Media Law in Ireland Eoin Carolan,Ailbhe O'Neill,2019-06-05 From fake news to foreign affairs, the media continues to be one of the dominating forces of modern life. Now in its second edition, Media Law in Ireland provides a comprehensive overview of one of the most dynamic and rapidly changing areas of the law. The way in which people consume media has changed and developed immensely in recent years. New platforms, and new ways of creating and consuming content are revolutionising the way information is spread around the world. With each new platform comes a new set of challenges and complexities, as they break away from the traditional media model. Many of the cases developing in these areas have been high-profile, divisive, and controversial, from issues surrounding freedom of expression to the challenges of privacy in a digital age. This book will throw light on the formidable legal complexities involved in the new media in a clear and accessible manner. This new edition covers many of the developments in the area in the eight years since it was originally published. Among the developments covered are: the Digital Switchover, the adoption of the EU electronic communications reform package, and the Consumer and Competition Protection Act 2014. This book will be ideal for solicitors and barristers who practice in the area of media law, as well as postgraduate students, and media professionals.

Eight Centuries of Reports: or, eight hundred cases solemnly adjudged in the Exchequer-Chamber, or upon writs of error. Publish'd originally in French and Latin by Judge Jenkins. Ethical Judgments Stephen W. Smith,John Coggon,Clark Hobson,Richard Huxtable,Sheelagh McGuinness,José Miola,Mary Neal,2017-01-12 This edited collection is designed to explore the ethical nature of judicial decision-making, particularly relating to cases in the health/medical sphere, where judges are often called upon to issue rulings on questions containing an explicit ethical component. However, judges do not receive any specific training in ethical decision-making, and often disown any place for ethics in their decision-making. Consequently, decisions made by judges do not present consistent or robust ethical theory, even when cases appear to rely on moral claims. The project explores this dichotomy by imagining a world in which decisions by judges have to be ethically as well as legally valid. Nine specific cases are reinterpreted in light of that requirement by leading academics in the fields of

medical law and bioethics. Two judgments are written in each case, allowing for different views to be presented. Two commentaries - one ethical and one legal - then explore the ramifications of the ethical judgments and provide an opportunity to explore the two judgments from additional ethical and legal perspectives. These four different approaches to each judgment allow for a rich and varied critique of the decisions and ethical theories and issues at play in each case.

Concise Encyclopedia of Biostatistics for Medical Professionals Abhaya Indrayan, Martin P. Holt, 2016-11-25 Concise Encyclopedia of Biostatistics for Medical Professionals focuses on conceptual knowledge and practical advice rather than mathematical details, enhancing its usefulness as a reference for medical professionals. The book defines and describes nearly 1000 commonly and not so commonly used biostatistical terms and methods arranged in alphabetical order. These range from simple terms, such as mean and median to advanced terms such as multilevel models and generalized estimating equations. Synonyms or alternative phrases for each topic covered are listed with a reference to the topic.

Contemporary Issues of the Semiotics of Law Anne Wagner, Tracey Summerfield, Farid Samir Benavides Vanegas, 2005-09-20 The law is a symbolic construction and therefore rests on a variety of undertakings. What gives law its meaning is, for some, ideology, for others, the welfare of the majority. However, what is manifest is a conception of the law as a material structure that carries symbols of everyday life. The analyses that are made in the law and semiotics movements show that the law's symbolism cannot be understood by reference only to itself, a strictly legal meaning. It is a symbol that conveys life, a symbol that in itself is contaminated with life, politics, morality and so on. Law and Semiotics is an obvious meeting point between traditions, because it is the place where all the discussions about the law can find a common language. This is a collection of different papers where the institution of the law is investigated, in combination with, and as part of, a multiplicity of sign systems. Firstly, law can be understood as part of a global system of meaning (Part I) ; and, secondly, that despite the homogenising threat of globalisation, the play of legal meaning retains a socio-historical specificity (Part II). The global issues of human migration, human rights, colonisation and transnational power are played out in local spaces, in the public discourses through which they are given localised representation, in moments of activism, and as a tool of subversion. The law is a rhetorical device which at once constitutes these global and local truths but which is also constituted by them.

Feminist, Queer, Crip Alison Kafer, 2013-05-16 In *Feminist, Queer, Crip* Alison Kafer imagines a different future for disability and disabled bodies. Challenging the ways in which ideas about the future and time have been deployed in the service of compulsory able-bodiedness and able-mindedness, Kafer rejects the idea of disability as a pre-determined limit. She juxtaposes theories, movements, and identities such as environmental justice, reproductive justice, cyborg theory, transgender politics, and disability that are typically discussed in isolation and envisions new possibilities for crip futures and feminist/queer/crip alliances. This bold book goes against the

grain of normalization and promotes a political framework for a more just world.
