**The School of Greatness** Lewis Howes, 2015-10-27 When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

**My Broken Language** Quiara Alegría Hudes, 2021-04-06 GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize-winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. LONGLISTED FOR THE ANDREW CARNEGIE MEDAL • ONE OF THE BEST BOOKS OF THE YEAR: NPR, New York Public Library, BookPage, and BookRiot • "Quiara Alegría Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories."—Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights* Quiara Alegría Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she'd have to get off the stairs and join

the dance. She'd have to find her language. Weaving together Hudes's love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multitythic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the world she loved in all its wild and delicate beauty.

Further, the main Hanahan and Weinberg "Hallmarks of Cancer" are revisited. In most chapters, the fundamental experiments that led to key concepts, connecting basic biology and biomedicine are highlighted. In the book's closing section all of these concepts are integrated in clinical studies, where molecular diagnosis as well as the various classical and modern therapeutic strategies are addressed. The book is written in an easy-to-read language, like a one-on-one conversation between the writer and the reader, without compromising the scientific accuracy. **The Emergence of Biophilic Design** Jana Söderlund,2019-10-18 This book addresses the emergence of biophilic design, a form of design that looks at people's intrinsic connection with nature. There is no denying that biophilic design is rapidly expanding globally as an effective response to pressing issues in urban areas and built environments. From being a term few had heard of in 2012, when the author's research began, to one that is currently trending in a broad range of disciplines, the story of its emergence has never

been properly told. The story of the emergence of biophilic design is the story of a social movement and how a gathering of people with a common interest and passion can spark a global trend. The book and the stories within are not only engaging but also informative and educational, offering readers an in-depth understanding of what biophilic design is all about, and how to promote its implementation in their own built environment. Hopefully, they will inspire people to act, to campaign and to implement initiatives in their urban environment, with the confidence that they are capable of making a difference. The author spent three years researching the emergence of biophilic design, and why and how it was driven by certain people who championed the concept. Part of the author's research involved a three-month tour of ten North American cities, during which she interviewed 26 key players. These people ranged from community leaders, landscape architects, and academics, to the CEOs of NGOs and government leaders. The result is a collection of stories that illustrate the evolution of biophilic design, and how it was frequently born from a passion for, belief in and love of nature, as well as a response to an urban crisis.

*Women and Male Violence* Susan Schechter, 1982 Takes an in-depth look at battering and the social movement against it. It describes not only the horrifying experiences of victims, but the powerful movement that demands an end to violence against women and permanent changes in the conditions of women's lives.

**News Coverage of Violence against Women** Marian Meyers, 1996-09-18 Marian Meyers explores evidence that shows that news coverage in North American cities routinely depicts criminal violence against females differently from the way it depicts violence against males. She argues that this serves to perpetuate traditional, inegalitarian gender stereotyping. Using original research and qualitative textual analysis, the author discloses the underlying ideology, myths and assumptions within news coverage, and points out the ways in which news broadcasting affects how we view the world and our lives. Meyers advocates a re-examination of crime news from a feminist perspective and a broadening of traditional understandings of the social construction of news to include issues of gender, race and class

It cuts across academic disciplines, the creative arts, and the media to pose two central questions: Is South Africa changing for the better, or are we static? Is there too much static for us to hear each other clearly? The various chapters provide key insights into recent media phenomena, such as Die Antwoord, a South African rap-rave group; the 2010 Soccer World Cup Bok van Blerk, a South African musician; Tsotsi, a 2005 film; Kuli Roberts' Sunday World newspaper column on "coloureds"; the revisionist film Afrikaaps; and the University of the Free State's Reitz video scandal. The close readings of lyrics, videos, and films are loaded with keen insights explaining what the cultural issues are and why they matter.

**Lady Gaga and the Sociology of Fame** Mathieu Deflem, 2016-11-30 This book investigates the stardom of Lady Gaga within a cultural-sociological framework.
