The Joint Event of the Eleventh Young Researchers' Conference Materials Science and Engineering and The First European Early Stage Researchers' Conference on Hydrogen Storage, Belgrade, December 3rd-5th, 2012 Jasmina Grbović Novaković,Nenad Ignjatović,2012-12-01 Young Researchers' meetings are held annually late in December since 2002 and they are organized by the Materials Research Society of Serbia. Originally conceived as seminars, since 2007 these meetings were transformed into conferences. The previous ten meetings featured presentations based on the research of various young scientists from Serbia, Bosnia and Herzegovina, Montenegro, Slovenia, Brazil, Germany, United States of America, China, Poland, Belgium, Spain, Romania, United Kingdom, Austria, Italy, Hungary, Russia, Canada, etc. At the Conference, young researchers, students of doctoral, master and undergraduate studies, are given the opportunity to make an overview of their research into materials science and engineering through oral and poster presentations. As for the scientific content of the conference, we have given full priority to research topics that are currently considered as being on the frontier of the field. Nanotechnology and Advanced Materials, Synthesis and Engineering of Biomaterials, Application of Biomaterials, Theoretical Modeling of Materials and Advanced Methods for Synthesis and Processing present only some of those exciting topics that will be given the central stage and most attention during this meeting. The conference is free of charge and the participants are invited to submit their papers to the journals Tehnika - Novi Materijali, Processing and Application of Ceramics and Energija. Early Stage Researchers' Conference of Hydrogen Storage is held in Belgrade for the first time under the auspices of the COST ACTION MP 1103. The aim of the meeting is to gather the young researchers from all over Europe and the Word dealing with hydrogen energy, to discuss on the important issues regarding hydrogen storage and production. The papers from this conference will be published in International Journal of Hydrogen Energy Special Issue and Energija in order to disseminate the knowledge and to improve the visibility of our COST Action MP1103.

Chemistry Education Javier García-Martínez,Elena Serrano-Torregrosa,2015-05-04 Winner of the CHOICE Outstanding Academic Title 2017 Award This comprehensive collection of top-level contributions provides a thorough review of the vibrant field of chemistry education. Highly-experienced chemistry professors and education experts cover the latest developments in chemistry learning and teaching, as well as the pivotal role of chemistry for shaping a more sustainable future. Adopting a practice-oriented approach, the current challenges and opportunities posed by chemistry education are critically discussed, highlighting the pitfalls that can occur in teaching chemistry and how to circumvent them. The main topics discussed include best practices, project-based education, blended learning and the role of technology, including e-learning, and science visualization. Hands-on recommendations on how to optimally implement innovative strategies of teaching chemistry at university and high-school levels make this book an essential resource for anybody interested in either teaching or learning chemistry more effectively, from experience chemistry professors to secondary school teachers, from educators with no formal training in didactics to frustrated chemistry students.

The Chemical Element Javier García-Martínez,Elena Serrano-Torregrosa,2011-09-19 In the International Year of Chemistry, prominent scientists highlight the major advances in the fight against the largest problems faced by humanity from the point of view of chemistry, showing how their science is essential to ensuring our long-term survival. Following the UN Millennium Development Goals, the authors examine the ten most critical areas, including energy, climate, food, water and health. All of them are opinion leaders in their fields, or high-ranking decision makers in national and international institutions. Intended to provide an intellectual basis for the future development of chemistry, this book is aimed at a wide readership including students, professionals, engineers, scientists, environmentalists and anyone interested in a more sustainable future.

If It Bleeds Bonnie Hearn Hill,2013-05 If it bleeds, it leads. It's a media mantra—the most gruesome stories always run on the front page to get people's attention. But when Corina Vasquez lands a bloody lead story she attracts the attention of a killer, in IF IT BLEEDS. Newly promoted as the assistant to Matthew Henderson, California's Valley Voice investigative reporter, Corina wants only to prove to her boss, her coworkers—and herself—that she's the right choice for the job. When the body of the city's first woman mayor is discovered in a dusty vineyard—and Matthew is nowhere to be found—Corina gets her chance. Then a second brutal murder connects to the first. As she unearths the details around both killings, Corina begins to suspect that she's merely skimming the surface of a very deep conspiracy. And only one person can help her—acting mayor Wes Shaw, the man who broke her heart. Wes wants her back; Henderson wants her off the story. And as her reporting of the case thrusts her into the limelight, Corina realizes she's become a target for an unpredictable—and desperate—enemy.
