📖 Pirates of Pensacola Keith Thomson,2005-04 The Cooke and Hood families have been at each other’s throats since the Spanish Main days. The latest chapter in their piratic rivalry takes place in 2004, when an old treasure map turns up. None of this seems to matter to Morgan Cooke, a cowardly, landlubbing accountant entirely ignorant of his heritage until his estranged father, Isaac, in need of crewmen, kidnaps him and thrusts him into the fray. When Morgan wakes up on a boat in the middle of the Caribbean, he learns that piracy still flourishes, albeit with far more discretion than in the old days--pirates disguise their fast boats as shrimpers or tugs--but with no less bloodshed. Judging even a shot at riches vastly preferable to a return to his lonely, fluorescent-lit work station existence, Morgan pierces his ear, dons the eye patch and peg leg, and set sail for glorious adventure.

📖 IQ in Question Michael J A Howe,1997-09-29 ‘In this remarkably economical, clear and informed book, Mike Howe... sets about unravelling the formidable semantic, logical and empirical knots into which IQ testers and their supporters have tied themselves.... Howe suggests that we have, for decades, been asking the wrong kinds of questions. He points to the number of alternative, theoretically richer, views of human intelligence that don’t reduce all to a single dimension... this is rendered with an easy, readable style which assumes no previous technical knowledge’ - British Journal of Educational Psychology In this provocative and accessible book, Michael Howe exposes serious flaws in our most widely accepted beliefs about intelligence.
