sodaro,2018-01-23 Today, nearly any group or nation with violence in its past has constructed or is planning a memorial museum as a mechanism for confronting past trauma, often together with truth commissions, trials, and/or other symbolic or material reparations. Exhibiting Atrocity documents the emergence of the memorial museum as a new cultural form of commemoration, and analyzes its use in efforts to come to terms with past political violence and to promote democracy and human rights. Through a global comparative approach, Amy Sodaro uses in-depth case studies of five exemplary memorial museums that commemorate a range of violent pasts and allow for a chronological and global examination of the trend: the U.S. Holocaust Memorial Museum in Washington, DC; the House of Terror in Budapest, Hungary; the Kigali Genocide Memorial Centre in Rwanda; the Museum of Memory and Human Rights in Santiago, Chile; and the National September 11 Memorial Museum in New York. Together, these case studies illustrate the historical emergence and global spread of the memorial museum and show how this new cultural form of commemoration is intended to be used in contemporary societies around the world.
