The Words That Made Us Akhil Reed Amar, 2021-05-04 A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.

The Making of an Economic Superpower Yi Wen, 2016-05-13 The rise of China is no doubt one of the most important events in world economic history since the Industrial Revolution. Mainstream economics, especially the institutional theory of economic development based on a dichotomy of extractive vs. inclusive political institutions, is highly inadequate in explaining China's rise. This book argues that only a radical reinterpretation of the history of the Industrial Revolution and the rise of the West (as incorrectly portrayed by the institutional theory) can fully explain China's growth miracle and why the determined rise of China is unstoppable despite its current backward financial system and political institutions. Conversely, China's spectacular and rapid transformation from an impoverished agrarian society to a formidable industrial superpower sheds considerable light on the fundamental shortcomings of the institutional theory and mainstream blackboard economic models, and provides more-accurate reevaluations of historical episodes such as Africa's enduring poverty trap despite radical political and economic reforms, Latin America's lost decades and frequent debt crises, 19th century Europe's great escape from the Malthusian trap, and the Industrial Revolution itself. Contents: Introduction Key Steps Taken by China to Set Off an Industrial Revolution Shedding Light on the Nature and Cause of the Industrial Revolution Why is China's Rise Unstoppable? What's Wrong with the Washington Consensus and the Institutional Theories? Case Study of Yong Lian: A Poor Village's Path to Becoming a Modern Steel Town Conclusion: A New Stage Theory of Economic Development Readership: Academics, undergraduate and graduates students, journalists and professionals interested in economic development, the history of the Industrial Revolution, and especially China's economic transformation and industrial growth, as well as the political economy of governance.

Lottie Moon: Giving Her All for China Janet Bengé, Geoff Bengé, Bengé, 2000-10 After becoming the

most educated woman in the American South, Lottie Moon (1840-1912) spent thirty-nine years in China. As she watched her fellow missionaries fall to disease and exhaustion, she became just as dedicated to educating Christians about the often preventable tragedies of missionary life as she was to educating Chinese people about the Christian life. Today, an annual missionary offering taken in her name continues to enable countless others to give their all for the gospel.

The Three-Cornered War Megan Kate Nelson, 2021-02-16 Finalist for the Pulitzer Prize in History A dramatic, riveting, and “fresh look at a region typically obscured in accounts of the Civil War. American history buffs will relish this entertaining and eye-opening portrait” (Publishers Weekly). Megan Kate Nelson “expands our understanding of how the Civil War affected Indigenous peoples and helped to shape the nation” (Library Journal, starred review), reframing the era as one of national conflict—involving not just the North and South, but also the West. Against the backdrop of this larger series of battles, Nelson introduces nine individuals: John R. Baylor, a Texas legislator who established the Confederate Territory of Arizona; Louisa Hawkins Canby, a Union Army wife who nursed Confederate soldiers back to health in Santa Fe; James Carleton, a professional soldier who engineered campaigns against Navajos and Apaches; Kit Carson, a famous frontiersman who led a regiment of volunteers against the Texans, Navajos, Kiowas, and Comanches; Juanita, a Navajo weaver who resisted Union campaigns against her people; Bill Davidson, a soldier who fought in all of the Confederacy’s major battles in New Mexico; Alonzo Ickis, an Iowa-born gold miner who fought on the side of the Union; John Clark, a friend of Abraham Lincoln’s who embraced the Republican vision for the West as New Mexico’s surveyor-general; and Mangas Coloradas, a revered Chiricahua Apache chief who worked to expand Apache territory in Arizona. As we learn how these nine charismatic individuals fought for self-determination and control of the region, we also see the importance of individual actions in the midst of a larger military conflict. Based on letters and diaries, military records and oral histories, and photographs and maps from the time, “this history of invasions, battles, and forced migration shapes the United States to this day—and has never been told so well” (Pulitzer Prize-winning author T.J. Stiles).

The Flyer Vault Daniel Tate, Rob Bowman, 2019-10-26 A visual tour de force showcasing Toronto’s vast concert history. “Not sure there’s ever been anything like this...The graphics are fascinating, the script is comprehensive. It’s staggering what’s been unleashed from the Vault.” — Gary Topp, promoter, half of the legendary duo the Garys “These pages will take you on a musical magical mystery tour of Toronto’s important place in concert history. Reading The Flyer Vault gives you a rush, just like the one you get when the house lights go down!” — Dan Kanter, multi-platinum-selling songwriter/producer “The Flyer Vault book helps bottle the lore, bringing me a little bit closer to my Toronto and its shows that have only grown in renown.” — Danko Jones, lead singer/guitarist of the rock trio Danko Jones Duke Ellington. Johnny Cash. David Bowie. Nirvana. Bob Marley. Wu-Tang Clan. Daft Punk. These are just some of the legendary names that played Toronto over the last century. Drawing from Daniel Tate’s extensive flyer collection, first archived on his Flyer Vault Instagram account, Tate and Rob Bowman have assembled a time capsule that captures a mesmerizing history of Toronto concert and club life, ?running the gamut of genres from vaudeville to rock, jazz to hip-hop, blues to electronica, and punk to country. The Flyer Vault:

150 Years of Toronto Concert History traces seminal live music moments in the city, including James Brown's debut performance in the middle of a city-wide blackout, a then-unknown Jimi Hendrix backing up Wilson Pickett in 1966 — the year a new band from London named Led Zeppelin performed in Toronto six times — and the one and only show by the Notorious B.I.G., which almost caused a riot in the winter of 1995. Complementing the book's flyers is the story of the music, highlighting such iconic venues as Massey Hall, the Concert Hall/Rock Pile/Club 888, and the BamBoo, alongside lesser-known but equally important clubs such as Industry Nightclub and the Edge.

High Minds Simon Heffer, 2022-04-05 An ambitious exploration of the making of the Victorian Age—and the Victorian mind—by a master historian. Britain in the 1840s was a country wracked by poverty, unrest, and uncertainty; there were attempts to assassinate the queen and her prime minister; and the ruling class lived in fear of riot and revolution. By the 1880s it was a confident nation of progress and prosperity, transformed not just by industrialization but by new attitudes to politics, education, women, and the working class. That it should have changed so radically was very largely the work of an astonishingly dynamic and high-minded group of people—politicians and philanthropists, writers and thinkers—who in a matter of decades fundamentally remade the country, its institutions and its mindset, and laid the foundations for modern society. *High Minds* explores this process of transformation as it traces the evolution of British democracy and shows how early laissez-faire attitudes to the fate of the less fortunate turned into campaigns to improve their lives and prospects. The narrative analyzes the birth of new attitudes in education, religion, and science. And *High Minds* shows how even such aesthetic issues as taste in architecture collided with broader debates about the direction that the country should take. In the process, Simon Heffer looks at the lives and deeds of major politicians; at the intellectual arguments that raged among writers and thinkers such as Matthew Arnold, Thomas Carlyle, and Samuel Butler; and at the great projects of the age, from the Great Exhibition to the Albert Memorial. Drawing heavily on previously unpublished documents, he offers a superbly nuanced portrait into life in an extraordinary era, populated by extraordinary people—and show how the Victorians' pursuit of perfection gave birth to the modern Britain we know today.

Archaeology Anthropology and Interstellar Communication Douglas A. Douglas A. Vakoch, 2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.
