William Shakespeare

Mr. & Mrs. American Pie Juliet McDaniel,2018-08-07 In the vein of *Where'd You Go, Bernadette*, this whip-smart romantic comedy is as incisive as it is funny—and refuses to be thwarted by convention. After getting dumped by her husband, a woman sets out to prove her worth by entering a 'best housewife' pageant in 1970 Palm Springs.

Business and Consumer Analytics: New Ideas Pablo Moscato,Natalie Jane de Vries,2019-05-30 This two-volume handbook presents a collection of novel methodologies with applications and illustrative examples in the areas of data-driven computational social sciences. Throughout this handbook, the focus is kept specifically on business and consumer-oriented applications with interesting sections ranging from clustering and network analysis, meta-analytics, memetic algorithms, machine learning, recommender systems methodologies, parallel pattern mining and data mining to specific applications in market segmentation, travel, fashion or entertainment analytics. A must-read for anyone in data-analytics, marketing, behavior modelling and computational social science, interested in the latest applications of new computer science methodologies. The chapters are contributed by leading experts in the associated fields. The chapters cover technical aspects at different levels, some of which are introductory and could be used for teaching. Some chapters aim at building a common understanding of the methodologies and recent application areas including the introduction of new theoretical results in the complexity of core problems. Business and marketing professionals may use the book to familiarize themselves with some important foundations of data science. The work is a good starting point to establish an open dialogue of communication between professionals and researchers from different fields. Together, the two volumes present a number of different new directions in Business and Customer Analytics with an emphasis in personalization of services, the development of new mathematical models and new algorithms, heuristics and metaheuristics applied to the challenging problems in the field. Sections of the book have introductory material to more specific and advanced themes in some of the chapters, allowing the volumes to be used as an advanced textbook. Clustering, Proximity Graphs, Pattern Mining, Frequent Itemset Mining, Feature Engineering, Network and Community Detection, Network-based Recommending Systems and Visualization, are some of the topics in the first volume. Techniques on Memetic Algorithms and their applications to Business Analytics and Data Science are surveyed in the second volume; applications in Team Orienteering, Competitive Facility-location, and Visualization of Products and Consumers are also discussed. The second volume also includes an introduction to Meta-Analytics, and to the application areas of Fashion and Travel Analytics. Overall, the two-volume set helps to describe some fundamentals, acts as a bridge between different disciplines, and presents important results in a rapidly moving field combining powerful optimization techniques allied to new mathematical models critical for personalization of services. Academics and professionals working in the area of business analytics, data science, operations research and marketing will find this handbook valuable as a reference. Students studying these fields will find this handbook useful and helpful as a secondary textbook.

Othello William Shakespeare,2021-03 *Othello, The Moor of Venice* is a tragedy by William Shakespeare based on the short story *Moor of Venice* by Cinthio, believed to have been written in approximately 1603. The work revolves around four central characters: Othello, his wife Desdemona, his lieutenant Cassio, and his trusted advisor Iago. Attesting to its enduring popularity, the play appeared in 7 editions between 1622 and 1705. Because of its varied themes -- racism, love, jealousy and betrayal -- it remains relevant to the present day and is often performed in professional and community theatres alike. The play has also been the basis for numerous operatic, film and literary adaptations. (From Wikipedia)(less)

Advances in Communication and Computational Technology Gurdeep Singh Hura,Ashutosh Kumar Singh,Lau Siong Hoe,2020-08-13 This book presents high-quality peer-reviewed papers from the International Conference on Advanced Communication and Computational Technology (ICACCT) 2019 held at the National Institute of Technology, Kurukshetra, India. The contents are broadly divided into four parts: (i) Advanced Computing, (ii) Communication and Networking, (iii) VLSI and Embedded Systems, and (iv) Optimization Techniques. The major focus is on emerging computing technologies and their applications in the domain of communication and networking. The book will prove useful for engineers and researchers working on physical, data link and transport layers of communication protocols. Also, this will be useful for industry professionals interested in manufacturing of communication devices, modems, routers etc. with enhanced computational and data handling capacities.

