Straight Choices Ben R. Newell,David A. Lagnado,David R. Shanks,2015-06-12 Should I have this medical treatment or that one? Is this computer a better buy than that one? Should I invest in shares or keep my money under the bed? We all face a perplexing array of decisions every day. Thoroughly revised and updated throughout, the new edition of Straight Choices provides an integrative account of the psychology of decision-making, and shows how psychological research can help us understand our uncertain world. Straight Choices emphasises the relationship between learning and decision-making, arguing that the best way to understand how and why decisions are made is in the context of the learning and knowledge acquisition which precedes them, and the feedback which follows. The mechanisms of learning and the structure of environments in which decisions are made are carefully examined to explore their impact on our choices. The authors then consider whether we are all constrained to fall prey to cognitive biases, or whether, with sufficient exposure, we can find optimal decision strategies and improve our decision making. Featuring three completely new chapters, this edition also contains student-friendly overviews and recommended readings in each chapter. It will be of interest to students and researchers in cognitive psychology, behavioral economics, and the decision sciences, as well as anyone interested in the nature of decision making.

Productive Ageing Sünje Lorenzen,Katja Specht,2022-11-21 For many people, growing old is an unpleasant experience. It is a time of restriction, deprivation and of loss. You retire from work, lose your loved ones and have to cope with illness. It is an art to remain productive, to ensure that life remains meaningful, and to stay active and alive. This social psychological study shows how people of old age manage this within their various lifestyles, whether they live in senior citizens homes, in assisted-living projects, in their own apartments, alone or together with others.

Rethink Happy Doug Kisgen,2016-03-17 A profoundly inspiring parable for anyone who has experienced success—and wondered if there is something more . . . Cleve has it all. Or so he thinks. Then an apparent chance encounter with an old man named Camino causes him to realize that what he believes is happiness is merely a shadow of the joy he could experience. Yes, having money and cool cars and freedom is fun, but happiness is not a result of accumulating stuff. Told in a compelling parable format, Rethink Happy challenges readers to redefine authentic joy. Join Cleve as Camino leads him on a journey through three key principles of old-school philosophy and new-school science that can inspire anyone who has wondered how to achieve true happiness, struggled with how to be successful at home as well as in business, or tried to make sense of setbacks. From an entrepreneur who has faced—and bounced back from—disaster, and learned that success and happiness has less to do with him and his ego and more to do with something deeper, Rethink Happy is an inspiring story for anyone facing obstacles in work or in life.

Passion to Wealth Yasin Sebastian Qureshi,2019-01-01 How the wheels of the international high finance machine turn is a mystery to most. Surprisingly, also to the big wheels, who don't have the divine knowledge they'd have us think they do, and maybe

themselves have come to believe they have. The fact is, precious little is predictable, but also that various simple strategies can give the average person the edge in riding both the high and low waves. No matter if things on the international scene are up, down or sideways, you can make money—good money—by staying cool and just knowing what to do when. Yasin Sebastian Qureshi opens the doors to the once hallowed halls he's rendered less than magical. At 29 the youngest ever person to run a bank in Europe, Qureshi tells of the constant opposition to his simplified ideas from those higher up who knew better—until his success gave abundant proof that they work. Through simple strategies, psychological tips and anecdotes from the roller coaster ride of investment, *Passion to Wealth: The Mountain Climber's Shortcut*, co-authored by Benjamin Bilski (Forbes 30 under 30), shows how this can be mastered—without huge financial input, years of study or painful hours trying to decipher mind-boggling charts. And with an eye on doing what you enjoy doing in life, without selling your soul. Play, communicate, grow, enjoy. Your passion can indeed drive your wealth, and your wealth, in turn, can drive your passion. This little book will show you how.

Buyology Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.
