**The Emigrant Communities of Latvia** Rita Kaša,Inta Mieriņa,2019-05-08 This open access volume examines experiences of contemporary Latvian migrants, thereby focusing on reasons for emigration, processes of integration in their host countries, and – in the case of return migration – re-integration in their home country. In the context of European migration, the book describes the case of Latvia, which is interesting due to the multiple waves of excessive emigration, continuously high migration potential among European Union member states, and diverse migrant characteristics. It provides a fascinating insight into the social and psychological aspects linked to migration in a comparative context. The data in this volume is rich in providing individual level perspectives of contemporary Latvian migrants by addressing issues such as emigrants' economic, social and cultural inclusion in the host country, ties with the home country and culture, interaction with public authorities both in the host and home country, political views, and perspectives on the permanent settlement in migration or return. Through topics such as assimilation of children, relationships between emigrants representing different emigration waves, the complex identities and attachments of minority emigrants, and the role of culture and media in identity formation and presentation, this book addresses topics that any contemporary emigrant community is faced with.

**Hollywood Westerns and American Myth** Robert B. Pippin,2010-06-22 In this pathbreaking book one of America's most distinguished philosophers brilliantly explores the status and authority of law and the nature of political allegiance through close readings of three classic Hollywood Westerns: Howard Hawks' Red River and John Ford's The Man Who Shot Liberty Valance and The Searchers.Robert Pippin treats these films as sophisticated mythic accounts of a key moment in American history: its "second founding," or the western expansion. His central question concerns how these films explore classical problems in political psychology, especially how the virtues of a commercial republic gained some hold on individuals at a time when the heroic and martial virtues were so important. Westerns, Pippin shows, raise central questions about the difference between private violence and revenge and the state's claim to a legitimate monopoly on violence, and they show how these claims come to be experienced and accepted or rejected.Pippin's account of the best Hollywood Westerns brings this genre into the center of the tradition of political thought, and his readings raise questions about political psychology and the political passions that have been neglected in contemporary political thought in favor of a limited concern with the question of legitimacy.

**Angels and Demons in Art** Rosa Giorgi,2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism.

*The Poetry of Religious Sorrow in Early Modern England* Gary Kuchar,2011-03-03 In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God, expressing how divine grace operates at the level of human emotion. Through close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith as lived experience. In turn, 'holy mourning' served as a way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping kings, Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.
