*The Venice Adriana* Ethan Mordden, 1999 Greek-American opera singer Adriana Grafanas is the most famous opera singer of her time and her scandals, temperament, and cancellations were the stuff of international headlines. Now, in her early 60s, her voice is in shreds and she is near retirement. Sent to Venice to pull together her autobiography, American Mark Trigger is drawn into the compelling world of Adriana and of Venice itself. Trying to uncover the truth about Adriana's life, Mark instead discovers his own passions--men and Adriana's music. Bold, sensual, and evocative of a forgotten time and place, *The Venice Adriana* is Ethan Mordden at his finest.

*Handbook of Science Communication* Anthony Wilson, 1998-01-01 Addressing the lack of a specific book on core communication/presentation skills, the *Handbook of Science Communication* is written as a guide for students to speak and write effectively and as a reference for scientists who need to communicate their work effectively to each other and to the wider public. The book considers how the public understanding of science has changed with time and clearly explains how important the art of communication is for the effective communication of ideas. It continues with guidance on literature searches and the use of information sources, from the library to the live interviewee.
