History of the Towns of New Milford and Bridgewater, Connecticut, 1703-1882 Samuel Orcutt,1882

The Women's Army Corps, 1945-1978 Bettie J. Morden,2011-10-07 After years out of print, this new and redesigned book brings back the best and most complete history of the Women's Army Corps. Loaded with history, tables, charts, statistics, photos, personalities, and many useful appendices (including a history of WAC uniforms), The Women's Army Corps, 1945-1978 is must reading for anyone who served those years in the Army as well as for those who want a complete history of the modern-day military. Author Bettie Morden served from 1942-1972 and she used her experience and access to people and records to compile the definitive reference work. Col. Morden is a graduate of the WAC Officers' Advanced Course (1962); Command and General Staff College (1964); and the Army Management School (1965). She has been awarded the Distinguished Service Medal, the Legion of Merit, the Joint Service Commendation Medal, and the Army Commendation Medal with Oak Leaf Cluster.

Environmental Law in Singapore Lye Lin-Heng,2022-10-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to legislation and practice concerning the environment in Singapore. A general introduction covers geographic considerations, political, social and cultural aspects of environmental study, the sources and principles of environmental law, environmental legislation, and the role of public authorities. The main body of the book deals first with laws aimed directly at protecting the environment from pollution in specific areas such as air, water, waste, soil, noise, and radiation. Then, a section on nature and conservation management covers protection of natural and cultural resources such as monuments, landscapes, parks and reserves, wildlife, agriculture, forests, fish, subsoil, and minerals. Further treatment includes the application of zoning and land-use planning, rules on liability, and administrative and judicial remedies to environmental issues. There is also an analysis of the impact of international and regional legislation and treaties on environmental regulation. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for environmental lawyers handling cases affecting Singapore. Academics and researchers, as well as business investors and the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative environmental law and policy.

The History of Cyclodextrins Grégorio Crini,Sophie Fourmentin,Eric Lichtfouse,2020-09-29 This book presents the historical development of Cyclodextrins by scientists who have made outstanding contribution to the field. Cyclodextrins are safe, cage-like molecules that have found major applications in many industrial sectors such as medicine, food, agriculture, environment and chemistry.

Microwave Engineering David M. Pozar,2011-11-22 Pozar's new edition of Microwave Engineering includes more material on active circuits, noise, nonlinear effects, and wireless systems. Chapters on noise and nonlinear distortion, and active devices have been added along with the coverage of noise and more material on intermodulation distortion and related nonlinear effects. On active devices, there's more updated material on bipolar junction and field effect transistors. New and updated material on wireless communications systems, including link budget, link margin, digital modulation methods, and bit error rates is also part of the new edition. Other new material includes a section on transients on transmission lines, the theory of power waves, a discussion of higher order modes and frequency effects for microstrip line, and a discussion of how to determine unloaded.

Essentials of Paleomagnetism Lisa Tauxe,2010-03-19 This book by Lisa Tauxe and others is a marvelous tool for education and research in Paleomagnetism. Many students in the U.S. and around the world will welcome this publication, which was previously only available via the Internet. Professor Tauxe has performed a service for teaching and research that is utterly unique.—Neil D. Opdyke, University of Florida

How Tobacco Smoke Causes Disease ,2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Guadalcanal John Miller, Jr.,2015-07-11 In publishing the history of combat operations the Department of the Army has three objectives. The first is to provide the Army itself with an accurate and timely account of its varied activities in directing, organizing, and employing its forces for the conduct of war-an account which will be available to the service schools and to individual members of the Armed Services who wish to extend their professional reading. The second objective is to offer the thoughtful citizen material for a better understanding of the basic problems of war and the manner in which these problems were met, thus augmenting his understanding of national security. The third objective is to accord a well-earned recognition to the devoted work and grim sacrifices of those who served. The successes of the South Pacific Force, wrote Admiral Halsey in 1944, were not the achievements of separate services or individuals but the result of whole-hearted subordination of self-interest by all in order that one successful 'fighting team' could be created.* The history of any South Pacific campaign must deal with this fighting team, with all United States and Allied services. The victory on Guadalcanal can be understood only by an appreciation of the contribution of each service. No one service won the battle. The most decisive engagement of the campaign was the air and naval Battle of Guadalcanal in mid-November 1942, an engagement in which neither Army nor Marine Corps ground troops took any direct part. This volume attempts to show the contribution of all services to the first victory on the long road to Tokyo.