Economic Policy 62 Georges De Menil,Richard Portes,Hans-Werner Sinn,Tullio Jappelli,Philip Lane,Philippe Martin,Jan Van Ours,2010-08-13 *Crisis Issue*: The papers in this title have been written in response to the global financial and economic crisis that has been ongoing since Summer 2007. Top economists provide a concise and accessible evaluation of major developments in trade and trade policy. *Economic Policy* has earned a reputation around the world as the one publication that always identifies current and emerging policy topics early. Papers are specially commissioned from first-class economists and experts in the policy field. The editors are all based at top European economic institutions and each paper is discussed by a panel of distinguished economists. This unique approach guarantees incisive debate and alternative interpretations of the evidence.

Cognition, Language and Aging Heather Harris Wright,2016-03-16 Age-related changes in cognitive and language functions have been extensively researched over the past half-century. The older adult represents a unique population for studying cognition and language because of the many

challenges that are presented with investigating this population, including individual differences in education, life experiences, health issues, social identity, as well as gender. The purpose of this book is to provide an advanced text that considers these unique challenges and assembles in one source current information regarding (a) language in the aging population and (b) current theories accounting for age-related changes in language function. A thoughtful and comprehensive review of current research spanning different disciplines that study aging will achieve this purpose. Such disciplines include linguistics, psychology, sociolinguistics, neurosciences, cognitive sciences, and communication sciences. As of January 2019, this e-book is freely available, thanks to the support of libraries working with Knowledge Unlatched.

Sonnets William Shakespeare,2014-12-16 Among the most enduring poetry of all time, William Shakespeare's 154 sonnets address such eternal themes as love, beauty, honesty, and the passage of time. Written primarily in four-line stanzas and iambic pentameter, Shakespeare's sonnets are now recognized as marking the beginning of modern love poetry. The sonnets have been translated into all major written languages and are frequently used at romantic celebrations. Known as "The Bard of Avon," William Shakespeare is arguably the greatest English-language writer known. Enormously popular during his life, Shakespeare's works continue to resonate more than three centuries after his death, as has his influence on theatre and literature. Shakespeare's innovative use of character, language, and experimentation with romance as tragedy served as a foundation for later playwrights and dramatists, and some of his most famous lines of dialogue have become part of everyday speech. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperPerennial Classics collection to build your digital library.

Julius Caesar William Shakespeare,2021-03-10 Enter, in procession, with music, CAESAR; ANTONY, for the course; CALPHURNIA, PORTIA, DECIUS, CICERO, BRUTUS, CASSIUS and CASCA; a great crowd following, among them a SOOTHSAYER.CAESAR.Calphurnia.CASCA.Peace, ho! Caesar speaks.[Music ceases.]CAESAR.Calphurnia.CALPHURNIA.Here, my lord.CAESAR.Stand you directly in Antonius' way, When he doth run his course. Antonius.ANTONY.Caesar, my lord?CAESAR.Forget not in your speed, Antonius, To touch Calphurnia; for our elders say, The barren, touched in this holy chase, Shake off their sterile curse.ANTONY.I shall remember.When Caesar says Do this, it is perform'd.CAESAR.Set on; and leave no ceremony out.[Music.]SOOTHSAYER.Caesar!CAESAR.Ha! Who c

Archaeology and Economic Development Paul Burtenshaw,2017-12-02 Nowhere in archaeology is the gap between theory and practice more evident than in its ambivalent engagement with economic development. This groundbreaking volume assembles practicing archaeologists, economists, and NGO officials in an extensive exploration of the theoretical, practical and ethical issues raised by archaeologists' use of cultural heritage to support economic development. The first chapters consider the problem of articulating the value of tangible and intangible heritage when economic measures alone are inadequate. Subsequent chapters present regional perspectives on archaeology and development, and present a host of case studies from around the globe that describe archaeologists' development projects, including some that are successful and others that are less so. These studies both suggest best practices in the implementation of development projects and illuminate the obstacles to success created by political conflict and competing human needs. Ethical issues and practical considerations converge in chapters that explore the role that members of local communities should play in the design, management and governance of archaeological and heritage resources. In this volume, archaeologists and heritage professionals will encounter a thought-provoking international discourse concerning the path forward for archaeology as the field engages with economic development.

