Marina Girl Heather Joy Hampton, 2011-04-29 Olivia Michaels knew she was embarking on an adventure when she moved to San Francisco, but she had no idea her address would label her a social pariah commonly referred to as a Marina girl. The Marina girl is a stereotype of a preppy, generic young woman who lives in the tiny neighborhood known as the Marina. You need to know about the history of the Marina to understand how and why the Marina girl developed into the albatross of San Francisco. After the 1906 earthquake, the city pushed all the ashes and rubble north down the steep hills of Pacific Heights, creating a landfill adjacent to a former pasture that later became the Cow Hollow neighborhood. Hundreds of Mediterranean-style homes were constructed in the 1920s on land that jiggled better than Bill Cosby's Jell-O when the 1989 earthquake hit. Most of the longtime residents moved away, leaving yuppie youngsters, perhaps less aware of their own mortality, to take over the neighborhood. Twenty years later, the Marina is the playground for San Francisco's worst nightmare, otherwise known as the Marina girl.

Sunset Marina Lynne Baumgardt, 2007-02 Genuine liveaboards own no land-based property, no escape to firm ground when life gets rough, and so they depend upon a marina home for water, electricity, fuel, and safety. Sunset Marina is a contemporary fiction romance/mystery about people who are genuine liveaboards on Lake Guntersville in northern Alabama. Many dream about living on a boat, cutting some of those ties to land and simplifying their lives. Some are just water people by nature and feel best when they are afloat. Some think this would be a great way to spend their retirement years. But few people really do it, and fewer still may be able to in the future. Marinas and marina dwellers everywhere are under attack as shoreline property goes the way of millionaire mansions and high-rise condos, hurricanes drive up insurance rates, energy costs rise, and more and more restrictions impact the liveaboard way of life. When one of the Sunset Marina owners drowns under suspicious circumstances, several lives change dramatically, and as diverse as they are culturally, educationally and economically, the liveaboards work together to help the most helpless. And is justice done at the end? It's a mystery.

deported from Salonika to extermination camps, compiled from Greek and German files held on microfilm at the U.S. Holocaust Memorial Museum. These files are based on forms which the Germans ordered the Jews to fill out on 1 March 1943. Each entry presents the person's name, date of birth, names of spouse and children, and address in Salonika, and sometimes gives the profession. Pp. 437-535 present a list of Greek internees from the Auschwitz archives (based on microfilms from the U.S.H.M.M.), giving the same information with the addition of the date of arrest and date of arrival in Auschwitz.

long one and I believe that it has equalled the success of its predecessor. In setting up these meetings the NATO Science Committee wanted to gather leading experts to review fields of strong present interest. It was intended that presentations and discussions should pay special attention to potential developments. This forward look is indeed precious to us in mapping out the evolution of our Science Programme but more

importantly, it is an essential part of the progress of Science. I believe that NATO, being able to bring together eminent scientists from both sides of the Atlantic, is in a privileged position to provide this service to our Scientific Community. It was only proper that Chemistry should be one of the first areas to be targeted: a central science with many rich borders touching on other disciplines, it deserved the full attention of our Committee. In its vast domain, among many possible topics, the present one was carefully selected and its choice resulted from an extensive consultation of many leading chemists. The large fraction of replies which pointed to Supramolecular Chemistry left us with little doubt about the timeliness of a Forum in this area and the strong interest attached to it.

Jewish Travel Guide 2008 Jewish Chronicle, Tbd, 2008 For almost fifty years, the Jewish Travel Guide has been the essential reference book for all Jewish travellers worldwide - whether travelling on business, for pleasure, or to seek their historical roots. Rigorously edited and up-dated every year, each country has a short commentary including demographic details, emergency numbers, and dialling codes. Other information includes restaurants, mikvaot, synagogues, theatres, embassies, museums, hotels, booksellers, cultural festivals, media, community organisations, groceries, bakeries, kosher food, butchers, delicatessens, libraries, and tourist sites. There's even a guide to kosher fish across the world. The Jewish Travel Guide is universally recognised as the ultimate source of information for the Jew abroad. The Jewish Review says, It is a must for every traveller, the Jewish Chronicle observes, The book validates its motto: 'Don't go without it', while The Jerusalem Post comments, The Guide offers a well-rounded demographic portrait of world Jewry today, serving as much as a handbook and resource for professionals in the Jewish world, as a travel guide. The Jewish Travel Guide is the essential travelling companion, making your journey even easier and more pleasurable!