Contemporary Criminal Procedure Larry E. Holtz,2004 Contains examples of laws and court cases in many areas including Miranda, drug possession, abandonment, etc.

Microeconometrics A. Colin Cameron,Pravin K. Trivedi,2005-05-09 This book provides the most comprehensive treatment to date of microeconometrics, the analysis of individual-level data on the economic behavior of individuals or firms using regression methods for cross section and panel data. The book is oriented to the practitioner. A basic understanding of the linear regression model with matrix algebra is assumed. The text can be used for a microeconometrics course, typically a second-year economics PhD course; for data-oriented applied microeconometrics field courses; and as a reference work for graduate students and applied researchers who wish to fill in gaps in their toolkit. Distinguishing features of the book include emphasis on nonlinear models and robust inference, simulation-based estimation, and problems of complex survey data. The book makes frequent use of numerical examples based on generated data to illustrate the key models and methods. More substantially, it systematically integrates into the text empirical illustrations based on seven large and exceptionally rich data sets.

The Women's Army Corps Mattie Treadwell,2019-07-29

Advice and Support Ronald H. Spector,2015-10-14 Advice and Support: The Early Years, 1941-1960 describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate postwar years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam.

Singapore in Global History Derek Thiam Soon Heng,Syed Muhd Khairudin Aljunied,2011 This important overview explores the connections between Singapore's past with historical developments worldwide until present day. The contributors analyse Singapore as a city-state seeking to provide an interdisciplinary perspective to the study of the global dimensions contributing to Singapore's growth. The book's global perspective demonstrates that many of the discussions of Singapore as a city-state have relevance and implications beyond Singapore to include Southeast Asia and the world. This vital volume should not be missed by economists, as well as those interested in imperial histor.

Divine Authenticity of the Book of Mormon Orson Pratt,1850

Livingstone Tim Jeal,2013-02-19 “A superb biography, not to be missed either by armchair explorers or students of human nature...reveals the famed missionary and explorer as he really was.”—Cleveland Plain Dealer David Livingstone is revered as one of history’s greatest explorers and missionaries, the first European to cross Africa, and the first to find Victoria Falls and the source of the Congo River. In this exciting new edition of his biography, Tim Jeal, author of the National Book Critics Circle Award-winning *Stanley*, draws on fresh sources and archival discoveries to provide the most fully rounded portrait of this complicated man—dogged by failure throughout his life despite his full share of success. Using Livingstone’s original field notebooks, Jeal finds that the explorer’s problems with his African followers were far graver than previously understood. From recently discovered letters he elaborates on the explorer’s decision to send his wife, Mary, back home to England. He also uncovers fascinating information about Livingstone’s importance to the British Empire and about his relationship with the journalist-adventurer Henry Morton Stanley. In addition, Jeal here evokes the full pathos of the explorer’s final journey. This masterful, updated biography also features an excellent selection of new maps and illustrations. “Fascinating.”—Los Angeles Times “A thrilling and in the end moving work...The Livingstone who emerges is a man of terrifying dimensions.”—Irish Press

The Impact and Prospects of Green Chemistry for Textile Technology Shahid ul-Islam,Bhupendra Singh Butola,2018-11-02 The Impact and Prospects of Green Chemistry for Textile Technology provides a review and summary of the role of green chemistry in textiles, including the use of green agents and sustainable technologies in different textile applications. The book systematically covers the history and chemistry of eco-friendly colorants, chitin, chitosan, cyclodextrin, biomordants, antimicrobial, UV protective, flame retardant, insect repellent textiles, and advanced pre- and post- treatment technologies, such as the sonochemistry and plasma methods currently employed in functional modifications. The book also pays attention to the remediation of textile effluents using novel, sustainable and inexpensive adsorbents. Written by high profile contributors with many years of experience in textile technology, the book gives engineers and materials scientists in the textile industry the information they need to effectively deploy these green technologies and processes. Introduces green chemistry and sustainable technologies, and explores their role in different textile applications Examines the use of renewable materials, such as biopolymers, dyes and pigments, biomordants, polyphenols and plant extracts in functional finishing applications Deals the functional modification of textiles using state-of-the-art biotechnology and nanotechnology