Divine Disruption Dr. Tony Evans,Chrystal Evans Hurst,Priscilla Shirer,Anthony Evans,Jonathan Evans,2021-11-09 USA Today Bestseller Learn how to work your way through life's unexpected challenges with grace and find a deeper faith while on your journey. In this biblical and conversational book by Dr. Tony Evans and his four adult children—Chrystal Evans Hurst, Priscilla Shirer, Anthony Evans, and Jonathan Evans—you will hear five insightful perspectives on what it means to hold on to faith when life breaks your heart. We have all been through difficult seasons and times in life when it seems like the hits keep coming and you can barely catch your breath. The Evans family knows what this is like, as they've experienced the deep grief of losing eight loved ones in less than two years' time, including the devastating passing of Lois Evans, the matriarch of the family. In Divine Disruption, Dr. Tony Evans and his children pull back the curtain on their faith-shaking experiences, in order to provide biblical wisdom and practical encouragement for how to deal with the hard, unexpected things we all inevitably face. You'll walk away with insights on: Why bad things happen despite a good and powerful God Persevering in difficult times and experiencing God's peace What causes distress in your life—and how to move past it How to keep your faith from being damaged during tough times Join the Evans Family in this unique Kingdom Legacy partnership as they candidly share honest questions they've asked, raw emotions they've felt, and solutions they've learned. Your life may have been interrupted, but you can use that to grow closer to God—and find peace.

The Postal Record ,1920

Ben Hogan's Five Lessons Ben Hogan,Herbert Warren Wind,1985-09-20 Golfer Ben Hogan offers step-by-step instructions on how to break eighty in a single golf game.

Machine Vision and Augmented Intelligence—Theory and Applications Manish Kumar Bajpai,Koushlendra Kumar Singh,George Giakos,2021-11-10

This book comprises the proceedings of the International Conference on Machine Vision and Augmented Intelligence (MAI 2021) held at IIIT, Jabalpur, in February 2021. The conference proceedings encapsulate the best deliberations held during the conference. The diversity of participants in the event from academia, industry, and research reflects in the articles appearing in the volume. The book theme encompasses all industrial and non-industrial applications in which a combination of hardware and software provides operational guidance to devices in the execution of their functions based on the capture and processing of images. This book covers a wide range of topics such as modeling of disease transformation, epidemic forecast, COVID-19, image processing and computer vision, augmented intelligence, soft computing, deep learning, image reconstruction, artificial intelligence in healthcare, brain-computer interface, cybersecurity, and social network analysis, natural language processing, etc.

Mobile Radio Communications and 5G Networks Nikhil Marriwala,C. C. Tripathi,Dinesh Kumar,Shruti Jain,2020-09-28 The book features original papers by active researchers presented at the International Conference on Mobile Radio Communications and 5G Networks. It includes recent advances and upcoming technologies in the field of cellular systems, 2G/2.5G/3G/4G/5G and beyond, LTE, WiMAX, WMAN, and other emerging broadband wireless networks, WLAN, WPAN, and various home/personal networking technologies, pervasive and wearable computing and networking, small cells and femtocell networks, wireless mesh networks, vehicular wireless networks, cognitive radio networks and their applications, wireless multimedia networks, green wireless networks, standardization of emerging wireless technologies, power management and energy conservation techniques.

Advances in Artificial Intelligence Yasufumi Takama,Naohiro Matsumura,Katsutoshi Yada,Mitsunori Matsushita,Daisuke Katagami,Akinori Abe,Hisashi Kashima,Toshihiro Hiraoka,Takahiro Uchiya,Rafal Rzepka,2022-02-26 This book contains extended versions of research papers presented at the international sessions at the 35th Annual Conference of the Japanese Society for Artificial Intelligence (JSAI2021), which was held online from June 8–11, 2021. The JSAI annual conferences are considered key events for our organization, and the international sessions held at these conferences play a key role for the society in its efforts to share Japan’s research on artificial intelligence with other countries. The topics of the international sessions in JSAI2021 cover five categories: knowledge engineering, machine learning, agents, robots and real worlds, and human interface and education aid. From the papers submitted to those categories, papers of high quality were selected through the strict reviewing procedure. As a result, 19 papers are included in this book. From this book, readers can get an overview of recent Japan’s research on artificial intelligence.

