**Smart Systems and IoT: Innovations in Computing** Arun K. Somani,Rajveer Singh Shekhawat,Ankit Mundra,Sumit Srivastava,Vivek Kumar Verma,2020-10-27 The book features original papers from the 2nd International Conference on Smart IoT Systems: Innovations and Computing (SSIC 2019), presenting scientific work related to smart solution concepts. It discusses computational collective intelligence, which includes interactions between smart devices, smart environments and smart interactions, as well as information technology support for such areas. It also describes how to successfully approach various government organizations for funding for business and the humanitarian technology development projects. Thanks to the high-quality content and the broad range of the topics covered, the book appeals to researchers pursuing advanced studies.

Advances in Predictive Models and Methodologies for Numerically Efficient Linear and Nonlinear Analysis of Composites Marco Petrolo,2019 This book gathers contributions addressing issues related to the analysis of composite structures, whose most relevant common thread is augmented numerical efficiency, which is more accurate for given computational costs than existing methods and methodologies. It first presents structural theories to deal with the anisotropy of composites and to embed multifield and nonlinear effects to extend design capabilities and provide methods of augmenting the fidelity of structural theories and lowering computational costs, including the finite element method. The second part of the book focuses on damage analysis; the multiscale and multicomponent nature of composites leads to extremely complex failure mechanisms, and predictive tools require physics-based models to reduce the need for fitting and tuning based on costly and lengthy experiments, and to lower computational costs; furthermore the correct monitoring of in-service damage is decisive in the context of damage tolerance. The third part then presents recent advances in embedding characterization and manufacturing effects in virtual testing. The book summarizes the outcomes of the FULLCOMP (FULLy integrated analysis, design, manufacturing, and health-monitoring of COMposite structures) research project.

Sensitivity Analysis in Practice Andrea Saltelli,Stefano Tarantola,Francesca Campolongo,Marco Ratto,2004-07-16 Sensitivity analysis should be considered a pre-requisite for statistical model building in any scientific discipline where modelling takes place. For a non-expert, choosing the method of analysis for their model is complex, and depends on a number of factors. This book guides the non-expert through their problem in order to enable them to choose and apply the most appropriate method. It offers a review of the state-of-the-art in sensitivity analysis, and is suitable for a wide range of practitioners. It is focussed on the use of SIMLAB - a widely distributed freely-available sensitivity analysis software package developed by the authors - for solving problems in sensitivity analysis of statistical models. Other key features: Provides an accessible overview of the current most widely used methods for sensitivity analysis. Opens with a detailed worked example to explain the motivation behind the book. Includes a range of examples to help illustrate the concepts discussed. Focuses on implementation of the methods in the software SIMLAB - a freely-available sensitivity analysis software package developed by the authors. Contains a large number of references to sources for further reading. Authored by the leading authorities on sensitivity analysis.

**Analytical Mechanics of Gears** Earle Buckingham,1988-01-01 This volume provides a solid foundation for logical gear design practices and data. Topics include an analysis of conjugate gear-tooth action, nature of the contact, and resulting gear-tooth profiles of several types of gears, plus gear teeth in action. Indispensable guide for engineers concerned with tooth geometry, manufacturing accuracies, and general design. 1949 edition.

**Introduction to Data Compression** Khalid Sayood,2006 Khalid Sayood provides an extensive introduction to the theory underlying today's compression techniques with detailed instruction for their applications using several examples to explain the concepts. Encompassing the entire field of data compression Introduction to Data Compression, includes lossless and lossy compression, Huffman coding, arithmetic coding, dictionary techniques, context based compression, scalar and vector quantization. Khalid Sayood provides a working knowledge of data compression, giving the reader the tools to develop a complete and concise compression package upon completion of his book.--BOOK JACKET.

**Sensitivity & Uncertainty Analysis, Volume 1** Dan G. Cacuci,2003-05-28 As computer-assisted modeling and analysis of physical processes have continued to grow and diversify, sensitivity and uncertainty analyses have become indispensable investigative scientific tools in their own right. While most techniques used for these analyses are well documented, there has yet to appear a systematic treatment of the method based on adjoint operators, which is applicable to a much wider variety of problems than methods traditionally used in control theory. This book fills that gap, focusing on the mathematical underpinnings of the Adjoint Sensitivity Analysis Procedure (ASAP) and the use of deterministically obtained sensitivities for subsequent uncertainty analysis.

**Whn: When New York City Went Country** Ed Salamon,2013-02-01 In 1973, conventional industry wisdom was that a country music station could not be successful in the New York market. WHN ignored that wisdom and announced that it was switching from a middle-of-the-road format to country, billing itself as Easy Lovin' Country. The actual changeover took place at 5:45 am on February 26th when Jack Spector, calling himself The Kosher Cowboy From Coney Island, introduced the George Jones classic The Race Is On. And the rest is history.

**Kaifi and I** Shaukat Kaifi,2012-06-25 From the heart of a well-known family of Hyderabad to life in a single room with the barest of necessities, Shaukat Kaifi's memoir of her life with the renowned poet Kaifi Azmi speaks of love and commitment. A marriage of over a half a century, a life steeped in poetry and progressive politics, continuing involvement with the Indian People's Theatre Association, the Progressive Writers Association, Prithvi Theatre... all of these and more inform this beautifully told tale of love. Shaukat Kaifi's writing details life in a communist commune, a long career in theatre and film and a life spent bringing up her two children, cinematographer Baba Azmi and actor Shabana Azmi. Nasreen Rehman's deft and fluent translation brings this luminous memoir alive with warmth and empathy. To say that this is a lovely book would be an understatement. It is an enchanting recollection of the life of a hugely talented and sensitive human being, shared with a great poet. -- Amartya Sen. Published by Zubaan.