Black Feminist Anthropology Irma McClaurin, 2001 In the discipline's early days, anthropologists by definition were assumed to be white and male. Women and black scholars were relegated to the field's periphery. From this marginal place, white feminist anthropologists have successfully carved out an acknowledged intellectual space, identified as feminist anthropology. Unfortunately, the works of black and non-western feminist anthropologists are rarely cited, and they have yet to be respected as significant shapers of the direction and transformation of feminist anthropology. In this volume, Irma McClaurin has collected-for the first time-essays that explore the role and contributions of black feminist anthropologists. She has asked her contributors to disclose how their experiences as black women have influenced their anthropological practice in Africa, the Caribbean, and the United States, and how anthropology has influenced their development as black feminists. Every chapter is a unique journey that enables the reader to see how scholars are made. The writers present material from their own fieldwork to demonstrate how these experiences were shaped by their identities. Finally, each essay suggests how the author's field experiences have influenced the theoretical and methodological choices she has made throughout her career. Not since Diane Wolf's *Feminist Dilemmas in the Field* or Hortense Powdermaker's *Stranger and Friend* have we had such a breadth of women anthropologists discussing the critical (and personal) issues that emerge when doing ethnographic research.

The Garland Handbook of African Music Ruth M. Stone, 2010-04-02 The Garland Handbook of African Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 1, Africa, (1997).

Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to Africa. Part Two focuses on issues and processes, such as notation and oral tradition, dance in communal life, and intellectual property. Part Three focuses on the different regions, countries, and cultures of Africa with selected regional case studies. The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published. Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa -- issues that might not occur in the study of other musics of the world. An accompanying audio compact disc offers musical examples of some of the music of Africa.

Environmental Remediation Technologies for Metal-Contaminated Soils Hiroshi Hasegawa, Ismail Md. Mofizur Rahman, Mohammad Azizur Rahman, 2015-09-28 This book presents a comprehensive and detailed description of remediation techniques for metal-contaminated soils derived from both natural processes and anthropogenic activities. Using a methodical, step-by-step presentation, the book starts by overviewing the origin of toxicants and the correlated comparative extent of contamination to the environment. The legal provisions as proposed or applied in different countries are then discussed to explain the global regulatory situation regarding soil contamination and the extent of consequent concern. The core part of this publication describes the major techniques for in situ or ex situ treatment of the contaminated soil to meet the regulatory limits. Finally, risk evaluation is incorporated, giving special attention to possible impacts during or after implementation of the remediation strategies. The intrusion of metals in soils mostly occurs from various anthropogenic activities, e.g., agricultural practices, industrial activities, and municipal waste disposal. The volumes of metal-contaminated soil are becoming greater than before and are ever-increasing due to rapid urbanization, intensified industrialization, and/or population booms in certain parts of the world. Hence, the options previously proposed, such as isolation of the contaminated site or movement of the contaminated mass to a secure disposal site after excavation, are becoming unsuitable from the economic point of view, and instead, decontamination alternatives are preferred. This book will help readers such as scientists and regulators to understand the details of the remediation techniques available to deal with the soils contaminated by toxic metals.

Artistic Dynamos: An Ethnography on Music in Central African Kingdoms Brian Schrag, 2021-03-22 Artistic Dynamos: An Ethnography on Music in Central African Kingdoms uses stories and research from Ngiemboon communities of Central and West Cameroon as touchstones for proposing new approaches to arts scholarship and community development. Building on the results of ethnographic research, artistic action is viewed through the lens of communication. This view brings a picture of increased cultural energy in the enactment of artistic genres—those with melodic, rhythmic, poetic, dramatic, visual, and performative features. Schrag's treatise will change how scholars across disciplines understand and engage

with the arts. This volume offers methods for improved scholarship, resulting in communities living better lives. The author's website contains the video and audio recordings discussed in the book, plus full color versions of many photos and diagrams. www.ArtisticDynamos.com