Good Morning, Snowplow! Deborah Bruss,2018-10-30 For fans of Goodnight, Goodnight Construction Site! As the rest of the town settles in to bed, one man, his dog, and a trusty snowplow get ready for a night's work. Follow them through slick roads and swirling drifts in this sweet, rhyming book by Deborah Bruss and New York Times bestselling illustrators Lou Fancher and Steve Johnson.

Advances in Intelligent Computing and Communication Mihir Narayan Mohanty,Swagatam Das,2020-01-13 This book features high-quality research papers presented at the 2nd International Conference on Intelligent Computing and Advances in Communication (ICAC 2019), held at Siksha ‘O’ Anusandhan Deemed to be University, Bhubaneswar, Odisha, India, in November 2019. Covering a wide variety of topics, including management of clean and smart energy systems and environmental challenges, it is a valuable resource for researchers and practicing engineers working in various fields of renewable energy generation, and clean and smart energy management.

The Best Camera Is The One That's With You Chase Jarvis,2009-09-18 A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase’s iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, “Inherently, we all know that an image isn’t measured by its resolution, dynamic range, or anything technical. It’s measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you.” This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named *Best Camera*. *Best Camera* has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. *Best Camera* also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. *The Best Camera Is The One That's With You*—shoot!

Infrastructure and Technology Management Tugrul U. Daim,Leong Chan,Judith Estep,2018-01-10 This book presents emerging technology

management approaches and applied cases from leading infrastructure sectors such as energy, healthcare, transportation and education. Featuring timely topics such as fracking technology, electric cars, Google’s eco-friendly mobile technology and Amazon Prime Air, the volume’s contributions explore the current management challenges that have resulted from the development of new technologies, and present tools, applications and frameworks that can be utilized to overcome these challenges. Emerging technologies make us rethink how our infrastructure will look in the future. Solar and wind generation, for example, have already changed the dynamics of the power sector. While they have helped to reduce the use of fossil fuels, they have created management complications due to their intermittent natures. Meanwhile, information technologies have changed how we manage healthcare, making it safer and more accessible, but not without implications for cost and administration. Autonomous cars are around the corner. On-line education is no longer a myth but still a largely unfulfilled opportunity. Digitization of car ownership is achievable thanks to emerging business models leveraging new communication technologies. The major challenge is how to evaluate the relative costs and benefits of these technologies. This book offers insights from both researchers and industry practitioners to address this challenge and anticipate the impact of new technologies on infrastructure now and in the future.

Daring to Challenge OCD Joan Davidson,2014-08-01 If you have obsessive-compulsive disorder (OCD), you may suffer from obsessive thoughts and anxiety, and use compulsions to alleviate your distress. You know, more than anyone, how debilitating this condition can be. But you may also be reluctant to start treatment due to fears and misconceptions regarding therapy—particularly exposure and response prevention (ERP) therapy. You may even think of a number of reasons not to go, or to drop out, but if you are committed to getting better, you need to take that important step toward healing. ERP is a proven-effective treatment that can help people with OCD break free from the constraints of their disorder; however, starting treatment can feel frightening. Many people wonder what treatment will be like and how they will ever face some of their worst fears. They want to hear from others who have successfully completed therapy. In *Daring to Challenge OCD*, anxiety specialist Joan Davidson, PhD, gives a thorough overview of ERP, what to expect during treatment, and offers gentle guidance to help you finally overcome the common fears and obstacles that can stand in the way of getting the help you need. Three clients with different OCD symptoms share their personal stories and insights about OCD and treatment. If you are considering treatment, you may ask yourself, What will my therapist expect me to do? Will treatment be too difficult for me to handle? Will I be asked to do things that put me at risk?What are realistic expectations for recovery? This book will demystify treatment for OCD so that you can face your fears and start changing your life. And if you are a therapist helping clients build motivation to engage in ERP, this book offers real treatment stories and exercises for clients, making it an invaluable resource for therapists and wonderful suggested reading for clients building motivation to commit to treatment.
