**Memorandum** - ,1968

**Treasury Bulletin** ,1955

**Public Engagement and Education** Katherine M. Erdman,2019-02-18 The world's collective archaeological heritage is threatened by war, development, poverty, climate change, and ignorance. To protect our collective past, archaeologists must involve the general public through interpersonal experiences that develop an interest in the field at a young age and foster that interest throughout a person's life. Contributors to this volume share effective approaches for engaging and educating learners of all ages about archaeology and how one can encourage them to become stewards of the past. They offer applied examples that are not bound to specific geographies or cultures, but rather, are approaches that can be implemented almost anywhere.

**Memorandum** Rand Corporation,1969

Research Memorandum ,1947

**Changing Perceptions of the Public Sphere** Christian J. Emden,David Midgley,2012-07-20 Initially propounded by the philosopher Jürgen Habermas in 1962 in order to describe the realm of social discourse between the state on one hand, and the private sphere of the market and the family on the other, the concept of a bourgeois public sphere quickly became a central point of reference in the humanities and social sciences. This volume reassesses the validity and reach of Habermas's concept beyond political theory by exploring concrete literary and cultural manifestations in early modern and modern Europe. The

contributors ask whether, and in what forms, a social formation that rightfully can be called the public sphere really existed at particular historical junctures, and consider the senses in which the public sphere should rather be replaced by a multitude of interacting cultural and social publics. This volume offers insights into the current status of the public sphere within the disciplinary formation of the humanities and social sciences at the beginning of the twenty-first century.
