The Woman in Black Susan Hill, 2016-12-19 "Wajahnya sarat dengki dan keputusasaan, seakan tengah mencari sesuatu yang telah direnggut darinya. Dan, wanita itu bersumpah mencurahkan seluruh kebencian dan kesumat dalam dirinya." Ketika Arthur Kipps, pengacara muda, ditugaskan untuk menghadiri pemakaman seorang klien di kota kecil Crythin Gifford, dia menganggapnya sebagai batu pijakan untuk naik jabatan. Sang klien, Nyonya Drablow, tinggal sendiri di Eel Marsh House yang dikelilingi rawa-rawa berkabut. Rumah besar dan kuno ini yang hanya dapat didatangi ketika air sedang surut. Ternyata tak ada warga Crythin Gifford yang sudi berurusan dengan Nyonya Drablow maupun Eel Marsh House. Mereka bilang tempat itu dikutuk, sering terdengar lolongan mengenaskan dari balik kabut. Kipps menguatkan diri dan nekad bermalam di Eel Marsh House, meski banyak orang mencegahnya. Di rumah angker itu, Kipps bertemu dengan sesosok wanita bergaun hitam. Sosok arwah legenda yang kemunculannya selalu diikuti oleh kematian misterius. Sosok penuh dendam dan kebencian yang selalu ingin memakan korban. Dan kini dia mengejar Kipps. Siapakah sebenarnya wanita bergaun hitam itu? [Mizan Publishing, Qanita, Novel, Klasik, Terjemahan, Indonesia]

Hinduism for Our Times Arvind Sharma, 1996 This book examines the contours of this creative tension in the context of Hinduism in our own times. For Hinduism, a religion of unknown antiquity, is also, in several ways, surprisingly modern. Hinduism for Our Times is an attempt to raise this dimension of Hinduism to an unprecedented level of self-awareness.

Macondo Well Deepwater Horizon Blowout National Research Council, National Academy of Engineering, Board on Environmental Studies and Toxicology, Marine Board, Committee on the Analysis of Causes of the Deepwater Horizon Explosion, Fire, and Oil Spill to Identify Measures to Prevent Similar Accidents to the Future, 2012-03-02 The blowout of the Macondo well on April 20, 2010, led to enormous consequences for the individuals involved in the drilling operations, and for their families. Eleven workers on the Deepwater Horizon drilling rig lost their lives and 16 others were seriously injured. There were also enormous consequences for the companies involved in the drilling operations, to the Gulf of Mexico environment, and to the economy of the region and beyond. The flow continued for nearly 3 months before the well could be completely killed, during which time, nearly 5 million barrels of oil spilled into the gulf. Macondo Well-Deepwater Horizon Blowout examines the causes of the blowout and provides a series of recommendations, for both the oil and gas industry and government regulators, intended to reduce the likelihood and impact of any future losses of well control during offshore drilling. According to this report, companies involved in offshore drilling should take a system safety approach to anticipating and managing possible dangers at every level of operation—from ensuring the integrity of wells to designing blowout preventers that function under all foreseeable conditions—in order to reduce the risk of another accident as catastrophic as the Deepwater Horizon explosion and oil spill. In addition, an enhanced regulatory approach should combine strong industry safety goals with mandatory oversight at critical points during drilling operations. Macondo Well-Deepwater Horizon Blowout discusses ultimate responsibility and accountability for well integrity and safety of offshore equipment, formal system safety education and training of personnel engaged in offshore drilling, and guidelines that should be established so that well designs incorporate protection against the various credible risks associated with the drilling and abandonment process. This book will be of interest to professionals in the oil and gas industry, government decision makers, environmental advocacy groups, and others who seek an understanding of the processes involved in order to ensure safety in undertakings of this nature.