**The Japan Year Book** Takenobu Yoshitarō,1930 Includes the sections, who's who in japan, business directory, etc.

**Revelation Part 1** Arthur Jicha, Jr.,2022-08-07 I discovered so many things at this time. I always thought Father had neutered his angels before throwing them into the Prison Hades. He told me he did not; they are at full power. I was shocked! Akibeel came into the connection. He would not talk to me, then the Knowing kicked in. His expertise was being able to separate the human spiritual body from the human physical body. They all acted like I was in big trouble because Akibeel was here. I welcomed the fact that he was here so I could beat him to a pulp with one of the first tools Father had given me. He ran away with his tail between his legs. The talking heads made their debut. They are 250 ft giants that can only get their heads through to our reality, because the power modules under them lack the power needed for their bodies to get through the gateway. I ventured inside my memories and I found a gateway, which seems to be an entry-point for the Negative Zone. It is more than fascinating. Father agreed to

answer questions about the PIT. It is a great interview with Father. Also I discovered that the Shroud effect around my house is actually Hades. It was a piece of their environment brought there by the fallen angels. I couldn't believe it. I didn't worry because Father was there. It was a matter of either sending me to Hades with them or bringing Hades to me to write about it. After thinking we had sent all of the angels to the Abyss, many more started to show up. We are talking in the Millions. Yippee! In this book we also continue our analysis of their tones and pulsations. With this book, we have many captioned pictures. Father programmed my security cameras with the ability to record the spiritual reality and our physical reality either separate or at the same time. It took him 4 hours to program them. They are now genius cameras that know when to record the realities at the same time or separately.

Trial by Silence Perumal Murugan,2018 ONE AMAZING STORY. TWO DIFFERENT ENDINGS. At the end of Perumal Murugan's trailblazing novel One Part Woman, readers are left on a cliffhanger as Kali and Ponna's intense love for each other is torn to shreds. What is going to happen next to this beloved couple? In Trial by Silence-one of two inventive sequels that picks up the story right where One Part Woman ends-Kali is determined to punish Ponna for what he believes is an absolute betrayal. But Ponna is equally upset at being forced to atone for something that was not her fault. In the wake of the temple festival, both must now confront harsh new uncertainties in their once idyllic life together. In Murugan's magical hands, this story reaches a surprising and dramatic conclusion.

Snow/cloud Discrimination Francis R. Valovcin,1976 The main objective of this investigation was to evaluate the usefulness of the data from the S192 Multispectral Scanner aboard Skylab in snow-cloud discrimination. From the available S192 screening films and digital tape data, the reflectance characteristics of snow, ice, and water clouds in different spectral bands from the visible into the near infrared spectral region can be determined. In the visible part of the spectrum, snow, ice, and water clouds appear white. In the near infrared, Band 11 (1.55 to 1.75 micrometers), water clouds are white, ice clouds are gray and snow is black. The ratio of the radiance values in Band 6 (0.68 to 0.76 micrometers to Band 11 (1.55 to 1.75 micrometers appears to provide a method for discriminating between snow cover, ice, and water clouds. (Author).

**My Father's Garden** Hansda Sowvendra Shekhar,2018-12-20 Spanning half a life, My Father's Garden tells the story of a young doctor--the unnamed narrator--as he negotiates love and sexuality, his need for companionship, and the burdens of memory and familial expectation. The opening section, 'Lover', finds him studying medicine in Jamshedpur. At college, he discovers an all-consuming passion for Samir, a junior, who possesses his body, mind and heart. Yet, on their last morning together, when he asks Samir to kiss him goodbye, his lover tells him, 'A kiss is only for someone special.' In 'Friend', the young doctor, escaping heartbreak, finds relief in Pakur where he strikes up an unusual friendship with Bada Babu, the head clerk of the hospital where he is posted. In Bada Babu's house, they indulge a shared love for drink, delicious food and convivial company. But when government bulldozers arrive to tear down the neighbourhood, and Bada Babu's house, the young doctor uncovers a sordid tale of apathy and exploitation--and a side to his new friend that leaves him disillusioned. And in 'Father', unable, ultimately, to flee the pain, the young doctor takes refuge in his parents' home in Ghatsila. As he heals, he reflects on his father--once a vital man who had phenomenal success at work and in Adivasi politics, then an equally precipitous downfall--and wonders if his obsessive gardening has anything to do with the choices his son has made. Written with deep empathy and searing emotional intensity, and in the clear, unaffected prose that is the hallmark of Hansda Sowvendra Shekhar's style, My Father's Garden marks a major talent of Indian fiction writing at the top of his form.

**A Lonely Harvest** Perumal Murugan,2018 ONE AMAZING STORY. TWO DIFFERENT ENDINGS. At the end of Perumal Murugan's trailblazing novel One Part Woman, readers are left on a cliffhanger as Kali and Ponna's intense love for each other is torn to shreds. What is going to happen next to this beloved couple? In A Lonely Harvest-one of two inventive sequels that pick up the story right where One Part Woman ends-Ponna returns from the temple festival to find that Kali has killed himself in despair. Devastated that he would punish her so cruelly, but constantly haunted by memories of the happiness she once shared with Kali, Ponna must now learn to face the world alone. With poignancy and compassion, Murugan weaves a powerful tale of female solidarity and second chances.
