Fly Fishing the Greater Yellowstone Backcountry Bruce Staples,2017-12-01 Yellowstone National Park is one of the most crowded parks in the country, and for good reason: breathtaking scenery, amazing wildlife, and for anglers, great fishing. Yet, even a short hike from the road or trailhead into the backcountry of the park and the surrounding area can put anglers into even better fishing, often in solitude. This guidebook focuses on backcountry fishing opportunities in Yellowstone Park and surrounding areas in Wyoming, Montana, and Idaho (Greater Yellowstone Area). In addition to full color photographs of the destinations, the author includes essential information for each stream or lake, including maps and written directions, flies, gear, and timing. Angling Days Robert DeMott,2016-06-28 "From the very first, it seems, fishing was a respite and a therapy along with all of its other potentially redemptive qualities." —Robert DeMott Spanning more than forty-five years, Angling Days is a collection of Robert DeMott's numerous journal entries, each a small essay in itself, jotted down during the placid moments of fishing in and along the streams and rivers of North America. Through his journaling, DeMott carries on the angling tradition of channeling the tranquility of fly fishing into creative endeavors, whether by painting, sketching, fly tying, or writing. For him, it was writing—something he did whenever he could, whether in the midst of fishing or during a break away from the water. Angling Days is a lifetime of work, a chronicle of what it is to be an angler seeking the most pristine waters and the smartest fish. It is a collection of entries and musings in the vein of DeMott's literary hero, Henry David Thoreau, and promises to shine a new light on the art and joy of fly fishing.

Casting Onward Steve Ramirez,2022-05-01 In writing this book, author, naturalist, and educator Steve Ramirez traveled thousands of miles by plane, motor vehicle, boat, and foot. Each chapter includes his fishing with a notable person in the worlds of fishing and conservation. His fishing partners in this book include Bob White, Chris Wood, Kirk Deeter (and many other leaders within Trout Unlimited), Ted Williams of The Native Fish Coalition, Matthew Miller, and John Karges of The Nature Conservancy, and many more. In the course of this journey, Ramirez explores and fishes mountain streams, alpine lakes, National Wild and Scenic Rivers, desert canyons, brackish water estuaries, and the rolling ocean off the coast of Cape Cod. About half of this book was written while traveling through the COVID-19 pandemic and it touches on the lessons that COVID can teach us about nature and human nature. In Casting Onward, the author expands beyond the geographical scope of Casting Forward by fishing for native fish within their original habitats across American. Each story is told in part through the eyes of the people who have lived alongside and come to love, these waters and fish. Woven throughout these adventures are the stories of the people he meets and befriends while pursuing a mutual love of nature and the best of human nature, as the first criterion for finding common ground. This is a hopeful story, in an all-too-often seemingly hopeless time. It is a story of fishing and friendship. It is a story of humanity's impact on nature, and nature's impact on humanity.

John Gierach's quest takes us from his quiet home water (an ordinary, run-of-the-mill trout stream where fly-fishing can be a casual affair) to Utah's famous Green River, and to unknown creeks throughout the Western states and Canada. We're introduced to a lively group of fishing buddies, some local experts and even an ex-girlfriend, along the
