Extramural English in Teaching and Learning Pia Sundqvist,Liss Kerstin Sylvé,2016-11-09 This book is unique in bringing together theory, research, and practice about English encountered outside the classroom – extramural English – and how it affects teaching and learning. The book investigates ways in which learners successfully develop their language skills through extramural English and provides tools for teachers to make use of free time activities in primary and secondary education. The authors demonstrate that learning from involvement in extramural English activities tends to be incidental and is currently underutilized in classroom work. A distinctive strength is that this volume is grounded in theory, builds on results from empirical studies, and manages to link theory and research with practice in a reader-friendly way. Teacher-educators, teachers and researchers of English as a foreign language and teachers of English as a second language across the globe will find this book useful in developing their use of extramural English activities as tools for language learning.

XOXO Axie Oh,2021-07-13 Jenny's never had much time for boys, K-pop, or really anything besides her dream of being a professional cellist. But when she finds herself falling for a K-pop idol, she has to decide whether their love is worth the risk. A modern forbidden romance wrapped in the glamorous and exclusive world of K-pop, XOXO is perfect for fans of Jenny Han and Maurene Goo. Jenny didn't get to be an award-winning, classically trained cellist without choosing practice over fun. That is, until the night she meets Jaewoo. Mysterious, handsome, and just a little bit tormented, Jaewoo is exactly the kind of distraction Jenny would normally avoid. And yet, she finds herself pulled into spending an unforgettable evening wandering Los Angeles with him on the night before his flight home to South Korea. With Jaewoo an ocean away, there's no use in dreaming of what could have been. But when Jenny and her mother move to Seoul to take care of her ailing grandmother, who does she meet at the elite arts academy she's just been accepted to? Jaewoo. Finding the dreamy stranger who swept you off your feet in your homeroom is one thing, but Jaewoo isn't just any student. Turns out, Jaewoo is a member of one of the biggest K-pop bands in the world. And like most K-pop idols, Jaewoo is strictly forbidden from dating anyone. When a relationship means not only jeopardizing her place at her dream music school but also endangering everything Jaewoo's worked for, Jenny has to decide once and for all just how much she's willing to risk for love. XOXO is a new romance that proves chasing your dreams doesn't have to mean sacrificing your heart, from acclaimed author Axie Oh. Indigo Best Teen Books of 2021

Diagnostic Measurement Andr? A. Rupp,Jonathan Templin,Robert A. Henson,2010-04-09 This book provides a comprehensive introduction to the theory and practice of diagnostic classification models (DCMs), which are useful for statistically driven diagnostic decision making. DCMs can be employed in a wide range of disciplines, including educational assessment and clinical psychology. For the first time in a single volume, the authors present the key conceptual underpinnings and methodological foundations for applying these models in practice. Specifically, they discuss a unified approach to DCMs, the mathematical structure of DCMs and their relationship to other latent variable models, and the implementation and estimation of DCMs using Mplus. The book's highly accessible language, real-world applications, numerous examples, and clearly annotated equations will encourage professionals and students to explore the utility and statistical properties of DCMs in their own projects. This book will appeal to professionals in the testing industry; professors and students in educational, school, clinical, and cognitive psychology. It will also serve as a useful text in doctoral-level courses in diagnostic testing, cognitive diagnostic assessment, test validity, diagnostic assessment, advanced educational measurement, psychometrics, and item response theory

Handbook of Media Management and Economics Alan Albarran,Bozena Mierzejewska,Sylvia M. Chan-Olmsted,Jaemin Jung,Michael O. Wirth,2006-04-21 This comprehensive

Handbook provides a synthesis of current work and research in media management and economics. The volume has been developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields; and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools, and future directions for research. Each chapter offers the current state of theory and scholarship of a specific area of study, and the volume contributors--all well established in their areas of specialty--represent domestic and international scholarship. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms, and establishes the direction for the next phases of research in this growing arena of study. The Handbook of Media Management and Economics will serve to stimulate future thought and research in the media management and economics disciplines. As such, this volume will be a required reference for students, professors, and industry practitioners for years to come.

X-ray Free Electron Lasers Sébastien Boutet,Petra Fromme,Mark S. Hunter,2019-01-10 The timely volume describes recent discoveries and method developments that have revolutionized Structural Biology with the advent of X-ray Free Electron Lasers. It provides, for the first time, a comprehensive examination of this cutting-edge technology. It discusses of-the-moment topics such as growth and detection of nanocrystals, Sample Delivery Techniques for serial femtosecond crystallography, data collection methods at XFELs, and more. This book aims to provide the readers with an overview of the new methods that have been recently developed as well as a prospective on new methods under development. It highlights the most important and novel Structural Discoveries made recently with XFELS, contextualized with a big-picture discussion of future developments.

World Economic and Social Survey 2018 United Nations Publications,2018-10-15 This publication reviews the advances in frontier technologies including automation, robotics, renewable energy technologies, electric vehicles, biotechnologies and artificial intelligence and analyzes their economic, social and environmental impact. These technologies present immense potentials for the 2030 Agenda, fostering growth, prosperity and environmental sustainability. They also pose significant risks of unemployment, underemployment and rising income and wealth inequality and raise new ethical and moral concerns. The Survey identifies policy measures at national levels with the capacity to both maximize the potential of these technologies and mitigate their risks, thereby striking a balance among economic efficiency, equity and ethical considerations
