The Politics of Corruption John A. Gardiner,1970-08-24 Discusses actual corrupt practices in one small city, showing both the mechanisms of corruption and the fundamental questions they raise, the answers to which will apply in many cities. He describes the background and conditions that made it possible for a local syndicate to take over an Eastern industrial center, Wincanton. He discusses the many factors which permitted the take-over, stressing the citizens' lack of concern about links between petty gambling and the undermining of their local government.

The author knows naval practice and procedures from experience, and gives us a gripping account of Operation Sidewinder, a superb battle plan for the quick-and-deadly PT (Patrol Torpedo) boats during the Marines' fierce and bitter fighting for Guadalcanal and its vital Henderson Field. The story begins in the President of the United States Oval Office with initial measures taken by powerful historic figures, steps that defy reader conclusions, and quickly gathers strength and direction as it draws the reader along with its gradually quickening pace without disclosing the culmination of Operation Sidewinder until the inevitable action EXPLODES! The ending is a shocker!

Pennies for Heaven Daniel Judson,2018-06-05 In the annals of American Jewish history, synagogue financial records have been largely overlooked. But as Daniel Judson shows in his examination of synagogue ledgers from 1728 to the present, these records provide an array of new insights into the development of American synagogues and the values of the Jews who worshipped in them. Looking at the history of American synagogues through an

economic lens, Judson examines how synagogues raised funds, financed buildings, and paid clergy. By following the money, he reveals the priorities of the Jewish community at a given time. Throughout the book, Judson traces the history of capital campaigns and expenditures for buildings. He also explores synagogue competition and debates over previously sold seats, what to do about wealthy widows, the breaking down of gender norms, the hazan bubble (which saw dozens of overpaid cantors come to the United States from Europe), the successful move to outlaw mushroom synagogues, and the nascent synagogue-sharing economy of the twenty-first century. Judson shows as well the ongoing relationship of synagogue and church financing as well as the ways in which the American embrace of the free market in all things meant that the basic rules of supply and demand ultimately prevailed in the religious as well as the commercial realm.
