Guerrilla Internet Matt Sayer, 2014-03-02 'How careful are you with what you say in a phone call? In a text message? Are you strict enough to never reveal personal information in an email, or on Facebook? Most people aren't.' Charlie, a soon-to-be unemployed software tester struggling through remission from depression and anxiety, is about to discover just how lethal a weapon information can be in the wrong hands. When one of his colleagues is murdered for the sake of stealing his company's innocuous in-development phone app, his life is upended and shaken like one of James Bond's martinis. With the aid of Mel, a technologically illiterate but worldly-wise security guard, Charlie must conquer his inhibitions and venture outside his cloistered comfort zone in order to prevent a cyberterrorist conspiracy so devastating it threatens the very future of the internet itself... A technological thriller set in modern times, *Guerrilla Internet* tackles the themes of privacy, security, and freedom of expression in the age of a constantly connected society. A tale of subterfuge and doublespeak, of plots within plots, where laws and morals clash to decide the meaning of freedom in an always-online world.

**A Collection of Questions and Problems in Physics** Lev Aronovich Sena, 1988  
Broken Bowels Jay Versluis, 2018-05-03 I was diagnosed with colon cancer when I was 43, in the summer of 2015. That's young for a cancer patient. The symptoms were weird and were not what is commonly associated with colon cancer. After major surgery in early 2016, the plan was to get me back on my feet within 6 months. Sadly, the common treatment method of chemotherapy did not work in my case. Turns out I have some genetic defects that lead to an aggressive form of uber nasty cancer, rendering most conventional treatment options useless. As a result, my hospital decided to turn me away, knowing they had no idea how to help me going forward. Seemingly left to die with no further treatment options, the power of the universe put me in touch with a crack team of doctors at Mount Sinai Hospital in Miami Beach. These people were not so easy to give up on me just yet. They suggested immunotherapy, the same treatment that miraculously cured Jimmy Carter. And it worked wonders! In only two months I went from a sleep deprived wreck, living with constant pain, unable to walk without a wheelchair or a stick, to cycling 10 miles a day. And all that without major side effects. If that's not a miracle then I don't know what is! BROKEN BOWELS is my personal account of these horrific yet truly amazing years I have endured. I've had countless chemotherapy and radiation treatments and survived terrible side effects. I've had 6 surgeries, I've had a colostomy for almost two years and an ileostomy for three months. I've lived without solid food for nearly a year, and for many months I've endured every type of catheter known to man, until I very nearly lost my whole bladder. My doctors call me a Super Survivor. supersurvivor.tv
