Review of Some Text to Speech Converters, Voice Changers, Video Editors, Animators, Speaking Avatar Makers and Live Streamers

Dr. Hidaia Mahmood Alassouli, 2020-04-03 As videos are so much important today, I believe that everyone must have some knowledge on creating and editing videos for common tasks required by his personal or business use. This book has mainly an objective to evaluate some text to speech converters, voice changers, video editors, cartoon animators and video recording and live streaming programs. As I am Arabic, I gave special importance to look for the best tools that can convert Arabic text to voice with good quality because of the lack of these tools. And I also gave special importance to look for the best tools that can change the voice tune as a lot of people don't like to make videos with their voice for special reasons. Then I gave quick guide on how to use the two important video editors, VSDC Free Video Editor and Camtasia Studio. Then I gave quick guide on how to use two websites that enable people to create cartoon animation videos in a simple way, <https://www.animaker.com/> website and <https://www.powtoon.com> website. Then I gave quick guide on how to use one of the best animator programs, which is Reallusion Cartoon Animator 4. I explained also how it is possible to make face mockup through Cartoon Animator 4 Motion Live 2D Plugin. Then I introduced Adobe Character Animator as alternative program to make face mockup. Finally I explained about one of the video recording and live streaming programs, which is OBS Studio. I mentioned briefly how to setup OBS studio to create livestream video on Youtube and Facebook. At the end, I showed how to use Voki website to create customizable speaking avatars This work is divided to the following sections. 1. Some tools to reshape the Arabic letters so they can be converted to voice in other tools. 2. Some tools to convert English text to speech TTS. 3. Some tools to convert Arabic text to speech TTS. 4. Evaluation of some voice changers 5. Creating video of audio file with list of images (slideshow) using VSDC Free Video Editor.: 6. Screen capture using VSDC Free Video Editor. 7. Video capture using VSDC Free Video Editor. 8. Using <https://www.animaker.com/> website to create simple cartoon animation video. 9. Using <https://www.powtoon.com> website to create animation video. 10. Using Camtasia Studio Video Editor 11. Using Camtasia Studio Recorder 12.

Using Reallusion Cartoon Animator 4: 13. Making Face Mockup on Cartoon Animator 4 through Motion Live 2D Plugin 14. Introduction to Adobe Character Animator 15. Cyberspace Law Hannibal Travis, 2013-08-21 This book explores what the American Civil Liberties Union calls the third era in cyberspace, in which filters fundamentally alter the architectural structure of the Internet, with significant implications for free speech. Although courts and nongovernmental organizations increasingly insist upon constitutional and other legal guarantees of a freewheeling Internet, multi-national corporations compete to produce tools and strategies for making it more predictable. When Google attempted to improve our access to information containing in books and the World Wide Web, copyright litigation began to tie up the process of making content searchable, and resulted in the wrongful removal of access to thousands if not millions of works. Just as the courts were insisting that using trademarks online to criticize their owners is First Amendment-protected, corporations and trade associations accelerated their development of ways to make Internet companies liable for their users' infringing words and actions, potentially circumventing free speech rights. And as social networking and content-sharing sites have proliferated, so have the terms of service and content-detecting tools for detecting, flagging, and deleting content that makes one or another corporation or trade association fear for its image or profits. The book provides a legal history of Internet regulation since the mid-1990s, with a particular focus on efforts by patent, trademark, and copyright owners to compel Internet firms to monitor their online offerings and remove or pay for any violations of the rights of others. This book will be of interest to students of law, communications, political science, government and policy, business, and economics, as well as anyone interested in free speech and commerce on the internet.
