Meet Ophelia, high school senior, daughter of the Danish king's most trusted adviser, and longtime girlfriend of Prince Hamlet of Denmark. She lives a glamorous life and has a royal social circle, and her beautiful face is splashed across magazines and television screens. But it comes with a price--her life is ruled not only by Hamlet's fame and his overbearing royal family but also by the paparazzi who hound them wherever they go. After the sudden and suspicious death of his father, the king, the devastatingly handsome Hamlet spirals dangerously toward madness, and Ophelia finds herself torn, with no one to turn to. All Ophelia wants is to live a normal life. But when you date a prince, you have to play your part. Ophelia rides out this crazy roller coaster life, and lives to tell her story in live television interviews.

**Mentalissimo** John Bannon,2016-08-10 In Mentalissimo, John brings his talents to bear on mentalism and mental magic with playing cards. I do card tricks, have a keen interest in mentalism and am a fanatic about the construction of magic tricks. For me, a book like this is just what I look for. All of the above; in one place.You can expect: Squeaky-clean revelations of truly thought-of cards. Demonstrations of psychic ability that can't be explained simply as coincidence. Clear, commercial prediction systems. Offbeat treatments of classic mental effects from Add-a-Number to Out of This World.Thirty items are described and explained in twenty-one chapters. Almost all use regular unprepared cards. Two require a common gaffed card. Most are impromptu. A couple require a more-than-minimal stack. A few rely on easily-made external props. One employs a pack of ESP symbol cards. All are intelligently explained and laced with commentary and discussion. Come for the thought-provoking card effects; stay for the conversation.

**Best of Enemies** Rainier George Weiner,2015-05-07 Suppose fate placed you on an inflatable life-raft in the middle of the freezing Atlantic Ocean along with your most bitter enemy contrivable? Would the emotions of hatred, revenge and love of country trump the desire to survive, if killing that enemy ensured your own demise? Captain Mat Richardson, USN, and Emil Gluckler, a German submarine commander, experience that option during the 2nd World War. Mat, captain of a small destroyer, and Emil, commander of an attacking submarine, become stranded on a life- raft after each of the combatant crafts sink each other during a fierce naval engagement. They subsequently experience 38 harrowing days striving for survival. If nothing else, this required the ultimate in mutual cooperation. If the two survived, would the events have a lasting effect on their relationship? Or, if one had the opportunity to kill the other at a later date in a new war-time circumstance, would he do so, or not?
